Pigalog®

Your leak, drip and spill expert.

TRUST PIG

Look out for the icons on this page throughout the Pigalog. Each one highlights key attributes behind our CLEANER, SAFER, BETTER and GREENER solutions—from recycled content and washable, reusable designs to antimicrobial features, patented and Invented Here innovations, and products that support ISO 14001.

They offer a quick guide to the added value built into many PIG products, helping you compare options and choose the solutions that best fit your needs. It's just another way we help you see, at a glance, what sets PIG apart.

CLEANER

Our comprehensive product range—from absorbent mats to spill containment and everything in between—includes more than 200 items made with up to 100% recycled content.

Look for the recycled-content icons throughout this Pigalog to identify the products that help support your sustainability goals.

SAFER

For more than 25 years, New Pig Europe has delivered high-quality solutions that help protect employees, customers, and the environment from leaks, drips and spills.

Whether you're keeping walkways dry to prevent slips and falls, absorbing a 98% sulfuric acid spill, or managing an oily leak, our range of over 750 products is designed to help you handle these challenges safely and confidently.

BETTER

With over 40 patented products—and many more developed and invented here—you can trust New Pig for high-performance solutions to the leaks, drips and spills you face every day.

Our commitment to innovation, expert advice and first-class service ensures you have the tools needed to keep your workplace, your people and the environment protected.

GREENER

PIG products can support your ISO 14001 compliance and help drive continuous improvement within your Environmental Management System (EMS). That dedication to environmental responsibility mirrors our own values. New Pig Europe is now a Certified Carbon Neutral business, having measured and independently verified our emissions to international standards and offset them entirely through accredited climate initiatives.

Yet becoming carbon neutral is only one step on our journey. We continue to lower emissions, develop more sustainable products and provide solutions that minimise risk, save time and help you meet your environmental goals with confidence.

ONE TEAM. FOUR LANGUAGES.

Did you know? New Pig's in-house experts are multilingual, with native speakers in English, French, German and Italian.

New Pig

WHERE PERFORMANCE MEETS PURPOSE

At New Pig, performance and purpose go hand in hand. Every product we create is designed to help you manage leaks, drips and spills in a way that supports cleaner operations, safer workplaces, better outcomes and greener choices for the future.

As a certified carbon-neutral company, purpose guides every decision we make. Our range includes more than 200 recycled-content products and durable, long-lasting options that reduce waste and help you meet your sustainability and environmental goals.

Our commitment to performance runs just as deep. With over 40 patented technologies, our solutions offer the reliability you need to respond quickly, maintain safety and keep operations running smoothly — even when the unexpected happens.

This Pigalog brings everything together in one clear, practical resource, helping you navigate our range and quickly identify the solutions that fit your needs.

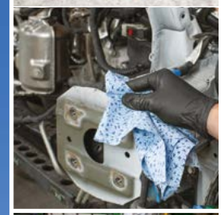

Its improved navigation, updated information and practical guidance make selection easier — whether you're dealing with routine maintenance, a recurring issue, or a more complex containment challenge — giving you the confidence to choose solutions that protect people, places and the planet when it matters most.

"Collaboration and trust are the foundation of how we work. By combining our strengths with those of our partners across Europe, our aim is to deliver the solutions you need to manage leaks, drips, and spills with confidence, helping everyone on the path towards cleaner, safer, better, and greener spaces."

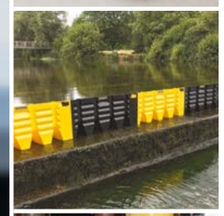

Alastair McSkimming
European CEO

ABSORBENTS

PIG ABSORBENTS WORK AS HARD AS YOU DO.

Our absorbents deliver the performance & hardworking features you just won't find anywhere else!

- The widest selection of absorbent products in Universal, Oil-Only and HazMat Chemical versions.
- Since 1985, we've produced top quality products that are proven and trusted worldwide.
- Absorbents made to work where you work — in the factory, on the jobsite or in remote areas.
- Our experts never stop inventing new solutions to help you work cleaner, safer and better.
- Over 50% of our PIG Absorbents range is manufactured to contain at least 25% recycled content.

UNIVERSAL

Also called "MRO" absorbents, PIG Universal Absorbents soak up the widest range of everyday liquids, including oils, coolants, solvents and water.

WATER

PIG Water Absorbents are designed for quick-acting, higher-volume absorbency that works on contact.

OIL-ONLY

PIG Oil-Only Absorbents repel water, so you can clean up fuel and oil-based spills, even in outdoor applications.

HAZMAT CHEMICAL

PIG HazMat Chemical Absorbents are specially treated to soak up most acids, caustics and unknown fluids without degrading or reacting.

PIG UNIVERSAL MATS

Absorbs what matters. Works where you do.

Perform everyday maintenance and clean up spills of oils, coolants, solvents and water with the most durable absorbent mats you can buy.

Discover unmatched liquid control with PIG Universal Mats. Advanced multi-layered construction, precision thermal bonding, and exclusive dimple design define superior performance.

Crafted from 100% polypropylene, PIG Universal Mats excel in handling a diverse range of liquids, including oils, coolants, solvents, and water.

Tackle your liquid messes efficiently and confidently with the industry-leading choice for liquid clean-up — PIG Universal Mats.

PIG Universal Mats contain up to 25% Recycled Content.*

*Excluding PIG High-Visibility Yellow Universal Absorbent Mats and PIG Universal Mat Roll Strip in Dispenser Box (yellow colour variant only).

SUPERIOR TECHNOLOGY

Multiple layers of durable, thermally bonded, flame-resistant 100% polypropylene make PIG Absorbent Mat the strongest mat on the market.

SOAKS UP FAST

Exclusive dimple pattern quickly wicks liquid for faster, easier clean-up.

HOLDS IT'S LIQUID

Highly absorbent. Fine-fibre construction retains liquid.

LASTS 2X LONGER

Tougher than ordinary mats for fewer changeouts. Won't rip, tear or shred, even if soaked.

TECHNICAL ICONS

DURABILITY

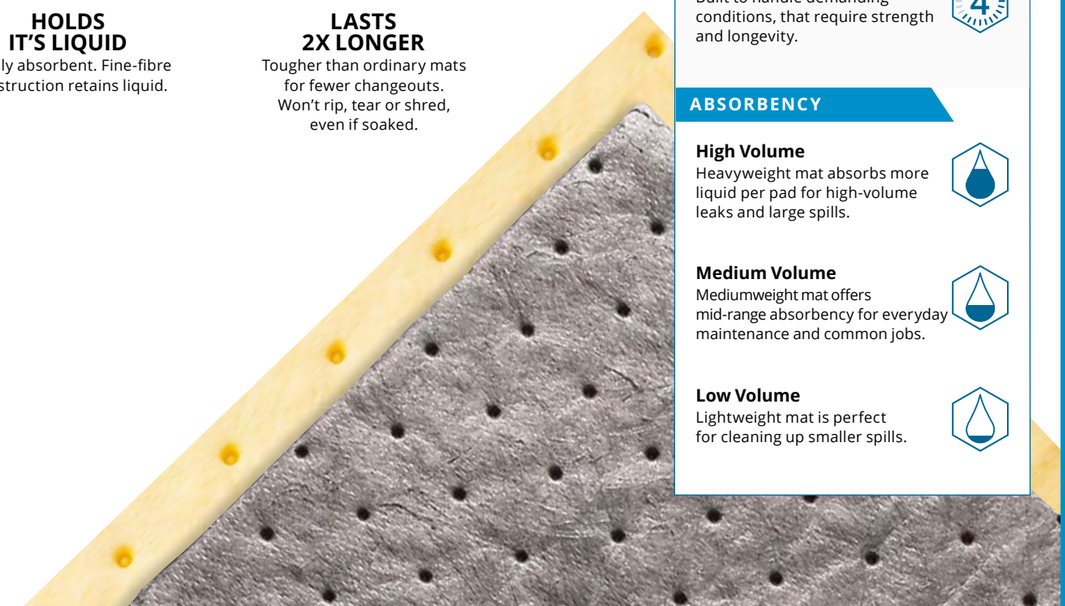

Enhanced Durability
Built to handle demanding conditions, that require strength and longevity.

ABSORBENCY

High Volume
Heavyweight mat absorbs more liquid per pad for high-volume leaks and large spills.

Medium Volume
Mediumweight mat offers mid-range absorbency for everyday maintenance and common jobs.

Low Volume
Lightweight mat is perfect for cleaning up smaller spills.

PIG Universal Heavyweight Mats

For big leaks and spills.

Heavyweight PIG Mat Pads and Rolls deliver greater durability and absorbency for demanding tasks and large-volume clean-ups.

MATE261 is perfectly sized for Euro pallet stacking and shipping; order full pallets to maximise box counts and optimise freight costs.

PIG Barrel Top Mat (MAT208), with pre-cut bung holes, fits steel drum tops to absorb pump drips and prevent slips.

Contains 25% or more recycled content.

UNIVERSAL MATS

For oils, coolants, solvents & water

Magnetic Holder attaches to any metal surface to keep your PIG Mat Roll right where you need it for quick clean-ups.

PIG Universal Mini Mat Rolls

Smaller, more convenient rolls for minor leaks, drips and spills.

Lightweight, economical, and easy to handle. The smaller size, perforated every 25 cm to reduce waste, is perfect for quick clean-ups and convenient storage.

Available in individual rolls (MAT1990-EN) or a convenient six-pack (MAT2600) for multiple locations. Display box (MAT1991-EN) contains 12 rolls (MAT1990-EN) and is ideal for retail environments.

An optional magnetic mat roll holder (57701) is also available and attaches to any metal surface to position the mat roll precisely where needed for quick clean-up tasks.

Contains 25% or more recycled content.

KEEP WATER OUT. KEEP WORK FLOWING.

Control water from leaks, weather-related incidents or cleaning before it creates risks.

EXPLORE THE RANGE.
SEE PAGES 36–41 & 76–77.

PIG ESSENTIALS UNIVERSAL MATS

The economical choice for everyday use.

These budget-friendly mats offer great value without sacrificing performance when you need to absorb and retain leaks, drips and spills of oils, coolants, solvents, and water in everyday applications.

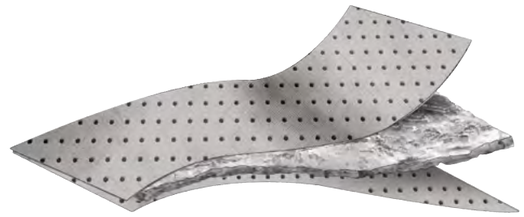

Made from 100% polypropylene, these mats feature high-loft meltblown fibres that maximise surface area for fast, efficient liquid absorption.

Engineered for performance, their wicking capabilities make them ideal for managing leaks and spills effectively.

PIG Essentials Pro Universal Mat

Affordable choice for great durability.

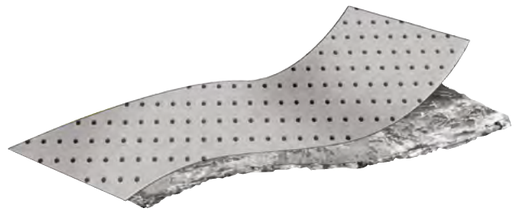

- Reliable and economical. Engineered for extended wear and fewer changeouts, to deliver cost-effective performance.
- Enhanced durability. Top and bottom fine-fibre polypropylene layers withstand the demands of tough cleaning tasks.
- High-capacity absorption. High-loft meltblown center absorbs large volumes of liquid quickly.

PIG Essentials Plus Universal Mat

Affordable choice for light foot traffic.

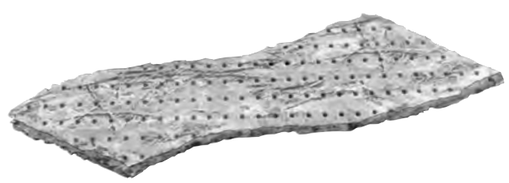

- Economical and effective. Provides a cost-efficient solution for managing spills without compromising performance.
- Fast and efficient. Bond points fuse layers of fibres together and increase absorbency speed to handle large volumes of liquid quickly.
- Strong, reliable construction. Low-lint spunbond layer offers tear resistance and added durability.

PIG Essentials Universal Mat

Affordable choice for quick, easy clean-up.

- Quick and economical. Provides fast absorption at an affordable cost.
- Perfect for general applications. Offers reliable performance for general, light-duty clean-up tasks.
- Highly absorbent design. Lofty, randomly assembled fibres start wicking on contact for superior liquid absorption.

TECHNICAL ICONS

DURABILITY

Basic Durability
Ideal for short-term, low-impact applications where durability is not a priority.

Standard Durability
Reliable wear resistance and performance for routine use in everyday applications.

High Durability
Long-lasting with high wear resistance for frequent use in a wide variety of environments.

ABSORBENCY

High Volume
Heavyweight mat absorbs more liquid per pad for high-volume leaks and large spills.

Low Volume
Lightweight mat is perfect for cleaning up smaller spills.

PIG Essentials Pro Universal Mats

Great durability at an affordable price.

Mat's densely woven, small-diameter fibres increase surface area for enhanced strength and durability, making it ideal for demanding work areas.

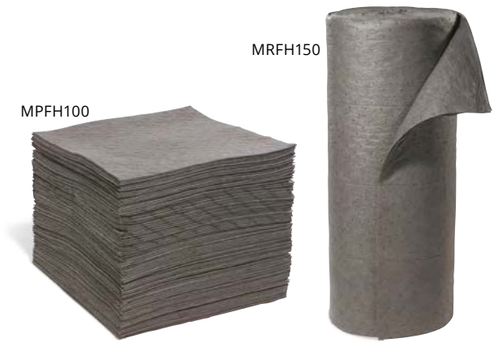

The 3-ply heavyweight construction offers maximum absorbency and ensures durability, resisting heavy foot traffic for more extended wear and fewer changeouts.

Whether in industrial settings or busy workplaces, this mat provides a high-performance, long-lasting solution to help tackle frequent leaks and spills.

	76 cm W x 91 m L	1 Roll	224 L/Bag	MRBL300

PIG Essentials Universal Mats

For soak-and-dispose use.

Mat starts absorbing on contact, with a loose-weave design that maximises absorbency while using less material, ensuring quick, efficient clean-up of leaks, drips and spills.

Large-diameter fibres wick liquids instantly, saving time in critical situations to help prevent potential slip hazards and environmental damage.

Choose heavyweight for durability and absorbency to tackle larger spills or lightweight for a cost-effective solution to get to grips with smaller, everyday leaks without sacrificing performance.

PIG SPUNBOND UNIVERSAL MATS

The go-to for diverse applications.

Multiple layers of thermally-bonded 100% polypropylene combine with the added strength and durability of a spunbond top layer to offer a mat that delivers wunparalleled performance and absorbency.

The innovative dimple pattern enhances its ability to absorb and retain liquids, quickly wicking them into the absorbent core to prevent surface pooling. This decreases the risk of liquids spreading, helps reduce slip hazards, and makes clean-up more efficient.

Handle your liquid challenges effortlessly and reliably with the exceptional absorbency, retention, and strength of PIG's Universal Spunbond mat range — the toughest, most efficient mat for daily maintenance and clean-up of various liquids, including oils, coolants, solvents*, and water.

PIG Spunbond Universal Mats contain up to 25% Recycled Content.†

RECYCLED 25% CONTENT

* Ham-O mat is not recommended for absorbing solvents or corrosive liquids that may affect the printed pattern.
† Excluding PIG CHAT MAT Universal High-Visibility Mats.

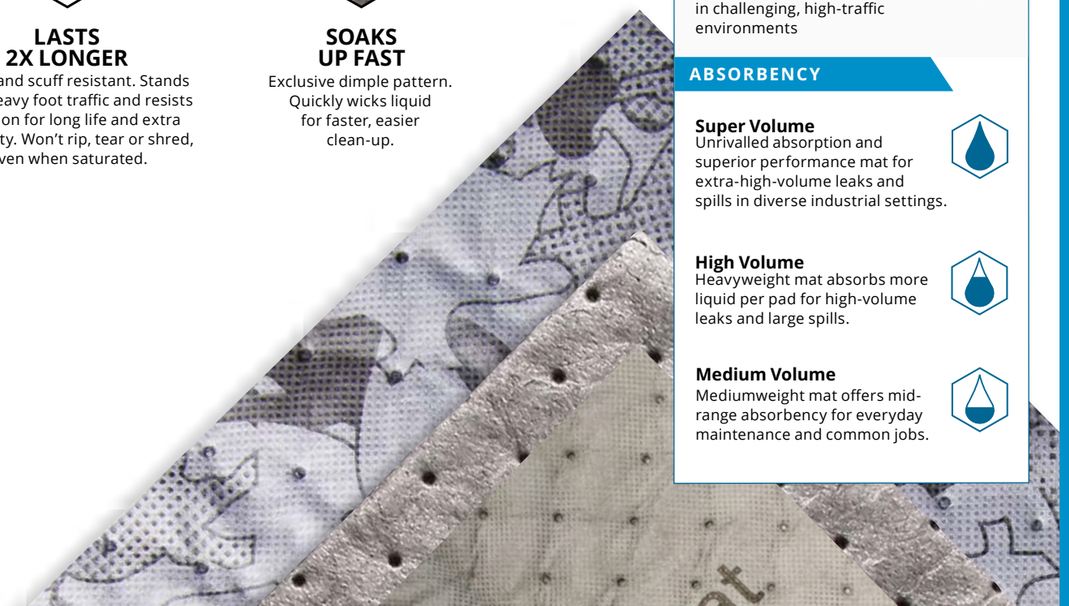

SUPERIOR TECHNOLOGY
Spunbond outer layer(s) and multiple layers of durable, thermally bonded, flame-resistant 100% polypropylene make PIG Spunbond Absorbent Mats the strongest on the market, offering superior absorbency, durability and wear resistance.

HOLDS IT'S LIQUID
Highly absorbent. Fine-fibre construction retains liquid.

2X

LASTS 2X LONGER
Tough and scuff resistant. Stands up to heavy foot traffic and resists abrasion for long life and extra durability. Won't rip, tear or shred, even when saturated.

SOAKS UP FAST
Exclusive dimple pattern. Quickly wicks liquid for faster, easier clean-up.

TECHNICAL ICONS

DURABILITY

Super Durability 5
Premium-grade endurance for superior wear resistance in challenging, high-traffic environments

ABSORBENCY

Super Volume
Unrivalled absorption and superior performance mat for extra-high-volume leaks and spills in diverse industrial settings.

High Volume
Heavyweight mat absorbs more liquid per pad for high-volume leaks and large spills.

Medium Volume
Mediumweight mat offers mid-range absorbency for everyday maintenance and common jobs.

PIG Fat Mat Super-Absorbent Universal Mats

Double-thick and long-lasting.

With twice as many layers as the original PIG Mat, this mat is designed for demanding applications involving large volumes of liquid.

Due to its tough and durable construction, it can withstand heavy foot traffic without ripping or fraying, even when saturated. Plus, fast-wicking technology keeps moisture off surfaces, helping to prevent slips in leak-prone areas.

Flame-resistant material melts when exposed to high heat and won't ignite immediately like untreated cellulose mats. The mat can also be wrung out and incinerated after use to reduce waste or for fuel blending.

Contains 25% or more recycled content.

Technical Specifications

SPUNBOND UNIVERSAL MATS
For oils, coolants, solvents & water

PIG Ham-O Universal Mat

Grime hides in the camo design.

Unique camouflage top layer absorbs liquids and grime, making spills blend right in, so the mat always looks clean while helping keep workplaces safe.

Durable and scuff-resistant, it stands up to heavy foot traffic, resisting rips, tears, and abrasions, even when tools are involved.

Heavyweight rolls (MAT132) with a poly backing help prevent grease, oil and other liquids from reaching floors, counters or other surfaces.

MATE118 is perfectly sized for Euro pallet stacking and shipping; order full pallets to maximise box counts and optimise freight costs.

After use, it can be wrung out and incinerated to reduce waste or fuel blending.

Contains 25% or more recycled content.

PIG Extra-Duty Universal Mats

Get two-sided tough.

The two spunbond outer layers make this mat tough enough to resist ripping and fraying from wiping rough surfaces that would shred conventional mats.

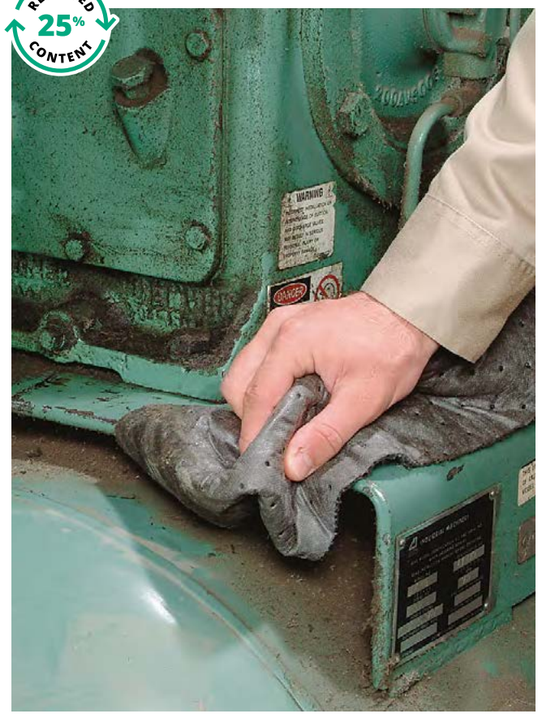

Contains 25% or more recycled content.

PIG CHAT MAT Universal High-Visibility Mat Roll

Clean up spills while sending a safety message that can't be missed!

Clean up spills while promoting safety with this high-visibility yellow mat roll. The bright yellow colour and repeating safety message ensure it is easily seen, even in poorly lit areas. Durable and scuff-resistant, it withstands foot traffic without creating trip hazards, helping to enhance workplace safety.

This product is available with German language print only. For advice on suitable alternatives, please contact us.

PIG BLUE UNIVERSAL MATS

Handle high-volume liquids with ease.

Featuring a super absorbent core, Pig Blue Mats soak up more oils, coolants, solvents, water, and other viscous substances than other mats.

We craft Pig Blue using 75% recycled fibres that absorb and retain large quantities of liquid without breaking down or leaking. It's also fire retardant, meeting ASTM Standard E84-08 for added safety.

While cheaper mats may seem cost-effective, their need for constant replacement quickly negates any initial savings. So, when you need absorbency over durability, trust Pig Blue Mat to provide reliable, long-lasting performance that helps keep your workspace clean and safe.

PIG Blue Universal Mats contain up to 75% Recycled Content.

Patented technology delivers superior absorbency.

SUPERIOR TECHNOLOGY
Super absorbent core fuses natural and synthetic fibres to enhance absorbency, strength and loft.

MAXIMUM ABSORBENCY
Soaks up more so you use less on big spills.

STAYS TOGETHER
Won't fall apart, even when saturated.

NO LEAK ZONES
Free of light spots for even absorption.

TECHNICAL ICONS

DURABILITY

Basic Durability
Ideal for short-term, low-impact applications where durability is not a priority.

ABSORBENCY

High Volume
Heavyweight mat absorbs more liquid per pad for high-volume leaks and large spills.

Low Volume
Lightweight mat is perfect for cleaning up smaller spills.

Pig Blue Heavyweight Universal Mat

Industrial-grade performance for persistent leaks, drips, and large spills.

Each heavyweight pad features a tear- and sag-resistant design that locks in more liquid per pad, reducing changeouts and saving you money under heavy-volume conditions.

Perfect for steady leaks and drips and in areas where changeouts are difficult, like under machines, generators or in hard-to-reach places.

Certified to ASTM E84-08 fire-retardancy standards for added safety when handling high-volume liquid clean-ups.

Contains 75% pre-consumer recycled content.

BLUE UNIVERSAL MATS
For oils, coolants, solvents & water

Pig Blue Lightweight Universal Mat

Economical performance for tackling minor leaks, drips, and small spills.

Lightweight mat pads combine high absorbency with tear-resistant durability, so you need fewer pads for clean-ups, reducing waste and maintenance costs.

Ideal for steady drips and hard-to-reach spots—slide a pad under machines, generators, or conveyor lines to help maintain a cleaner and safer workplace.

Certified to ASTM E84-08 fire-retardancy standards for added safety during light-duty liquid clean-ups.

Contains 75% pre-consumer recycled content.

PIG HIGH-TRAFFIC UNIVERSAL MATS

Built for traffic - from feet to forklifts.

Our family of high-traffic mats take PIG Universal Mat to the next level, with upgraded features like spunbond layers, zigzag stitching, poly or adhesive backing, and heat-fused and needle-punched layers. The end results are the toughest mats you can buy.

100% Polypropylene. The mat construction ensures all products in this range absorb liquids quickly, stay strong and durable, and resist damage, even with heavy use or traffic.

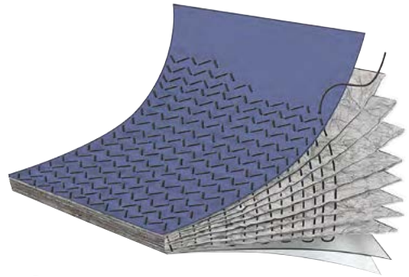

PIG High-Traffic Universal Mats contain up to **25% Recycled Content.***

*Excluding PIG Traffic Mat Universal Mats.

PIG Grippy Adhesive-Backed Absorbent Mat

Stays securely in place, no shifting, bunching, or flipping over.

- Superior Technology. Full-coverage adhesive backing, absorbent fine-fibre surface, and liquid-blocking poly-backed layer work together to reduce slips, trips, and falls, ensuring safer, dry floors in any environment.
- Engineered For Toughness. Constructed with a durable spunbond top layer and reinforced with zigzag stitching, this mat is built to withstand foot and light wheeled traffic, delivering exceptional durability and reliable performance in demanding environments.

PIG Elephant Mat

PIG Mat Reinvented: Zigzag stitched for extra walk-on toughness.

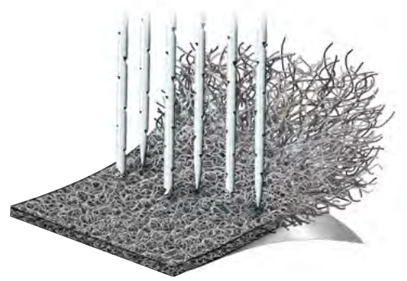

- Superior Technology. Multiple flame-resistant, thermally bonded 100% polypropylene layers deliver exceptional strength, making this mat the strongest on the market.
- Enhanced Durability. Zigzag stitching reinforces the construction, offering exceptional durability and long-lasting performance in tough environments.

PIG Traffic Mat

Built Tough: The absorbent mat that handles forklift traffic with ease.

- Superior Technology. Barbed needles interlock heat-fused polypropylene fibres to create a strong and durable surface. Poly-backed version (MAT223) helps prevent liquids from reaching floors, keeping them drier and safer.
- Exceptional Durability. Engineered to handle heavy foot, cart, and forklift traffic without compromising absorbency, this mat is built to perform in demanding environments, delivering reliable performance every time.

INDEX

PIG Grippy Adhesive-Backed Mat	032
PIG Elephant Mat	033
PIG Traffic Mat	034

TECHNICAL ICONS

DURABILITY

Extreme Durability
Unparalleled durability and extraordinary wear resistance in the most extreme traffic conditions.

ABSORBENCY

Medium Volume
MediumWeight mat offers mid-range absorbency for everyday maintenance and common jobs.

TRAFFIC

Heavy Wheeled Traffic
Engineered to withstand constant movement from heavy machinery—such as forklifts—in demanding industrial environments.

Light Wheeled Traffic
Ideal for areas with frequent use of light trolleys, carts, or pallet trucks.

Light Foot Traffic
Perfect for low-use areas like maintenance rooms, storage spaces, or low-traffic corners of the workplace.

PIG Grippy Adhesive-Backed Absorbent Mat

Stays put no matter what.

A specially formulated, full-coverage adhesive backing keeps mat in place to prevent bunching, sliding or blowing away. And the poly backing creates a liquidproof barrier that keeps floors completely dry.

Designed for general industrial use, it rapidly absorbs leaks, drips, and overspray in spill-prone areas, such as workbenches, around machines, and more, to maintain a clean, slip-free floor or workbench.

Choose the grey colourway for use in spray booths and mixing rooms to capture overspray, dust, and particles, helping to eliminate paint defects and reduce fire hazards.

Contains up to 25% recycled content.

Please note: New Pig provides the warranties implied by law only in relation to New Pig adhesive-backed mats. The customer must ensure that these products are suitable for use in their premises and on their flooring. Product lifespan dependant upon usage conditions and traffic patterns. Further details to relevant terms and conditions can be found on page 217.

HIGH-TRAFFIC UNIVERSAL MATS
For oils, coolants, solvents & water

PIG Elephant Universal Mats

Handles “tons” of traffic.

Zigzag stitching offers enhanced strength and extreme durability, making this mat perfect for absorbing tough leaks, drips, and spills around machines or equipment.

Highly absorbent mat withstands areas with heavy foot traffic or light to moderate wheeled traffic and even resists pilling when tools are moved or slid on it to ensure the work surface remains smooth.

It is also available with a poly-backing (MAT270), designed to face upwards when placed over spills, to help reduce harmful, flammable, or irritating vapours, making it ideal for more hazardous work environments.

After use, mat can be wrung out and incinerated for waste reduction or fuel blending.

Contains 25% pre-consumer recycled content.

PIG Traffic Mat Universal Mats

Heavy traffic? Get a tough mat!

Extremely durable mats resist rips, shreds, and fraying, even under forklift traffic. Heat-fused and needle-punched, they are our most durable absorbent mats, perfect for areas with heavy foot, cart, or industrial vehicle traffic.

It is also available with a poly-backing (MAT223) to help prevent absorbed liquids from ever reaching the floor.

The wide rolls efficiently absorb everyday spills, leaks, and overspray around machines or large areas, including aisles-and walkways. They can be easily cut with scissors or a utility knife for a custom fit and can be wrung out and incinerated after use to reduce waste or for fuel blending.

PIG WATER MATS

The go-to solution for water clean-up during an emergency.

Whether dealing with leaks, spills, or condensation, these products are designed to absorb large volumes of water on contact, helping to maintain a safe, dry environment by preventing puddles and slip hazards.

Ideal for managing ingress from wet weather conditions, system failures, or unexpected breakdowns, they offer a more efficient and safer alternative to traditional water clean-up solutions.

Designed specifically for water clean-up during wet weather, system failures and breakdowns, overflows, spills, roof leaks, burst and leaking pipes and more.

Absorb large volumes of water on contact so there are no pools or puddles to slip on.

PIG Water Mats contain 60% pre-consumer recycled cellulose

Experience unmatched performance with our patented technology, delivering superior durability and absorbency.

RECYCLED 60% CONTENT

PATENTED

INDEX

035-036

HEAVYWEIGHT

Water Absorbent Mats 035

SUPERIOR TECHNOLOGY

Spunbond polypropylene top layer adds durability, while the fused natural and synthetic fibres of the bottom layer create strength and enhance the absorbency of the super absorbent, lofty inner core.

HOLDS TOGETHER

Mat won't rip or fall apart when saturated thanks to its tough, spunbond top layer.

SUPERFAST WICKING

Designed and engineered to pull in large volumes of water on contact.

TECHNICAL ICONS

DURABILITY

Standard Durability
Reliable wear resistance and performance for routine use in everyday applications.

ABSORBENCY

High Volume
Unrivalled absorption and superior performance mat for extra-high-volume leaks and spills in diverse industrial settings.

PIG Water Absorbent Mats

The ONE mat to stock for water clean-up from wet weather to washdowns, and more.

Quickly absorbs large volumes of water on contact, helping to prevent damage and slips with its superfast wicking ability.

Mat can be wrung out and reused during a single water clean-up, making spill response quicker and more cost-effective.

The mat stays intact, even when fully saturated, preventing rips or tears during handling. Easy-tear perforations allow usage to be tailored to clean-up needs, offering a cost-effective, cleaner and more efficient alternative to mops, rags, and towels.

Contains 60% pre-consumer recycled cellulose.

PIG ABSORB-&-LOCK STRIPS & PADS

Water leaks won't stand a chance: The ultimate solutions for water absorption.

An innovative solution for managing water leaks and condensation in various settings.

Designed to catch and lock in high volumes of water upon contact, these absorbent strips and pads ensure that moisture is securely contained, preventing any escape — so they're never a trip hazard like buckets or pans.

LIQUID TIGHT
Absorbed water is "locked" inside; won't leach or run out when you pick up or dispose, even when fully saturated.

FAST ACTING
Super Absorbent Polymer (SAP) filler swells on contact with water and expands to pull in large volumes of liquid quickly.

ECO FRIENDLY
Non-toxic and non-hazardous for easy disposal.

TECHNICAL ICONS

ABSORBENCY

Super Volume
Absorb more liquid per pad or strip for high-volume leaks and large spills.

ABSORB-&-LOCK WATER STRIPS

For water, but not oil-based liquids

PIG Absorb-&-Lock Water Absorbent Strips

Absorb high volume leaks and drips in problem areas.

These water-absorbing gel mat strips quickly swell on contact with water, expanding to pull in large volumes of liquid. Once absorbed, the water is locked inside, preventing any leakage during handling or disposal, even when fully saturated.

Ideal for sewage backups, lavatory overflows, and around equipment, appliances, or machinery. When expanded, strips act as a barrier to stop leaks from spreading into walkways or seeping under doors. Their low-profile design fits tight spaces and reduces trip hazards. Safe, non-toxic, and easy to dispose of after saturation.

Note: Printed with "Caution" safety messaging - available in English only.

PIG OIL-ONLY MATS

Absorb oil and repel water.

Engineered to absorb and clean up oily leaks and spills while repelling water, PIG Oil-Only Absorbent Mats efficiently clean up oil-based liquids on land and water.

These mats are made from 100% polypropylene and resist ripping, tearing, and fraying, even when fully saturated. Their strong multi-layer construction, precision thermal bonding, and exclusive dimple pattern ensure they handle fuels, lubricants, and petroleum spills with ease.

Ideal for skimming and everyday oil spill response, they offer a durable, cost-effective solution when oil is all you need to clean up.

SUPERIOR TECHNOLOGY
Multiple layers of 100% polypropylene make PIG Oil-Only Absorbent Mat the toughest on the market.

SOAKS UP FAST
Exclusive dimple pattern quickly wicks liquid for faster, easier clean-up.

LASTS 2X LONGER
PIG Oil-Only Mat only absorbs oil-based liquids and lasts 2X longer than ordinary mats for fewer changeouts

HOLDS IT'S LIQUID
Highly absorbent, fine-fibre construction. No liquid or fibre residue.

HYDROPHOBIC
Repels water. Oil is absorbed while water beads and rolls right off.

Smaller, more convenient rolls for minor leaks, drips and spills.

Lightweight, economical, and easy to handle. The smaller size, perforated every 25 cm to reduce waste, is perfect for quick clean-ups and convenient storage.

Available in individual rolls (MAT4990-EN) or a convenient six-pack (MAT4600) for multiple locations. Display box (MAT4991-EN) contains 12 rolls and is ideal for retail environments.

An optional magnetic mat roll holder (57701) is also available and attaches to any metal surface to position the mat roll precisely where needed for quick clean-up tasks.

PIG ESSENTIALS OIL-ONLY MATS

For economical spill clean-up on land and water.

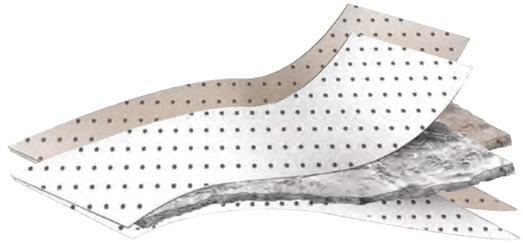

Specifically designed to absorb oils and fuels while repelling water, these mats are perfect for areas where oil leaks and spills are common. They offer a cost-effective way to handle oil spills on land and water without sacrificing quality or safety.

Made from 100% polypropylene, these oil-only mats feature high-loft meltblown fibres that maximise surface area for superior absorption. Designed for efficiency, they quickly absorb oil-based liquids while repelling water.

PIG Essentials Pro Oil-Only Mat

Affordable choice **for great durability.**

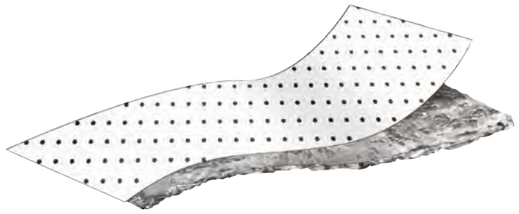

- Reliable and economical. Offers cost-effective spill management in high-traffic areas near machinery and assembly lines.
- Enhanced durability. Top and bottom fine-fibre polypropylene layers withstand the demands of tough cleaning tasks.
- High-capacity absorption. High-loft meltblown centre absorbs large volumes of liquid quickly.

PIG Essentials Plus Oil-Only Mat

Affordable choice for light foot traffic

- Economical and effective. Provides a cost-efficient solution for managing everything from spills to cleaning small parts without compromising performance.
- Fast and efficient. Bond points fuse layers of fibres together and increase absorbency speed to handle large volumes of liquid quickly.
- Strong, reliable construction. Low-lint spunbond layer offers abrasion resistance for added durability.

PIG Essentials Oil-Only Mat

Affordable choice **for quick, easy clean-up.**

- Quick and economical. Provides fast absorption at an affordable cost.
- Versatile and reliable. Provides quick, efficient clean-up of liquid spills on land or water, making it ideal for outdoor use.
- Highly absorbent design. Lofty, randomly assembled fibres start wicking on contact for superior liquid absorption.

TECHNICAL ICONS

DURABILITY

Basic Durability
Ideal for short-term, low-impact applications where durability is not a priority.

Standard Durability
Reliable wear resistance and performance for routine use in everyday applications.

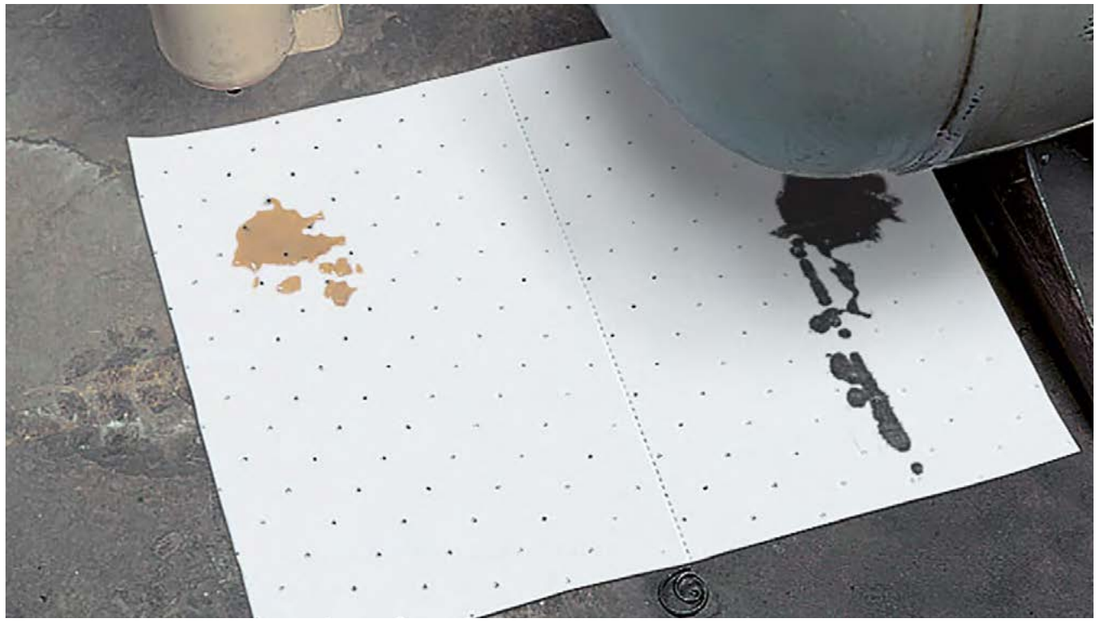

High Durability
Long-lasting with high wear resistance for frequent use in a wide variety of environments.

ABSORBENCY

High Volume
Heavyweight mat absorbs more liquid per pad for high-volume leaks and large spills.

Medium Volume
Mediumweight mat offers mid-range absorbency for everyday maintenance and common jobs.

Low Volume
Lightweight mat is perfect for cleaning up smaller spills.

PIG Essentials Pro White Oil-Only Mats

Quickly absorb oils indoors and out.

Perfect for environments where immediate visibility of leaks and spills is critical.

Mat's densely woven, polypropylene, small-diameter fibres increase surface area for enhanced strength and durability, making it ideal for demanding clean-ups on land and water.

Naturally hydrophobic; mat repels water and floats when tackling waterborne spills.

Technical Specifications

	76 cm W x 46 m L	1 Roll	189 L/Bag	ORFH150

ESSENTIALS OIL-ONLY MATS
For fuels and oil-based liquids but not water

PIG Essentials Pro Brown Oil-Only Mats

Hides grime from oil leaks and spills for fewer changeouts inside and out.

Darker coloured mat is ideal for hiding dirt, grime, and oil stains in industrial settings with frequent spills — indoors and out.

Mat's polypropylene fibres are naturally hydrophobic, repelling water and floating when used on waterborne spills.

Keeps workspaces looking cleaner for longer and reduces the need for frequent replacements or clean-ups.

Whether you need the extra capacity of heavyweight or the flexibility of mediumweight, both provide reliable, high-performance solutions to help tackle oil and hydrocarbon leaks and spills.

PIG Essentials Plus White Oil-Only Mats

Identify and absorb oils with ease.

This robust and low-lint mat effectively absorbs oils and hydrocarbons on land or water.

The bright-white mat's polypropylene fibres are naturally hydrophobic, allowing the mat to float on water for easy use on waterborne spills where immediate visibility of leaks and spills is critical.

Heavyweight offers maximum absorbency for large spills and high-traffic areas, whilst lightWeight is the economical option for tackling more minor, everyday leaks.

ESSENTIALS OIL-ONLY MATS
For fuels and oil-based liquids but not water

PIG Essentials White Oil-Only Mats

Affordable choice for quick, easy clean-up of oily spills.

Mat starts absorbing on contact, with a loose-weave design that maximises absorbency while using less material, ensuring quick, efficient clean-up of oils and hydrocarbons.

Large-diameter fibres wick liquids instantly, saving time in critical situations to help prevent potential slip hazards and environmental damage.

Choose heavyweight for durability and absorbency to tackle larger spills or lightweight for a cost-effective solution to get to grips with smaller, everyday leaks without sacrificing performance.

Certified for use at sea by the Italian Ministry of the Environment and Protection of Land and Sea.

PIG OIL-ONLY SPUNBOND MATS

Superior oil leak & spill control indoors-and-out.

Designed for indoor and outdoor applications, PIG Oil-Only Spunbond Mats deliver exceptional absorbency of oil, vehicle fluids, grease, petroleum, oil-based solvents, and more.

Their multi-layer polypropylene construction, precision thermal bonding, and innovative dimple pattern mean these mats excel at absorbing oils and petroleum-based liquids while repelling water.

The durable spunbond top layer resists tearing and abrasion, making it ideal for high-traffic areas and harsher conditions. Quick absorption and superior retention prevent oil from pooling or spreading in any environment — including on water borne spills.

Whether handling leaks or spills in garages, factories, or outdoor worksites, these mats provide a reliable, field-proven, and trusted solution for indoor and outdoor oil spill clean-up.

SUPERIOR TECHNOLOGY
Spunbond outer layer(s) and multiple layers of durable, thermally bonded, flame-resistant 100% polypropylene make PIG Spunbond Absorbent Mats the strongest on the market, offering superior absorbency, durability, and wear resistance.

HOLDS IT'S LIQUID
Highly absorbent. Fine-fibre construction retains liquid.

LASTS 2X LONGER
Tough and scuff resistant. Stands up to heavy foot traffic and resists abrasion for long life and extra durability. Won't rip, tear or shred, even when saturated.

HYDROPHOBIC
Repels water. Oil is absorbed while water beads and rolls right off.

SOAKS UP FAST
Exclusive dimple pattern quickly wicks liquid for faster, easier clean-up.

TECHNICAL ICONS

DURABILITY

Super Durability
Premium-grade endurance for superior wear resistance in challenging, high-traffic environments

ABSORBENCY

Super Volume
Unrivalled absorption and superior performance mat for extra-high-volume leaks and spills in diverse industrial settings.

Medium Volume
Mediumweight mat offers mid-range absorbency for everyday maintenance and common jobs.

PIG Fat Mat Super-Absorbent Oil-Only Mats

Double-thick for big clean-ups.

With twice as many layers as the original PIG Mat, this mat is designed for demanding applications involving large volumes of liquid.

Due to its tough and durable construction, it can withstand heavy foot traffic without ripping or fraying, even when saturated. Plus, fast-wicking technology absorbs and retains oils and oil-based liquids without taking in a drop of water.

Flame-resistant material melts when exposed to high heat and won't ignite immediately like untreated cellulose mats. The mat can also be wrung out and incinerated after use to reduce waste or for fuel blending.

PIG HAZMAT CHEMICAL MATS

Specially treated to absorb highly concentrated corrosives.

Engineered to absorb acids, caustics, corrosives, and chemicals—including 98% sulfuric acid and 30% sodium hydroxide— specially treated PIG HazMat Chemical Absorbent Mats provide the peace of mind you need when tackling hazardous spills and unknown liquids.

These mats are made from 100% polypropylene and resist ripping, tearing, and fraying, even when fully saturated. Their strong multi-layer construction, precision thermal bonding, and exclusive dimple pattern ensure liquids are completely absorbed.

Chemically resistant, they won't degrade or react dangerously on contact with corrosive substances, offering unmatched performance and protection for safer, more efficient clean-up of nasty leaks and spills.

SUPERIOR TECHNOLOGY
Multiple layers of fine fibre polypropylene specially treated to absorb corrosives make PIG Mat the toughest mat on the market!

DISTINCTIVE COLOUR
Pink colour is easily distinguishable for fast identification in an emergency spill situation.

LASTS 2X LONGER
Multiple layers of thermally bonded polypropylene give PIG Mat superior strength and abrasion resistance

CHEMICAL RESISTANT
No degradation or dangerous reaction on contact with corrosives.

SOAKS UP FAST
Exclusive dimple pattern quickly wicks liquid for faster, easier clean-up.

HOLDS ITS LIQUID
Highly absorbent, fine-fibre construction. No liquid or fibre residue.

HAZMAT CHEMICAL MATS
For most acids, caustics and unknown fluids

PIG HazMat Chemical Lightweight Mats

Safely absorb high-risk chemical leaks and drips.

Small drips and splashes can be just as risky—especially with high-strength chemicals. These lightweight mats are purpose-built to handle routine clean-ups of acids, caustics, and unknowns, including 98% sulfuric acid and 30% sodium hydroxide.

Easy to place and quick to absorb, they're ideal for lining lab benches, catching pump drips, or keeping on hand for minor spills.

The distinct pink colour makes it easy to identify as your go-to solution for chemical spill clean-ups.

PIG ESSENTIALS CHEMICAL MATS

For economical clean-up of corrosive spills.

PIG Essentials Chemical Absorbent Mats offer reliable, cost-effective performance for handling everyday chemical spills.

These mats absorb a wide range of acids, caustics, and unknown liquids, ensuring safe and efficient spill control without compromising quality.

Ideal for routine use, they provide dependable protection at an affordable price.

INDEX

HEAVYWEIGHT 067-068

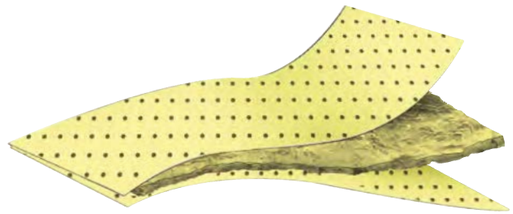

Essentials Pro Mat 068

PIG Essentials Pro Mat

An economical choice for corrosive clean-up.

- Economical absorption. Handle acids, caustics, and unknown liquid clean-ups cost-effectively.
- Great Durability. Top and bottom fine-fibre polypropylene layers provide strength when used, while the low-lint design ensures minimal shedding.
- High-capacity absorption. The mat's design maximises surface area, while the high-loft meltblown centre quickly soaks up large volumes of liquid.

Made from 100% polypropylene, these mats feature high-loft meltblown fibres that maximise surface area for superior absorption of chemicals for quick and effective clean-up.

TECHNICAL ICONS

DURABILITY

Enhanced Durability
Built to handle demanding conditions, that require strength and longevity.

ABSORBENCY

High Volume
HeavyWeight mat absorbs more liquid per pad for high-volume leaks and large spills.

SAFETY

HazMat Chemical Note
To ensure effectiveness and your safety, we recommend that you conduct compatibility and absorption testing of your chemicals with PIG and PIG Essentials products prior to purchase. If you have questions or need samples to test, please contact your local distributor.

PIG Essentials Pro Chemical Mats

Absorb corrosives quickly.

Quickly absorbs nearly any caustic, hazardous, or unknown liquid. Fine-fibre top and bottom layers with densely woven fibres increase surface area for fast absorption, while the high-loft meltblown inner layer absorbs large volumes quickly.

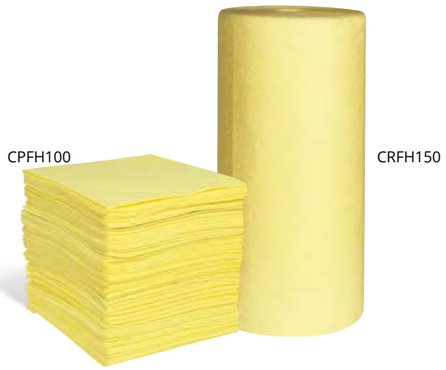

The heavyweight construction provides maximum absorbency, making it ideal for handling significant spills before they spread, and the 'safety yellow' colour ensures easy identification in emergencies.

PIG Mat Adjustable Roll Holder

One holder for easy mat and wipe dispensing.

Make mat and wipe dispensing effortless with a holder that adapts to your needs. The adjustable steel frame accommodates rolls from 41cm to 81cm in width, making it suitable for various jobs and work areas.

A tilted design adds stability while in use, and lockable wheels let you move it where it's needed—then keep it firmly in place.

Tough, painted steel construction stands up to daily wear, resisting rust and corrosion—an innovative solution for keeping clean-up materials organised, accessible, and always ready to roll.

PIG® Mat Adjustable Roll Holder

PIG SOCKS, BOOMS & SKIMMERS

Stop leaks in their tracks.

Contain and capture spills before they spread with our extensive range of contained absorbents.

Over 40 years ago, we revolutionised spill control by inventing the world's first contained absorbent sock—The PIG Original Sock.

Since then, we've expanded our range to offer various solutions to tackle leaks and spills, from oils, coolants, and solvents to water and hazardous chemicals.Since then, we've expanded our range to offer various solutions to tackle leaks and spills, from oils, coolants, and solvents to water and hazardous chemicals.

Range contains products that are manufactured using up to 100% recycled content.

RECYCLED CONTENT

PIG SOCKS, BOOMS & SKIMMERS

Each PIG product format—socks, booms, Water Hog, dikes, skimmers, and sweeps—serves a specific purpose based on the type of spill and environment.

- Socks are flexible and used for small, contained spills.
- Booms float on water* and contain large spills, especially oil.
- Water Hogs handle large volumes of water spills.
- Dikes act as barriers to prevent spill spread.
- Skimmers remove floating oil from water.
- Sweeps capture residual oil sheens on water surfaces.

*Applies to oil-only variants, which repel water and float to contain oil spills. Universal and HazMat Chemical booms are designed to absorb a broader range of liquids and will not float on water.

UNIVERSAL

Also called "MRO", PIG Universal Socks and Booms contain and absorb spills, such as oils, coolants, solvents, and water. Socks handle smaller spills, while booms contain larger spills of universal liquids.

WATER

PIG Water-Absorbent Socks contain water-based spills from leaks, floods, and overflows in various environments, while PIG Water Hogs remove water from fuel tanks to protect from freezing and blockages.

OIL-ONLY

PIG Oil-Only Socks, Booms, Skimmers, and Sweeps absorb oil-based liquids containing waterborne spills as well as spills on land while repelling water, perfect for oil, fuel, and hydrocarbon clean up.

HAZMAT CHEMICAL

PIG Hazmat Chemical Absorbent Socks, Booms, and Dikes contain and absorb hazardous liquids like acids, caustics, and unknown chemicals without degrading or reacting.

PIG Original Universal Absorbent Socks

Control everyday leaks with our most shape-hugging socks.

Formable socks fit snugly around corners and machine bases to absorb leaks, contain puddles, and enhance workplace safety.

The corncob filler quickly pulls liquids from the floor for maximum absorbency, making clean-up fast and easy.

The durable polypropylene skin resists tearing, minimises dust, and securely holds liquid, even when fully saturated.

Contains 99% pre-consumer recycled corncob fractions.

For oils, coolants, solvents & water

PIG Blue Universal Absorbent Socks

Surround spills and prevent spreading with our heaviest absorbent sock.

Designed with extra-dense construction, it hugs floors and stays in place, making it perfect for diking, damming, or surrounding leaking machines.

The fine-grade vermiculite filler absorbs leaks and spills quickly, while the stitch-bonded polypropylene skin resists bursting, reduces dust, and securely holds liquid even when saturated.

It can also be air-dried and reused after soaking up water, offering a durable and effective spill containment solution.

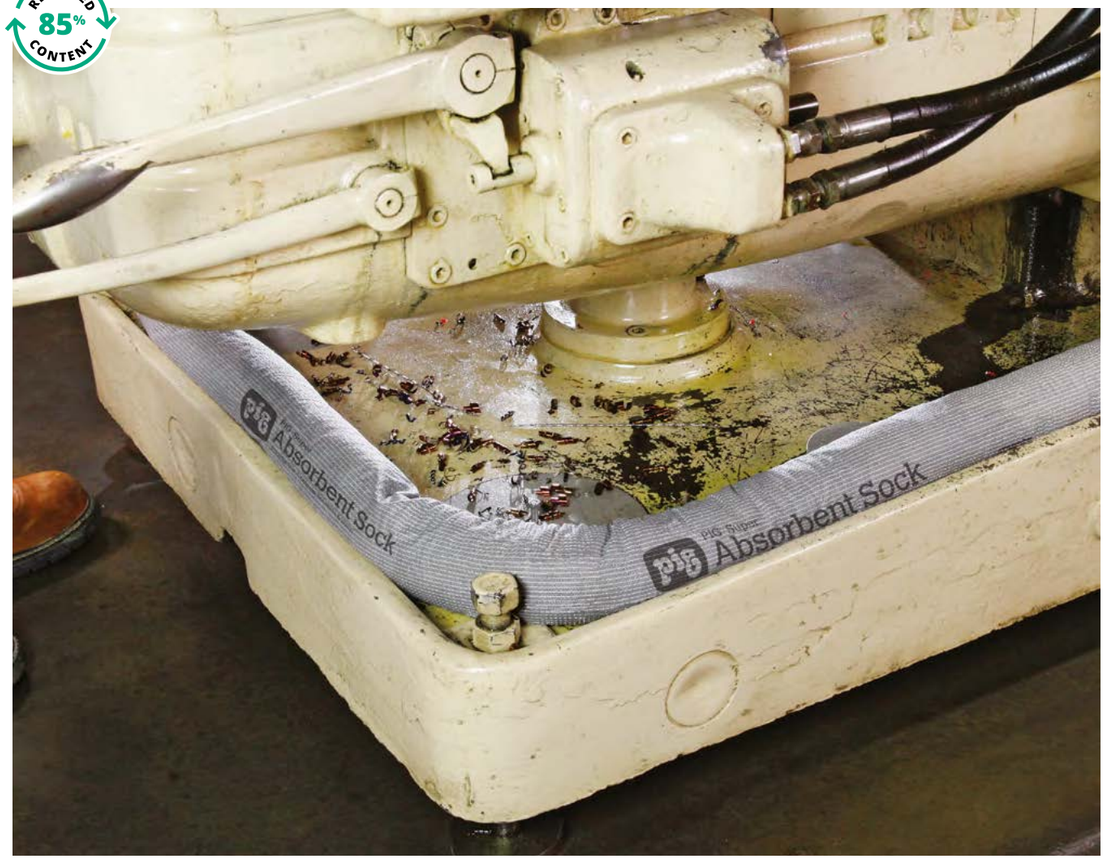

Looking for Universal Spill Kits? See pages 119-155.

PIG Super Universal Absorbent Socks

Handle high-volume leaks with our most absorbent sock.

Extra-thirsty, formable socks hug corners and walls, containing high-volume machine leaks and spills.

The highly absorbent cellulose filler reduces the frequency of changeouts, while the stitch-bonded polypropylene skin resists bursting and holds liquids.

Can be wrung out to reclaim up to 65% of absorbed liquid.

Contains a mixture of 85% pre- and post-consumer recycled cellulose filler — ideal when green products are desired.

PIG Essentials Universal Absorbent Socks

Ideal for leaky machines and spill response.

Easy to use socks to quickly contain spills and prevent fluids from spreading, to help reduce slippery hazards.

Ideal for surrounding spills or wrapping around leaky machines, the recycled polypropylene filler ensures excellent absorbency and retention.

The grey colour signifies universal absorbency for easy identification when responding to spills of non-aggressive liquids.

Contains 100% Post-Industrial Recycled Poly Blend Filler.

PIG Essentials Universal Absorbent Booms

Efficient spill containment for leaks and large spills

Quickly contain fluids and prevent spills from spreading with easy-to-use booms and connectors.

The grey colour signifies universal absorbency for easy identification when responding to spills of non-aggressive liquids.

Ideal for leaky machines and spill response, polypropylene filler offers excellent absorbency and retention.

Contains 100% Post-Industrial Recycled Poly Blend Filler.

PIG Mildew-Resistant Water Absorbent Socks

Can be air-dried and reused.

Flexible socks stop leaks, spills, and condensation from spreading into walkways, and they are ideal for use under coolers and around equipment.

The 100% polypropylene skin and filler resist mildew, making them highly effective for water absorption. Air dry and reuse up to three times.

Available in yellow for visibility or blue for blending in.

**Containing leaks at floor level?
See Spill Control on pages 163-177.**

NOTE: Not intended for use in direct sunlight.

PIG Super Water-Absorbing Socks

Delivers the best retention for absorbed water-based leaks and spills.

Super Absorbent Polymer (SAP) filler and spunbond skin quickly absorb large volumes of liquid.

These fast-wicking socks contain pools and puddles, reducing property damage and personal injuries. They are ideal for water-based, non-corrosive liquids, soaking up leaks, condensation, and puddles around machines, pipes, cracked foundations, and more.

Perfect for cleaning up water in food service and processing areas.

NOTE: Not recommended for acids, caustics or other aggressive liquids.

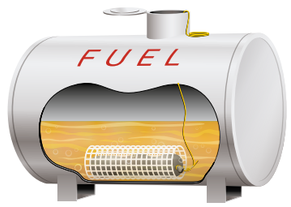

PIG Water Hog

Absorb and remove water from your fuel tanks

Remove water from fuel tanks without absorbing fuel, preventing frozen fuel lines, gelled fuel, rust, algae, and filter blockages.

The durable rip-stop cotton skin and plastic casing ensure snag-free use, while the attached string allows for easy deployment and retrieval.

Drop in a Water Hog, let it work, and pull it out with the attached line to keep fuel lines water-free.

IT ONLY TAKES ONE SPARK

You can follow guidelines, comply with regulations, bond and ground every tank, fuel pump and container, but one simple fact remains: static electricity hides in plain sight and all it takes is one spark for disaster to strike — especially when there's a spill.

Refueling and liquid transfers create spills, so it makes sense to use absorbents in these areas to conform with environmental standards. The problem with conventional oil absorbents is that they're made from polypropylene — a plastic — and naturally carry a static charge.

Independent testing shows that these absorbents can carry a charge large enough to spark an explosion just by pulling one out of the bag. That's why using conventional oil absorbents around flammable liquids puts people in real danger.

The only way to be sure an absorbent is safe to use around flammables is to use one designed specially for static decay and surface resistivity, like PIG Static Dissipative socks, pads and rolls!

There also is a significant potential for shipping and handling to cause friction between the plastic bag and the absorbents inside — resulting in static charging. PIG Stat-Mat is packaged in bright pink, static-dissipative plastic that is similar to the packaging used to protect microconductors and electronics from static.

Don't let one spark ignite disaster.
Explore our PIG Stat-Mat Oil-Only Mats on P49 and our PIG Static-Dissipative Absorbent Socks on P79 – **your first line of defence against explosive static charges.**

PIG Static-Dissipative Absorbent Socks

The only sock proven to dissipate static.

Specially treated to reduce risk of electrostatic discharge; Absorbs and retains oil-based solvents and fuels — including acetone, benzene, petrol, toluene, xylene, mineral spirits and jet fuels — but not water.

Passes ANSI and MIL spec standards for static decay and surface resistivity, plus the skin is UV resistant up to 12 months.

Looking for Static Dissipative Mats? See page 49.

PIG® Static-Dissipative Absorbent Socks

SIZE	UNIT	ABSORBS UP TO	ITEM #
8 cm Dia x 122 cm L	12 Socks	45,4 L/Box	SKM700
8 cm Dia x 3 m L	6 Socks	57 L/Box	SKM701

SKM700

PIG Oil-Only Absorbent Socks

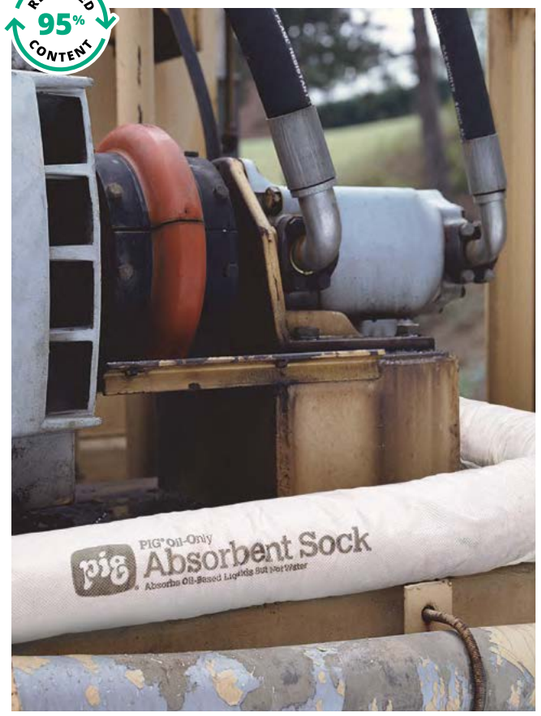

The best outdoor socks you can buy.

Mouldable socks hug corners and machine bases, absorbing oil-based liquids while repelling water.

The cellulose filler and tear-resistant polypropylene skin ensure durability, even when saturated. Suitable for land and water clean-up, they float on oil spills and feature UV resistance for up to 12 months. The attached strings allow easy securing or linking.

Contains a 95% mixture of pre- and post-consumer recycled cellulose.

PIG® Oil-Only Absorbent Socks

SIZE	UNIT	ABSORBS UP TO	ITEM #
8 cm Dia x 122 cm L	12 Socks	45,6 L/Box	SKM210

PIG Oil-Only Maintenance Absorbent Socks

Soak up oil-based liquids indoors.

These socks absorb oils, solvents, food-grade oils, and hydrocarbons but repel water. Ideal for daily indoor use, their tan colour hides grime for more prolonged use.

Made from 95% recycled hydrophobic newsprint, they're an economical, eco-friendly spill solution.

PIG® Oil-Only Maintenance Absorbent Socks

SIZE	UNIT	ABSORBS UP TO	ITEM #
8 cm Dia x 122 cm L	30 Socks	113,7 L/Box	SKM500

NOTE: Not for continuous outdoor use.

OIL-ONLY SOCKS
For fuels and oil-based liquids but not water

PIG Sheen Clean Oil-Only Absorbent Socks

Minimise environmental contamination - absorb all of a waterborne oil spill.

Suitable for long-term absorption of thin "rainbow" oil sheens without taking in water, making them perfect for retention ponds, basins, and tanks.

Durable, UV-resistant for up to 12 months, with tear-resistant spunbond polypropylene skin and a string for securing socks, tying them together or dipping into tanks.

Meet ANSI and MIL-spec standards for static decay.

Contains 90% Post-Consumer Recycled Cellulose Waste.

Need spill response close at hand?
See Spill Kits on pages 119-155.

OIL-ONLY SOCKS

For fuels and oil-based liquids but not water

PIG Essentials Oil-Only Absorbent Socks

Targeted spill control for petroleum-based liquids.

Recycled polypropylene-filled socks absorb petroleum-based liquids without taking in water.

Ideal for surrounding spills or wrapping around leaks, it's flexible for a snug fit, preventing spills from spreading to help reduce slip hazards.

Contains 100% post-industrial recycled polypropylene blend filler.

OIL-ONLY BOOMS

For fuels and oil-based liquids but not water

PIG Essentials Oil-Only Bilge Booms

For easy and efficient removal of oil from deep bilges and sumps.

Clip a rope or chain (not included) to the boom's carabiner to easily raise and lower into bilges and sumps to remove oil from deep bilges and sumps without emptying them.

The durable mesh outer sleeve prevents shedding and sinking, even when saturated, and the bright white colour shows saturation, ensuring optimal use and reduced waste.

Contains 100% post-industrial recycled polypropylene blend filler.

**Managing outdoor water risks?
See Stormwater & Flood Defence on pages 180-189.**

PIG Skimmer Oil-Only Absorbent Socks

Absorb surface oil from tanks.

Designed to skim oil from open-top dip tanks while repelling water-based liquids. They are chemically resistant, making them tough enough to handle acid baths and phosphate tanks.

Socks are designed to float and stay at the surface for easy retrieval. UV-resistant and long-lasting, they're built to handle harsh conditions for up to 12 months.

Contains 98% pre-consumer recycled polypropylene filler.

Leaky pipework? See Leak Diverters for Pipes on pages 228-231.

8 cm Dia x 3 m L	6 Socks	57 L/Box	SKM203

SKM203

104PS

PIG Oil-Only Sump Skimmers

Skim oil from sumps, tanks, or bilges.

Lower this floating skimmer into any water-based liquid to absorb oils without taking in any water. The polypropylene loop allows secure rope attachment (not included) for easy deployment and retrieval. Its bright white colour makes absorbed oil easier to see and clearly shows the saturation level. Skimmers can be incinerated after use to reduce waste or for fuel blending.

SKM403's spaghetti strip filler captures thick oils or other viscous liquids. The tough outer mesh is UV resistant for long-term outdoor use without degradation and lets fluids easily pass through to filler material.

SKM404's UV and chemical-resistant polypropylene skin resists tearing and meets ANSI and MIL-SPEC standards for static decay. Contains 98% pre-consumer recycled polypropylene filler.

20 cm Dia. x 46 cm L	12 Socks	81,6 L/Box	SKM403

SKM404

PIG Monitoring Well Oil-Only Skimming Socks

Detect oil in monitoring wells instantly.

This small-diameter skimmer absorbs oil, not water, for precise monitoring in wells. Lower it in, and the bright white colour indicates saturation levels.

Its tear-resistant polypropylene skin meets ANSI and MIL-SPEC standards for static decay, and the attached loop allows easy deployment and retrieval with a rope (not included). For eco-friendly disposal, the skimmer can be incinerated after use or used for fuel blending.

Contains 98% pre-consumer recycled polypropylene filler.

PIG® Monitoring Well Oil-Only Skimming Socks

SIZE	UNIT	ABSORBS UP TO	ITEM #
3,8 cm Dia. x 46 cm L	30 Socks	15 L/Box	SKM401

SKM401

PIG Oil-Only Absorbent Spaghetti Socks & Booms

Absorb thick oil spills on water.

Perfect for containing high-viscosity oil spills in fast-moving water.

UV-resistant, the tough outer mesh and spaghetti filler absorb oil without taking in water, and they continue to float even when saturated.

The bright white colour ensures visibility outdoors and allows for easy monitoring of saturation levels.

A durable rope along the boom's length supports up to 182 kg for added strength during deployment and retrieval, while zinc-plated steel clips and rings enable secure linking of multiple booms.

Certified for use at sea by the Italian Ministry of the Environment and Protection of Land and Sea (excluding BOM204 and BOM404).

Need to stop spills spreading?
See Spill Control on pages 163-177.

PIG® Oil-Only Absorbent Spaghetti Socks

13 cm Dia x 3 m L	4 Booms	90,8 L/Bag	BOM203
13 cm Dia x 6 m L	2 Booms	90,8 L/Bag	BOM403
20 cm Dia x 3 m L	4 Booms	181,6 L/Bag	BOM202
20 cm Dia x 6 m L	2 Booms	181,6 L/Bag	BOM402

NOTE: When sea-weather condition is wind speed >5 knots & a (perpendicular) water-current speed >2 knots, this can cause oil absorbent booms to submerge, allowing oil to pass over them. Waves higher than freeboard (above water) portion of boom will push oil over absorbent booms; optimal sea-weather condition for usage is typically Beaufort Scale #2 or less.

NOTE: Not recommended for use on land. PIG Oil-Only Absorbent Booms are recommended for land-based applications.

Internal rope runs the length of mesh skin for strength when deploying and retrieving.

Available in varying diameters. Choose larger diameter booms for larger spills.

OIL SPILL ON WATER? NO PROBLEM! PUT PIG OIL-ONLY BOOMS TO WORK.

Surround spill with booms. They begin to absorb oil (not water) as soon as they're in place.

As oil is absorbed, the boom sinks in the water. Oil is now exposed to fresh absorbent.

When completely saturated, the boom will "bob" just below the water's surface.

PIG Oil-Only Absorbent Booms

Field-proven oil spill control on land or water.

These oil-only booms float to contain spills on water and hug the ground for land-based spills. UV-resistant polypropylene skin lasts up to 12 months and meets ANSI and MIL-SPEC standards for static decay.

The bright white colour enhances visibility outdoors and clearly shows saturation levels. Absorbing only oil-based liquids without taking in water, they're ideal for fuels and lubricants and can be incinerated after use for waste reduction or fuel blending.

A durable rope along the boom's length supports up to 182 kg for added strength during deployment and retrieval, while zinc-plated steel clips and rings enable secure linking of multiple booms.

Certified for use in Germany by the DWA (German Association for Water, Wastewater, and Waste).

Contains 98% pre-consumer recycled polypropylene filler.

Need instant containment?
See Containment on pages 256-274.

PIG® Oil-Only Absorbent Booms

SIZE	UNIT	ABSORBS UP TO	ITEM #
8 cm Dia. x 3 m L	8 Booms	60 L/Bag	BOM406

20 cm Dia. x 3 m L	4 Booms	181,6 L/Bag	BOM304
20 cm Dia. x 6 m L	2 Booms	181,6 L/Bag	BOM409

NOTE: Complies with the requirements of DWA-A 716-1/-10.

NOTE: When sea-weather condition is wind speed >5 knots & a (perpendicular) water-current speed >2 knots, this can cause oil absorbent booms to submerge, allowing oil to pass over them. Waves higher than freeboard (above water) portion of boom will push oil over absorbent booms; optimal sea-weather condition for usage is typically Beaufort Scale #2 or less.

PIG Essentials Oil-Only Absorbent Booms

Good for long-term use on water.

Control oil spills on land or water with PIG Essentials Booms. Designed to float even when saturated, they absorb and contain oil spills on water and hug the ground for land-based spills.

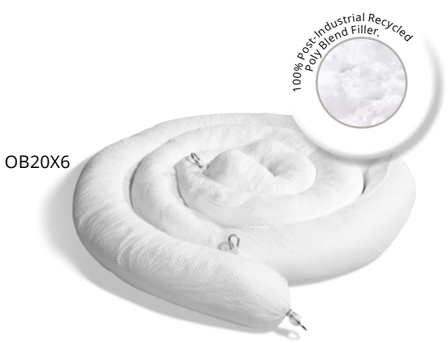

A durable mesh sleeve encases a poly sock filled with highly absorbent pulp that won't shed or sink.

The bright white colour ensures easy visibility, and integrated connectors allow booms to be linked to handle almost any size spill. UV-resistant and water-repellent, these booms use all their absorbency on oil only.

Certified for use at sea by the Italian Ministry of the Environment and Protection of Land and Sea.

Contains 100% post-industrial recycled polypropylene filler.

Managing outdoor water risks?
See Stormwater & Flood Defence on pages 180-189.

NOTE: When sea-weather condition is wind speed >5 knots & a (perpendicular) water-current speed >2 knots, this can cause oil absorbent booms to submerge, allowing oil to pass over them. Waves higher than freeboard (above water) portion of boom will push oil over absorbent booms; optimal sea-weather condition for usage is typically Beafort Scale #2 or less.

PIG Oil-Only Folded Absorbent Sweeps

Catch trailing oil from absorbent booms.

Floats on water, absorbing oily spills and surface sheen over a large area. Sturdy nylon strap securely attaches durable oil-only mat to absorbent boom for a complete waterborne clean-up.

WSWL100F-T has a carabiner every 3 metres and can be cut to length and attached as required for custom deployment.

The bright white colour aids visibility and saturation detection, while its oil-only design absorbs oils without taking in water. It is perfect for rough waters and secured across waterways or from boats.

Incinerate after use to reduce waste or for fuels blending.

Are you looking for drain covers or plugs?

PIG HazMat Chemical Absorbent Socks & Dikes

Halt spreading acids and caustics.

Stop the spread of highly concentrated acids and caustics, absorbing up to 98% sulfuric acid and 30% sodium hydroxide without degrading.

The pink colour ensures that the correct absorbent is used in emergencies, and the chemical-resistant polypropylene skin resists tearing, holding liquids securely even when saturated.

Socks and booms can be incinerated after use to reduce waste.

PIG301

PIG Acid Encapsulating / Neutralising Absorbent Socks

One-Step Acid Absorption and Neutralisation

Absorb, encapsulate, and neutralise acids in one step for safer spill clean-up.

Ideal for battery charging and storage areas, this product changes colour to show neutralisation progress, indicating when it's safe to handle.

Instantly absorbs up to 98% sulfuric acid concentrations, with gelling agents to prevent acid leaching.

Do NOT use with hydrofluoric acid, as it may create a hazardous gas.

Looking for Neutralising Mats? See page 66

CONTACT YOUR LOCAL PIG DISTRIBUTOR

PIG ABSORBENT PILLOWS, PANS & LOOSE

Economical solutions for leaks & drips.

Contain every leak and drip with absorbents designed for the job.

Extra absorbency for spill clean-ups.

Sometimes, spill response calls for added absorbency – that's where PIG Pillows and Pans come in! These high-capacity absorbents are ideal for adding absorbency during spill response efforts or capturing steady leaks and drips.

PIG Pillows & Pans contain up to 98% recycled content.

It's better than clay in every way.

An economical addition to your modern spill response programme — PIG Loose Absorbents are a cost-effective solution for cleaning up spills, especially in hard-to-reach cracks and crevices. They are designed to soak up and trap liquids quickly and easily, making clean-up faster and more efficient than using sawdust, cat litter, or other materials not intended for this purpose.

PIG Loose Absorbents contain up to 100% recycled content.

UNIVERSAL

Also called "MRO", PIG Universal Absorbent Pillows, Pans & Loose contain and absorb leaks and drips of oils, coolants, solvents, and water.

OIL-ONLY

PIG Oil-Only Absorbent Pillows & Loose absorb oils, fuels, and oil-based liquids, but NOT water — indoors and out. Pillows float for use on waterborne spills.

HAZMAT CHEMICAL

PIG Hazmat Chemical Absorbent Pillows & Loose contain and absorb hazardous liquids like acids, caustics, and unknown chemicals without degrading or reacting.

SAFETY

HazMat Chemical Note
To ensure effectiveness and your safety, we recommend that you conduct compatibility and absorption testing of your chemicals with PIG and PIG Essentials products prior to purchase. If you have questions or need samples to test, please contact your local distributor.

PIG Essentials Universal Absorbent Pillows

Versatile for high-volume leak and spill absorption.

These absorbent pillows tackle high-volume leaks and spills in hard-to-reach areas. Perfect for placing under machines, hydraulic hoses, or in tight corners.

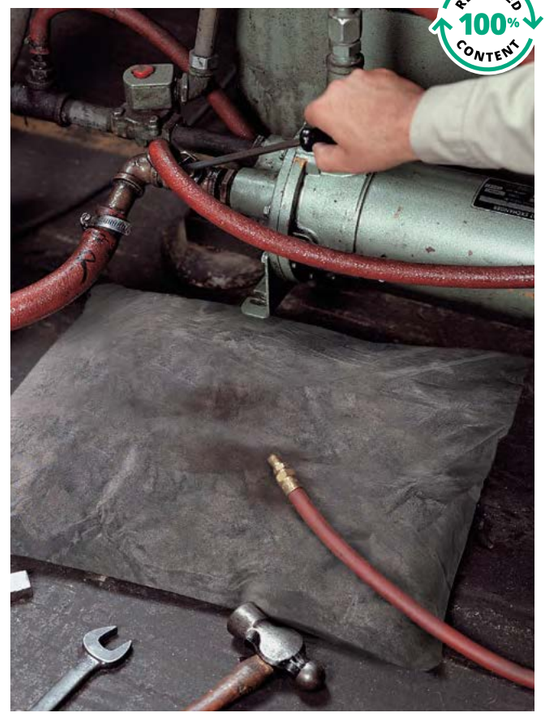

They pull liquids like a sock, catch leaks like a pan, and absorb spills like a pad. With a large surface area, these pillows speed up absorption and reduce spill response time, making clean-up quick and easy.

Contains 100% Post-Industrial Recycled Poly Blend Filler.

PIG Essentials Cellulose Fibre Universal Loose Absorbent

Over 3X more absorbent than typical clay.

Recycled cellulose is carefully blended, processed into pellets, and crushed to achieve optimal bulk density for superior absorbent performance. This material absorbs three times more liquid, helping to reduce labour and disposal costs.

Its nonabrasive composition won't harm finished floors or damage expensive machinery, while its lightweight design makes it easier to carry and use than clay. Each 8kg bag is easy to handle and helps reduce landfill waste.

Contains 100% European-sourced post-consumer recycled cellulose waste.

For cleaner, safer walkways, see Floor Mats on pages 200-213.

PIG Dri Universal Loose Absorbent

100% recycled and silica safe.

Unlike clay, cellulose-based kaolin granules quickly wick up liquid immediately upon contact.

Silica-free, they eliminate the health risks of breathing in clay dust, making them a safer alternative. Ideal for situations where green, environmentally friendly products are needed.

Contains 100% recycled post-consumer recycled cellulose waste (a by-product of the papermaking process).

UNIVERSAL LOOSE ABSORBENTS

For oils, coolants, solvents & water

PIG Crysta-lite Universal Absorbent Granules

Economical and non-combustible.

This non-combustible absorbent media is perfect for enclosed containers.

With a particle size of 3.0mm to 6.0mm, countless air bubbles make it ultra-lightweight while offering high surface area and excellent absorption. It remains granular even when saturated, standing up to heavy traffic without releasing liquids.

Chemically inert and non-toxic, it absorbs oil, water, hazardous chemicals, nuclear waste, and more. Safe to handle and use, it poses no risk to users or the environment.

PIG® Crysta-lite Universal Absorbent Granules

SIZE	SOLD AS	QTY/PALLET	ABSORBS UP TO	ITEM #
3,5 kg bag	1 Each	70	18 L/Bag	P45-1

NOTE: packaged by volume; seasonal variance can affect packaged Weight.

PIG Grip-Dri Universal Loose Absorbent

Quick-acting, non-flammable and chemically inert absorbent.

This fast-acting, chemically inert universal absorbent is compatible with nearly any liquid, including oils, coolants, solvents, water, acids, and caustics. It remains granular even when saturated, ensuring excellent retention, and withstanding heavy traffic without releasing liquids.

Fire-retardant, it's ideal for use with low flash point solvents and flammables. The micro-granular formula absorbs 25% more than regular moler absorbents.

Low-dust and easy to sweep, it leaves no oily sheen or residue. Tested to meet UNI CEN/TS 15366:2010, MPA Typ III R, and NF P 98-190 standards.

PIG® Grip-Dri Universal Loose Absorbent

OIL-ONLY PILLOWS

For fuels and oil-based liquids but not water

PIG Oil-Only Absorbent Skimmer Pillows

High-capacity pillows for maximum oil absorption

When mats aren't enough, these high-capacity pillows absorb oil quickly and efficiently. With a large surface area and fast-wicking filler, they float, resist tearing and hold liquids — even when fully saturated.

The chemical-resistant polypropylene skin absorbs oil while repelling water, and it's UV resistant for up to 12 months, meeting ANSI and MIL-spec standards for static decay.

Contains 98% pre-consumer recycled polypropylene filler.

For emergency response, turn to Spill Kits on pages 119-155.

PIG® Oil-Only Absorbent Skimmer Pillows

SIZE	UNIT	ABSORBS UP TO	ITEM #
30 cm W x 30 cm L x 2,5 cm H	10 Pillows	19 L/Box	PIL405

OIL-ONLY PILLOWS

For fuels and oil-based liquids but not water

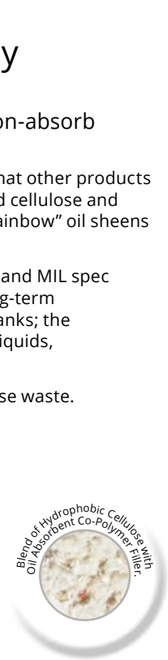

PIG Sheen Clean Oil-Only Absorbent Pillows

Minimise environmental contamination-absorb all of a waterborne oil spill.

Proprietary filler cleans up thin, oily residue that other products leave behind without taking in water. Recycled cellulose and copolymer blend floats to efficiently pull in “rainbow” oil sheens from water surfaces.

UV resistant for up to 12 months; meets ANSI and MIL spec standards for static decay. It is perfect for long-term deployment in retention ponds, basins, and tanks; the polypropylene skin resists tearing and holds liquids, even when fully saturated.

Contains 90% post-consumer recycled cellulose waste.

PIG® Sheen Clean® Oil-Only Absorbent Pillows

SIZE	UNIT	ABSORBS UP TO	ITEM #
41 cm W x 43 cm L	10 Pillows	37,9 L/Box	SKM602

PIG Essentials Oil-Only Absorbent Polypropylene Pillows

Efficient oil absorption for land and water spills.

These multi-functional pillows absorb high-volume oil leaks and spills on land or water. They pull liquids from floors like a sock, catch leaks like a pan, and absorb like a pad.

Ideal for hard-to-reach areas, their large surface area ensures faster spill response. The white colour helps you see when they’re fully saturated, saving costs by avoiding early disposal. These pillows float when saturated, making them perfect for use on waterborne spills.

Certified for use at sea by the Italian Ministry of the Environment and Protection of Land and Sea.

Contains 100% post-industrial recycled poly blend filler.

PIG® Essentials Oil-Only Absorbent Polypropylene Pillows

20 cm W x 46 cm L	20 Pillows	87 L/Box	OPLWS

OIL-ONLY LOOSE ABSORBENTS

For fuels and oil-based liquids but not water

PIG Peat Oil-Only Loose Absorbent

Powerful loose absorbent for oil spills on soil.

Super absorbent activated sphagnum peat moss absorbs up to 30 litres of oil per bag.

Perfect choice for cleaning oil spills on soil — throw it on the spill and sweep it up.

Indoors, it removes the oily sheen from floors, and its non-abrasive composition ensures it won't damage floors or expensive machinery.

PIG® Peat Oil-Only Loose Absorbent

SIZE	SOLD AS	QTY/PALLET	ABSORBS UP TO	ITEM #
5 kg Bag	1 Each	60	30 L/Box	PLP404

PIG Lite-Dri Oil-Only Loose Absorbent

Lighter than clay plus it absorbs 3X more oil.

Recycled cellulose absorbs only oil-based liquids while repelling water, making it ideal for outdoor oil spills.

It works instantly on contact and floats, ensuring effective clean-up on land and water-based spills.

Perfect for efficient, environmentally friendly spill response.

Contains 100% pre- and post-consumer recycled cellulose.

PIG® Lite-Dri Oil-Only Loose Absorbent

SIZE	SOLD AS	QTY/PALLET	ABSORBS UP TO	ITEM #
10 kg Bag	1 Each	70	30 L/Bag	PLP410

PIG HazMat Chemical Absorbent Pillows

Pump up your absorbent power.

High-capacity chemical-resistant polypropylene pillows quickly absorb large spills of corrosive liquids, even those with high concentrations like 98% sulfuric acid and 30% sodium hydroxide.

With a large surface area and fast-wicking filler, these pillows won't degrade or react with corrosive spills.

Their pink colour ensures correct use during emergencies, and pillows can be incinerated after use to reduce waste.

Need to divert liquids safely? Turn to Leak Diverters on pages 222-239.

PIL302

PIG® HazMat Chemical Absorbent Pillows

See note on pg. 93 for more details on compatibility.

PIG Essentials Chemical Absorbent Pillows

Quick-absorbing environmentally conscious pillows for hazardous spill clean-up.

100% polypropylene pillows absorb nearly any caustic or hazardous liquid, including acids and solvents. The color-coded yellow skin ensures fast identification in emergencies.

Durable and easy to place, they contain spills, prevent hazards, and speed up response time with their large surface area.

Contains 100% post-industrial recycled poly blend filler.

Protecting floors and drains? See Containment on pages 256-274.

CPLWL

HAZMAT CHEMICAL PILLOWS & AMPHO-MAG

For most acids, caustics and unknown fluids

PIG HazMat Chemical Loose Absorbent

Our HazMat Pad in loose form for hazardous spill clean-up.

This loose absorbent is perfect for sprinkling on spills or reaching tight spaces, effectively absorbing acids, caustics, and unknown liquids.

Chemical-resistant, it handles even highly concentrated substances without reacting.

The pink colour ensures easy identification during emergencies and can be incinerated after use to reduce waste.

PIG® HazMat Chemical Loose Absorbent

SIZE	SOLD AS	QTY/PALLET	ABSORBS UP TO	ITEM #
2,3 kg Bag	1 Each	50	22,7 L/Bag	HA8010

See note on pg. 93 for more details on compatibility.

Ampho-Mag™ Neutralising Loose Absorbent

Colour-changing neutralizer for safer acid spill clean-up.

Neutralises and encapsulates acid spills while changing colour to indicate when it's safe to clean up.

Instantly changes colour to help safely respond to spills: blue for caustics, red for acids and yellow/green when neutralised.

Ideal for uneven surfaces, it absorbs up to 98% sulfuric acid and solidifies spills, preventing leaks and ensuring safe handling.

Ampho-Mag™ Neutralising Loose Absorbent

SIZE	SOLD AS	ITEM #
18,1 kg Bucket	1 Each	PLPE218-EU

See note on pg. 93 for more details on compatibility.

ABSORB-&-LOCK LOOSE ABSORBENT

For most acids, caustics and unknown fluids

PIG Absorb-&-Lock Loose Absorbent for Acids

Acid solidifying absorbent powder for easier clean-up.

This environmentally friendly absorbent permanently solidifies liquids, preventing leaks or reversion to a liquid state under pressure.

It absorbs up to seven times its Weight in acids and corrosives like sulfuric, hydrofluoric, hydrochloric, and acetic acids, forming a solid mass without expanding for easier, cost-effective recovery and clean up.

Its high Btu value produces minimal ash when burned (less than 0.1%), making it ideal for incineration or fuels blending.

PIG® Absorb-&-Lock™ Loose Absorbent for Acids

SIZE	SOLD AS	QTY/PALLET	ABSORBS UP TO	ITEM #
8,6 kg Bottle	4 Bottles	-	60,6 L/Case	PLP501

See note on pg. 93 for more details on compatibility.

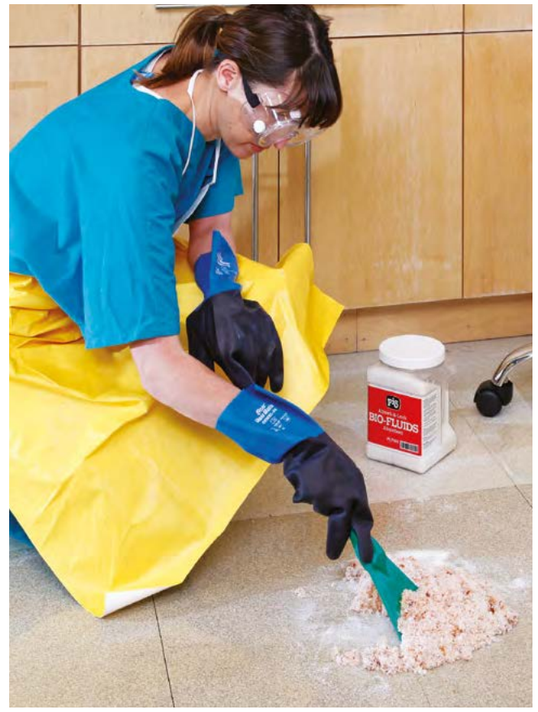

PIG Absorb-&-Lock Loose Absorbent for Biofluids

Clean up Biofluids quickly and easily.

Fast-acting, environmentally friendly, absorbent in shaker bottle captures biofluids and "locks" them inside for cleaner, safer disposal.

Permanently solidifies biological fluids like blood, urine, and vomit liquids, preventing leaks or re-liquefying under pressure for easier clean-up. It contains chlorine to kill pathogens, with a clean scent to reduce offensive odours during and after clean-up

Its high Btu value produces minimal ash when burned (less than 0.1%), making it ideal for incineration or fuels blending.

PIG® Absorb-&-Lock™ Loose Absorbent for Biofluids

WIPES & RAGS

PIG WIPES & RAGS
TOUGH ON MESS, GENTLE ON SURFACES.

Handle any job with ease — from heavy-duty scrubbing to fine dusting.

- When it comes to wiping, one size doesn't fit all. From tackling grease and grime, absorbing spills, or performing precision cleaning, PIG Wipes deliver the durability, absorbency, and reliability you need.
- Not sure which wipe to choose? Use the chart below to find the best wipe for your task. Our performance rating (PR) system helps you compare durability and absorbency at a glance—the higher the number, the more you can expect from your wipe.
- There are even wipes for specialist applications, including tasks where compatibility with chemical cleaners, disinfectants, and quaternary ammonium sanitisers is required.
- So, whether you're tackling heavy-duty scrubbing or precision cleaning, there's a PIG Wipe designed to handle the job.

PERFORMANCE RATING

ULTRA-DUTY PR100

Get super durability, absorbency and abrasion resistance all-day long.

100

HEAVY-DUTY PR80-70

Tough enough to clean rough parts without shredding.

80 70

MEDIUM-DUTY PR40-35

Blends versatility, absorbency and affordability.

40 35

SPECIALITY

Economical but tough on harsh solvents.

SPILL KITS

ABSORBS

UNIVERSAL

"MRO" KITS, PIG Universal Spill Kits soak up the widest range of everyday liquids, including oils, coolants, solvents and water.

WATER

PIG Water Spill Kits are designed for quick-acting, higher-volume absorbency that works on contact. Ideal for tackling water ingress, leaks, condensation and other water-based liquids.

OIL ONLY

PIG Oil-Only Spill Kits repel water so that you can clean up fuel and oil-based spills, even in outdoor applications.

HAZMAT CHEMICAL

PIG HazMat Chemical Spill Kits are specially treated to soak up most acids, caustics and unknown fluids without degrading or reacting.

SAFETY

HazMat Chemical Note

To ensure effectiveness and your safety, we recommend that you conduct compatibility and absorption testing of your chemicals with PIG and PIG Essentials products prior to purchase. If you have questions or need samples to test, please contact your local distributor.

PIG SPILL KITS THE ALL-IN-ONE SOLUTION FOR LIQUID CLEAN-UPS.

Everything you need for a fast, effective response wherever spills happen.

- Contains absorbents that deliver reliable performance during every clean-up, helping you maintain safety and compliance.
- Packed with absorbents in the order you need them so that you can focus on control, not confusion, during spill emergencies.
- Offered in multiple sizes and container types to fit your operating conditions and risk level.
- Available in four versions to suit every spill. Handle everything from water to oils, fuels and harsh chemicals with confidence.

BAGS, BUCKETS & BOXES

Compact and portable kits designed for quick grab-and-go response to smaller leaks, drips and spills wherever they occur.

OVERPACKS

Heavy-duty kits designed for large or hazardous spills, sealed for safe containment, transport and disposal of used absorbents.

MOBILE BINS, CADDIES & CARTS

High-capacity kits with built-in mobility that let you move fast, contain big spills and keep operations running safely.

CHESTS

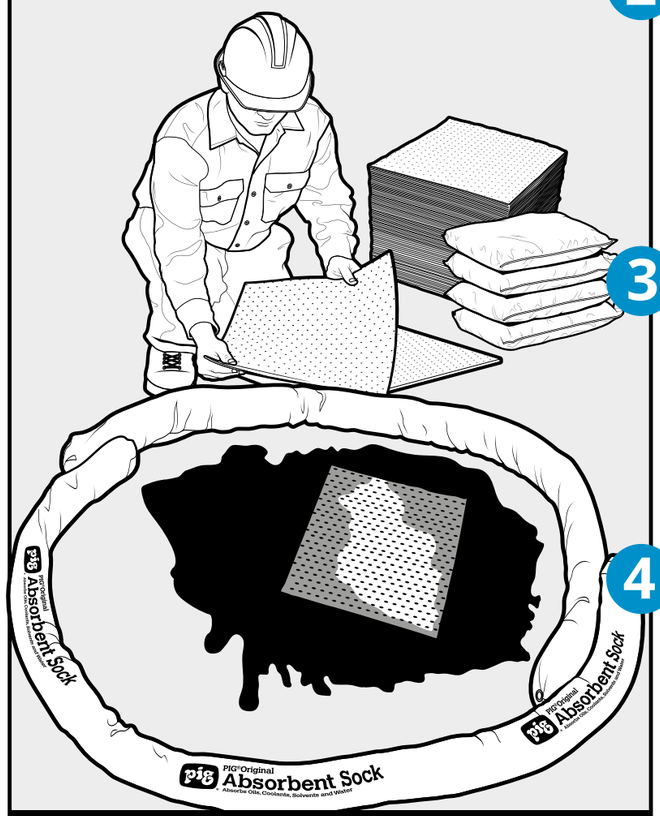

Large, weather-resistant kits that store a high volume of absorbents in one place for dependable readiness indoors or out.

SPILL RESPONSE IN FIVE STEPS

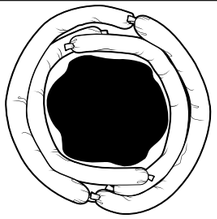

On Water

1

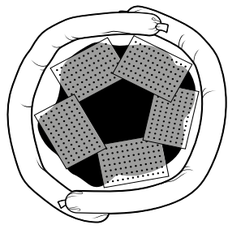

Put on proper personal protective equipment.

2

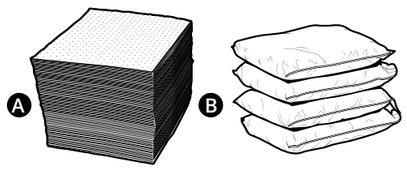

Overlap socks to contain spill.
Use multiple layers for large spills.

3

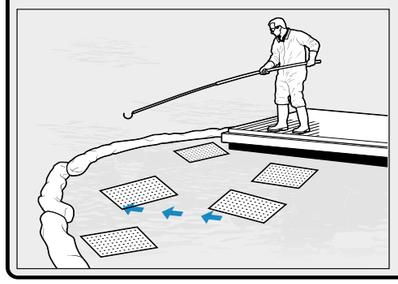

Place absorbents from the outside in.

4

Use A mats for maximum coverage,
B pillows for maximum absorbency.

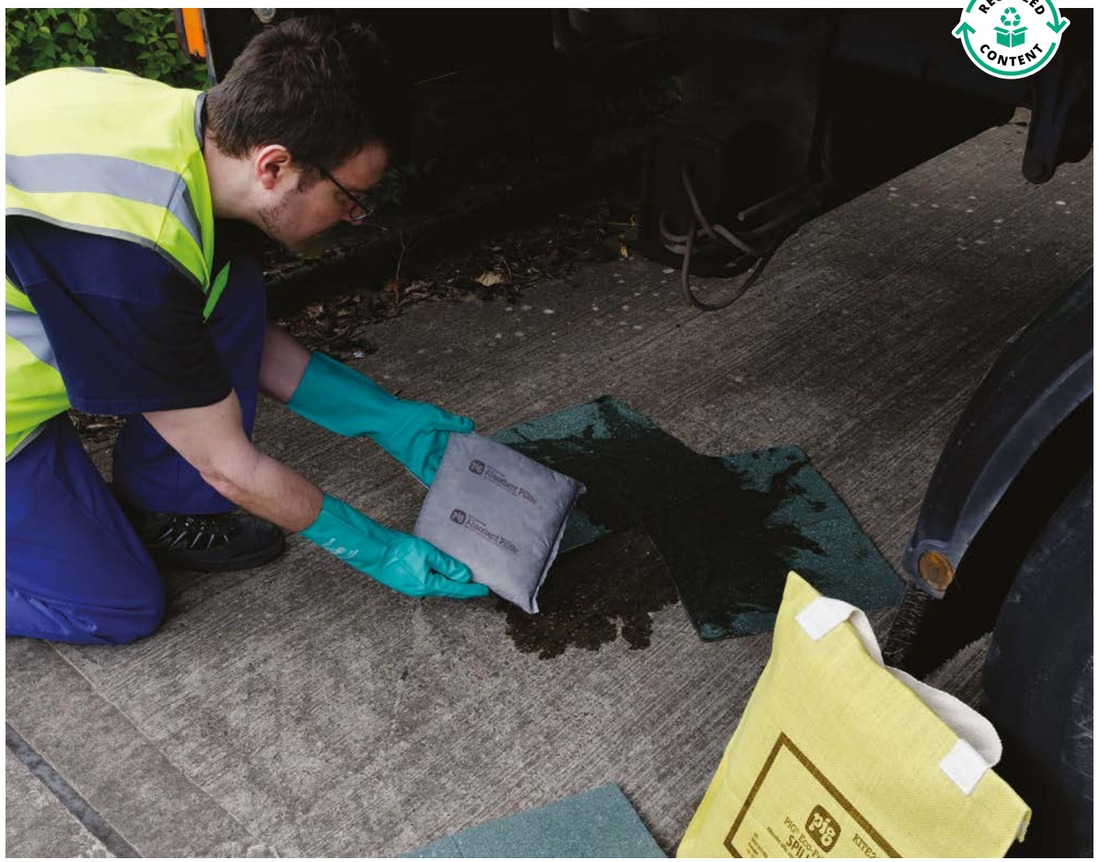

5

Position booms downstream with enough slack to float freely or angled from water flow to channel oil.

Dispose of used absorbents in yellow bags.

Eco-Friendly Compact Spill Kit

Small Kit. Big Impact. Eco-friendly spill control that's always ready to respond.

Clean up spills quickly while reducing your environmental footprint. This compact, high-visibility kit comes in a durable, reusable jute bag with a waterproof lining and a convenient carry handle, so it can hang on a wall, stow in a vehicle or fit neatly in storage.

Inside, eco-friendly absorbents reuse materials that typically enter a waste stream, including PIG Blue Mat Pads containing 75% pre-consumer recycled cellulose, a PIG Pillow with a mixture of 85% pre- and post-consumer recycled cellulose filler.

NOTE: Kit disposal bags are printed with English "CAUTION HANDLE WITH CARE" messaging and are made from 100% pre- and post-consumer recycled plastic.

SPILL KITS
Bag & Bucket Spill Kits

PIG Fork Truck Spill Kit

Be Ready on the Move. Fast spill response wherever leaks happen.

Built for mobility and speed, this compact spill kit attaches easily to any forklift or vehicle so you can respond to leaks the moment they occur. The bright yellow, high-visibility vinyl bag is lightweight, durable and reusable, with a secure box-lid closure that protects the contents yet opens quickly when you need them.

Use the included patching paste to plug and seal ruptured drums or leaking tanks, the sock to contain the spill and prevent it from spreading, and the mats to absorb the remaining mess.

Universal kit includes absorbent mat with 25% or more recycled content.

Oil-only kit includes an absorbent sock filled with a mixture of 95% pre- and post-consumer recycled cellulose.

NOTE: Kit disposal bags feature multilingual “CAUTION HANDLE WITH CARE” messaging printed in English, French, German and Italian, and contain a 30% mixture of pre- and post-consumer recycled plastic.

PIG Spill Response Bucket

Grab it. Seal it. Ship it—fast spill response in a UN-rated bucket.

Built for speed and compliance, this compact spill kit keeps you ready to respond fast while safely managing used absorbents. Its tough polyethylene bucket with easy-open, screw-on lid protects contents from damage and ensures secure containment during transport. With a UN Rating of 1H2/Y30/S for Packing Groups II and III, it provides complete confidence for shipping or temporary storage. Tamperproof seals maintain integrity between uses, and included disposal bags and ties make clean-up simple and compliant.

Universal kit includes absorbent mat with 25% or more recycled content.

Oil-only kit includes an absorbent sock filled with a mixture of 95% pre-consumer recycled polypropylene filler and a skimmer sock filled with a mixture of 98% pre- and post-consumer recycled cellulose.

NOTE: Kit disposal bags are printed with English “CAUTION HANDLE WITH CARE” messaging.

SPILL KITS
Bag & Bucket Spill Kits

PIG Eco-Friendly Spill Response Bag

Strong, Sustainable and Ready to Respond. Eco-friendly spill control that helps reduce waste.

Built for durability and designed with the planet in mind, this reusable spill bag is made from jute plant bark — naturally strong and long-lasting, and coated inside to resist moisture.

Eco-friendly absorbents reuse materials that would typically enter the waste stream, helping reduce environmental impact without compromising performance.

Kit includes absorbent mat made with 75% pre-consumer recycled cellulose and absorbent socks filled with a mixture of 85% pre- and post-consumer recycled cellulose.

Note: Kit disposal bags include English-only “Caution Handle with Care” messaging and are made from a 100% mixture of pre- and post-consumer recycled plastic.

PIG Essentials Vinyl Shoulder Bag Spill Kit

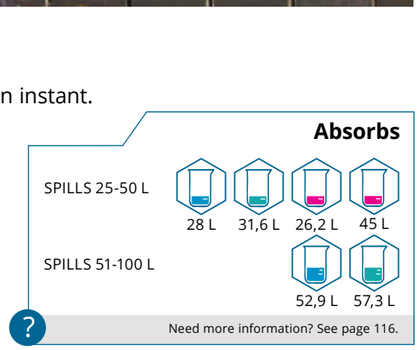

Bright, Durable and Easy to Carry. Fast spill control you can find in an instant.

Highly visible and built to last, this durable vinyl shoulder bag keeps absorbents protected, dry and ready for use. Its bright colour makes it easy to spot when spills occur, and the hook-and-loop fastening opens quickly for fast access.

Each kit contains a selection of great-value absorbents — use socks to stop spills spreading and mats to soak up liquid quickly and effectively.

Universal and oil-only kits include absorbent socks filled with 100% post-industrial recycled poly-blend material. Selected Universal (MSKVB50) and oil-only (OSKVB50) kits also contain absorbent pillows made with the same recycled filler.

NOTE: Kit disposal bags feature multilingual "CAUTION HANDLE WITH CARE" messaging printed in English, French, German and Italian, and contain a 30% mixture of pre- and post-consumer recycled plastic.

PIG Spill Kit in 76L Overpack

Strong, secure and compliant. UN-rated spill kit for safe, reliable transport.

Prepacked for rapid deployment, this 76L overpack spill kit keeps you ready to respond fast and maintain compliance during any spill emergency.

Its UN-rated (UN1H2/X46/S), X-classified design for Packing Groups I, II and III allows the safe and approved transport of used materials by land, sea or rail, giving you complete confidence in every stage of clean-up and disposal.

Built from tough yet lightweight polypropylene, the container resists chemicals and shields absorbents from dirt and moisture, ensuring dependable performance when it's needed most. The secure, easy-open lid and moulded grip points make it effortless to handle, stack and close — even in demanding conditions.

Universal kit includes absorbent mat with 25% or more recycled content and absorbent pillows made with a mixture of 85% pre- and post-consumer recycled cellulose.

Oil-only kit includes absorbent booms filled with 98% pre-consumer recycled polypropylene.

NOTE: Kit disposal bags are printed with English "CAUTION HANDLE WITH CARE" messaging.

PIG Spill Kit in 115L Overpack

Built for bigger spills. UN Rated for total confidence in transport.

Packed and ready for immediate use, this 115L overpack spill kit helps you respond quickly and maintain compliance during larger spills. The X-rated UN design (UN1H2/X70/S) for Packing Groups I, II and III ensures safe, compliant transport of used absorbents by land, sea or rail, giving you complete confidence from response through disposal.

Built from tough yet lightweight polypropylene, the container resists chemicals and harsh conditions, keeping absorbents clean, dry, and ready for action. A durable, easy-open lid and integrated grip points make lifting, stacking and closure smooth and secure, ensuring dependable performance and easier handling before, during and after spill response.

Universal kit includes absorbent mat with 25% or more recycled content and absorbent pillows made with a mixture of 85% pre- and post-consumer recycled cellulose.

Oil-only kit includes absorbent booms filled with 98% pre-consumer recycled polypropylene.

NOTE: Kit disposal bags feature multilingual "CAUTION HANDLE WITH CARE" messaging printed in English, French, German and Italian, and contain a 30% mixture of pre- and post-consumer recycled plastic.

PATENT 10,273,038

Move overpacks safely with the PIG Overpack Dolly (PAK414). Engineered for smooth, stable transport during everyday handling or rapid spill response, its wide-base, four-wheel design keeps loads balanced, while the heavy-duty rolled steel frame supports up to 363 kg without flexing. Lockable casters secure the overpack in place, even on uneven surfaces, for safer, easier mobility wherever it's needed.

PIG Spill Kit in 360L Overpack Drum

Big Spills. No Problem. UN-rated spill kit built for serious response and secure transport.

Built for demanding environments, this 360L overpack spill kit gives you the capacity and confidence to handle large-scale clean-ups with ease. The lift-out baskets keep absorbents neatly organised and protected beneath a UV-resistant lid, ensuring long-term durability and quick access to socks, booms, mats and pillows when response time matters most.

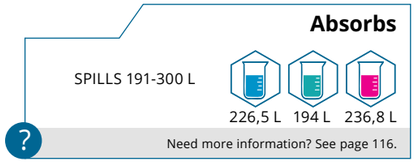

The X-rated UN design (UN1H2/X295/S) for Packing Groups I, II and III provides assured compliance and safe transport of used materials by land, sea or rail. Made from lightweight, chemical-resistant polyethylene, the drum withstands tough conditions while keeping contents clean and dry. Integrated forklift ledges make movement easy, while the notched, leakproof lid and tamperproof seal secure materials safely before and after use.

Universal kit includes absorbent mat with 25% or more recycled content and absorbent pillows made with a mixture of 85% pre- and post-consumer recycled cellulose.

Oil-only kit includes absorbent booms filled with 98% pre-consumer recycled polypropylene.

Note: Kit disposal bags feature multilingual "CAUTION HANDLE WITH CARE" messaging printed in English, French, German and Italian, and contain a 30% mixture of pre- and post-consumer recycled plastic.

Can also be paired with the PIG Overpack Dolly (PAK414) to support safe, stable transport during everyday handling or spill response. See page 141.

For added outdoor protection and UV resistance, pair with the PIG Overpack Spill Kit Cover (PAK201), featuring a durable PVC-laminated design, high-visibility colour and a clear pocket for identification labels.

PIG Spill Kit in 360L High-Visibility Container

High-visibility spill kit that's easy to find, quick to access and built to last.

Highly visible and built for efficiency, this 360L high-visibility container spill kit helps you stay ready for quick, organised response in any environment. The bright lime-green container is easy to spot, even in low light, ensuring fast identification when every second count. Its durable polyethylene construction resists chemicals and moisture to keep absorbents clean, dry and ready for use.

Lightweight and easy to handle, the container features prepacked lift-out basket that keep supplies neatly organised for fast deployment. The non-threaded lift-off lid provides immediate access during emergencies, helping you act quickly and minimise downtime.

Universal kit includes absorbent mat with 25% or more recycled content and absorbent pillows containing a mixture of 85% pre- and post-consumer recycled cellulose.

NOTE: Kit disposal bags are printed with English "CAUTION HANDLE WITH CARE" messaging.

Can also be paired with the PIG Overpack Dolly (PAK414) to support safe, stable transport during everyday handling or spill response. See page 140.

PIG Essentials Wheeled Container Spill Kit - Small

Bright, Mobile and Easy to Handle. High-visibility spill kit that rolls straight to the clean-up.

Highly visible and built for convenience, this small wheeled spill kit keeps you ready for quick, organised response when spills occur. The durable polyethene container protects absorbents from dirt and moisture, while the hinged lid opens smoothly for instant access to neatly arranged contents. Together, they ensure everything stays clean, dry and ready to use the moment you need it.

Designed for easy mobility, the integrated handle and 200mm rubber-tyred wheels let you roll the kit effortlessly across different surfaces, getting you to the spill site fast.

Can be paired with a PIG Mobile Container Cover (PAKL201), featuring a laminated design and a clear pocket for labels and SDS, for added outdoor protection.

Universal and oil-only kits includes absorbent socks, booms and pillows filled with 100% post-industrial recycled poly blend.

NOTE: Kit disposal bags feature multilingual “CAUTION HANDLE WITH CARE” messaging printed in English, French, German and Italian, and contain a 30% mixture of pre- and post-consumer recycled plastic.

PIG® Spill Cart Protection Cover

SIZE/SPEC	ITEM #
Yellow, 62 cm W x 50 cm L x 90 cm D	PAKL203

SPILL KITS
Wheeled Container Kits

For added protection, pair with the PIG Spill Cart Protection Cover (PAK881), made from durable PVC laminated polyester to shield your cart from dust, debris and UV exposure. The fitted design allows the cart to roll freely while covered, with a zippered storm flap for convenient access to contents during use.

PIG Quick-Response High-Visibility Spill Cart

Fast access, complete control. High-visibility spill cart built for quick response and confident clean-up.

When spills happen, speed and organisation matter. This high-visibility spill cart keeps absorbents protected, accessible and ready for fast response in busy work environments. The tough yellow polyethylene body resists dirt and moisture while standing out clearly for quick identification and improved safety awareness during clean-up.

Its narrow, mobile design fits easily through doorways, and the ergonomic handle with built-in step makes manoeuvring and tilting effortless. Inside, swing-out doors and a flip-top lid provide instant access to neatly compartmentalised absorbents, helping you stay calm, act fast and maintain control from response through recovery. For added security, the kit can be padlocked to prevent unauthorised access (padlock not included).

Universal kit includes absorbent mat with 25% or more recycled content.

Oil-only kit includes skimmer socks filled with 98% pre-consumer recycled polypropylene.

For added protection, pair with the PIG Spill Cart Protection Cover (PAK881), made from durable PVC-laminated polyester to shield your cart from dust, debris and UV exposure. PIG® Spill Cart Protection Cover

SIZE/SPEC	ITEM #
Yellow, 61 cm W x 59.7 cm L x 97.2 cm H	PAK881

Protect your spill kit with the PIG Spill Cart Protection Cover (PAK880). Manufactured from tough PVC-laminated polyester, it helps guard against dust, debris and UV exposure. A tailored fit keeps the cart mobile while covered, and a zippered storm flap provides easy access to its contents when needed.

PIG High Volume Water-Absorbing Spill Kit in Large Spill Cart

High-capacity water control made easy. Quick to move, fast to deploy and built to protect.

When plumbing or equipment failures cause unexpected leaks, this high-volume water-absorbing spill kit helps you act fast to block the flow, stop the spread, and prevent costly damage. The durable, high-visibility mobile cart is easy to manoeuvre through tight aisles and doorways, with large rear wheels, front swivel casters and quick-access doors that make deployment fast and effective.

Inside, the kit is prepacked with enough absorbents to tackle up to 303 litres, along with water-activated flood barriers and waterproof patch & seal tape for rapid containment and repair. A cleaner, more efficient alternative to mops and rags, it eliminates recontamination and helps keep your workspace dry, safe and operational.

Kit includes absorbent mat made with 60% pre-consumer recycled cellulose and absorbent pillows made with a mixture of 85% pre- and post-consumer recycled cellulose.

NOTE: Kit disposal bags feature multilingual “CAUTION HANDLE WITH CARE” messaging printed in English, French, German and Italian, and contain a 30% mixture of pre- and post-consumer recycled plastic.

SPILL KITS
Wheeled Container Kits

For added protection, pair with the PIG Spill Cart Protection Cover (PAK880), made from durable PVC laminated polyester to shield your cart from dust, debris and UV exposure. The fitted design allows the cart to roll freely while covered, with a zippered storm flap for convenient access to contents during use.

PIG Large Spill Caddy

Big spills. Quick access. Total control.

Large, visible and ready to move, this spill caddy gives you the capacity and control needed to manage bigger clean-ups efficiently. The durable polyethylene body keeps absorbents protected from dirt and moisture, while swing-out doors and a flip-top lid provide instant access to prepacked supplies. Inside, adjustable shelves and a built-in door pocket keep documents, instructions, PPE and absorbents neatly organised, so your team can stay focused and ready to respond.

Engineered for effortless mobility, the lockable cart (padlock not included) is just 76 cm wide, making it easy to move through doors and aisles. Large rear wheels and front swivel casters pivot smoothly without tipping, while a mounted roll of PIG® Mat allows quick pull-and-tear dispensing for fast, controlled and efficient clean-up.

Universal kit includes absorbent mat with 25% or more recycled content and absorbent pillows made with a mixture of 85% pre- and post-consumer recycled cellulose.

Oil-only kit includes skimmer socks and pillows filled with 98% pre-consumer recycled polypropylene.

PIG Spill Caddy Refill

Restock your spill caddy in minutes.

These prepacked refills make it easy to replace used absorbents and keep your existing caddy fully stocked and response-ready. Designed for discontinued models KIT244-999, KIT444-999 and KIT344-999, each refill restores your caddy's functionality without the need to replace the entire unit.

Universal kit refill includes absorbent mat with 25% or more recycled content and absorbent pillows made with a mixture of 85% pre- and post-consumer recycled cellulose.

Oil-only kit refill includes skimmer socks and pillows filled with 98% pre-consumer recycled polypropylene.

NOTE: Kit disposal bags are printed with English "CAUTION HANDLE WITH CARE" messaging.

PIG Spill Kit in a High-Visibility Storage Chest

Mobile spill readiness that's impossible to miss.

Built for larger spill emergencies, this high-visibility storage chest keeps absorbents protected, secure and ready for fast access indoors or out. Its UV-resistant, lockable (padlock not included) polyethene body shields contents from dirt, moisture and damage, so they stay clean, dry, and ready for immediate use.

The bright, high-visibility colour makes the kit easy to spot and grab when every second counts, and the forklift-ready base supports safe, efficient relocation so you can position it exactly where rapid deployment matters most.

The 79 cm width allows the chest to move easily through standard doors and aisles, while locking rubber wheels keep it stable during use. Choose either 25 cm no-flat wheels for uneven outdoor areas or 13 cm wheels for smooth indoor floors to match the mobility to your environment.

Universal kit includes absorbent mat with 25% or more recycled content.

Oil-only kit includes a selection of absorbent booms filled with 98% pre-consumer recycled polypropylene.

NOTE: Kit disposal bags feature multilingual "CAUTION HANDLE WITH CARE" messaging printed in English, French, German and Italian, and contain a 30% mixture of pre- and post-consumer recycled plastic.

PIG Extra-Large Response Cart

High-capacity spill readiness for your biggest clean-up challenges.

Built for major spill emergencies, this extra-large response cart keeps absorbents clean, dry and secure inside a seamless, lockable (padlock not included) polyethylene body. Its opaque walls block UV damage for up to 8,000 hours, while the prepacked, compartmentalised layout ensures fast, organised access to everything you need to stay in control during high-volume clean-ups.

You can match mobility to your environment by choosing 25 cm no-flat wheels for rough outdoor areas or 13 cm wheels for smooth indoor floors. Tamperproof seals protect contents between uses, and the spacious cart provides all the absorbents required to manage large spills quickly and effectively.

Universal kit includes absorbent mat with 25% or more recycled content and absorbent pillows made with a mixture of 85% pre- and post-consumer recycled cellulose.

Oil-only kit includes a selection of absorbent booms filled with 98% pre-consumer recycled polypropylene.

Refills can also be used as economical spill kits.

Refills for chests feature four compartments for easy access and wooden pallets for forklift entry. Absorbents are packed in sturdy, affordable, tri-wall cardboard.

NOTE: Kit disposal bags are printed with English "CAUTION HANDLE WITH CARE" messaging.

SPILL KITS
Wheeled Container Kits

PIG Essentials Wheeled Container Spill Kit

High-vis, high-capacity spill response that rolls into action.

This high-visibility wheeled spill kit keeps absorbents clean, dry and easy to identify so you can respond with confidence when a large spill occurs. The durable polyethylene container protects contents from dirt and moisture, helping maintain absorbent performance when it matters most.

A hinged lid and drop-down front open to neatly arranged absorbents for fast access, while the integrated handle and 200 mm rubber-tyred wheels let you move the kit smoothly to the spill site for immediate spill response.

Universal kit includes absorbent socks, booms and pillows filled with 100% post-industrial recycled poly blend.

Oil-only kit include an absorbent socks, booms and pillows filled with 100% post-industrial recycled poly blend.

NOTE: Kit disposal bags feature multilingual "CAUTION HANDLE WITH CARE" messaging printed in English, French, German and Italian, and contain a 30% mixture of pre- and post-consumer recycled plastic.

Kappler ChemTape

Reliable chemical-resistant protection where your PPE needs it most.

Kappler™ ChemTape® provides a proven chemical-resistant seal between your suit and other PPE, keeping out dangerous chemicals, especially liquids.

Designed and tested for compatibility with chemical-resistant clothing, it delivers stronger protection and durability than standard duct tape. It tears easily by hand for quick application and secures gloves, boots and suit interfaces to maintain a safer, more reliable barrier during hazmat response.

PIG Polyethylene Disposal Bags Range

Reliable short-term containment for hazardous and contaminated waste.

Keep hazardous and contaminated waste contained, controlled and ready for proper disposal with this dependable range of temporary storage bags.

The tough 3 mil polyethylene bags provide temporary storage for used absorbents and can also line 210-litre drums (large bags only) to support safer, more contained waste handling.

PIG Polyethylene Disposal Bags feature bold “HAZARDOUS MATERIAL HANDLE WITH CARE” messaging (available in English only), which enhances visibility and communication on site, supporting clearer, safer waste-handling practices in fast-moving environments.

PIG Multilingual Polyethylene Disposal Bags use clear “CAUTION HANDLE WITH CARE” messaging in four major European languages (English, French, German and Italian), helping ensure waste is managed correctly and consistently across multiple sites and regions.

All bags in the range are manufactured with a 30% mixture of pre- and post-consumer recycled plastic, helping you meet sustainability goals without compromising strength or reliability.

SPILL CONTROL

PIG SPILL CONTROL
TAKE CONTROL BEFORE SPILLS TAKE OVER.

Protect drains and stay compliant with reliable control for sudden spills and liquid management.

Stop liquids before they spread with ready-to-use spill control. Impenetrable drain covers, plugs, low-profile dikes, and flexible barriers work together to seal off drains fast to help you manage risk, minimise disruption, and support compliance, all while keeping people, property, and the environment better protected.

DRAIN COVERS

Engineered for emergency response, the urethane bottom layer forms a chemical-resistant, liquid-tight seal—helping isolate drains quickly during spills or washdowns to prevent contamination and support environmental compliance.

DRAIN PLUGS

Designed for fast response, these tapered plugs form a tight, chemical-resistant seal to help block liquids from entering drains, helping to prevent contamination and support compliance during washdowns or spills.

DIKES

Stop spills in their tracks. These ultra-flexible dikes seal tightly to surfaces, to help confine, contain, or divert liquids quickly and keep drains protected—indoors or out.

BARRIERS

Build the barrier you need, where you need it—indoors or out. Custom-fit spill control offers long-term drain protection in leak-prone areas like storage zones, machinery bays, or transfer points, helping you manage risk and support compliance.

Spill Control Products Selection Guide

PIG PROVEN WAYS TO CONTROL LIQUIDS & MAINTAIN COMPLIANCE

Customisable solutions for temporary and longer-term liquid management.

1. What are you trying to do?

- Seal a floor drain or outlet?
  - 2. Will there be vehicle traffic passing over the area while the seal is in place?
    - **Yes** → **Use a Drive-Over Drain Cover**

      Tough enough to withstand vehicles while sealing the drain.

      Page 166.
    - **No** → 3. Do you want to...
      - ...completely cover the drain? → **Use a Standard Drain Cover**

        Quick to deploy, reusable, seals top of drain.

        Pages 163-165.
      - **or** ...plug it inside the opening? → **Use a Drain Plug**

        Expands inside pipe for a tight internal seal.

        Page 167.
- Create a barrier to divert, confine or contain liquid flow?
  - 4. Is this a temporary solution for spill response or washdowns?
    - **Yes**
      - 5. Does the barrier need to withstand vehicle traffic?
        - **Yes** → **Use a Drive-Over SpillBlocker Dike**

          Reusable barrier that seals to floors and resists compression.

          Page 171.
        - **No** → **Use a Drive-Over Build-A-Berm Barrier**

          Customisable and tough enough for heavy traffic, built for semi-permanent use indoors or out.

          Pages 174-175.
    - **No**
      - 6. Do you need a long-term solution for areas with machinery or storage and vehicle traffic?
        - **Yes** → **Use a Drive-Over Build-A-Berm Barrier** (see above)
        - **No** → **Use a Build-A-Berm Barrier**

          Flexible and semi-permanent, ideal for light-wheeled equipment or foot traffic indoors and out.

          Pages 176-177.
      - 7. Are you containing or diverting only water?
        - **Yes**
          - 8. What kind of water diversion solution do you need?
            - Reusable, for temporary use during washdowns or small floods. → **Use a Reusable Water-Filled Barrier**

              Reusable, easy to deploy, and space-saving—ideal for fast, flexible water control or flood protection.

              Page 173.
            - **or** Long-term, semi-permanent for small volume water control. → **Use a Peel-and-Stick Silicone Water Barrier**

              Low-profile barrier for discreet, long-term control of recurring water leaks around equipment or work areas.

              Page 173.
        - **No**
          - 9. Will you be working with high volume leaks and spills?
            - **Yes** → **Use a High-Volume SpillBlocker Dike**

              Extra-tall reusable design handles larger leaks other dikes can't—ideal for high-volume spill control and protection.

              Page 170.
            - **No** → **Use a SpillBlocker Dike**

              Low-profile barrier for discreet, long-term control of recurring water leaks around equipment or work areas.

              Pages 168-170.

CONTROL THE LEAK

COMPLETE THE CLEAN-UP.

Handle spills from 7 L to over 1,000 L with kits that absorb everything from oils, coolants, solvents and water to fuels, oil-based liquids and most acids and caustics.

Choose from portable, static and wheeled formats for fast, confident response wherever spills happen.

FIND THE RIGHT SPILL KIT
SEE PAGES 116–157.

RECYCLED CONTENT

PIG Original DrainBlocker Drain Covers

Temporary drain protection that won't let you down.

Built for repeated use, this tough, chemical-resistant drain cover features a tear-resistant top and a flexible, tacky polyurethane base that moulds to uneven surfaces for a tight, temporary seal.

Unlike clay mats, it's clean, reusable, and easy to deploy—helping you block unwanted liquids and support compliance when it matters most.

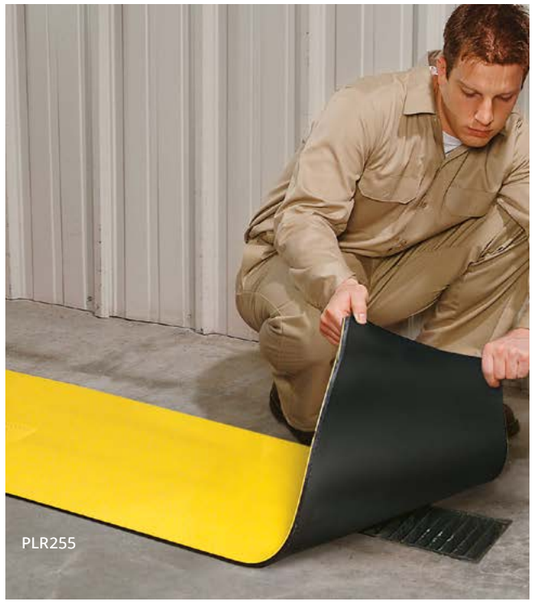

For best performance, ensure the cover overlaps the drain opening by at least 8cm on each edge.

Rectangular covers are perfect for long, narrow drains.

NOTE: Due to the nature of softer urethane, the physical properties of these products may change over time with exposure to certain environmental conditions like temperature, humidity and UV radiation. Typical life expectancy is 5 years. Please inspect the stored product regularly to ensure it is in a usable state. For optimum performance, ensure that the area where the product will be deployed is free of debris, cracks and holes. For more details and for chemical compatibility, please contact your local distributor.

PLR255

PIG Essentials Drain Covers

Create a tight, chemical-resistant seal to help protect your drains.

This durable, chemical-resistant drain cover creates a tight, temporary seal to block unwanted liquids from entering drains. The flexible, tacky underside moulds to uneven surfaces, while the tough red top layer resists tears, abrasion, and repeated use.

Easy to clean and reuse, it's a smart, high-visibility solution that helps manage risk and support compliance.

DC6161

PIG Essentials Drain Covers with Handles

Handles make fast drain protection easy when every second counts.

This economical drain cover combines durability with practicality. The silicone fabric top resists wear and allows roll-up storage without a protective film, while the tacky polyurethane base moulds tightly to seal drains fast.

Reusable and chemical-resistant, it's a clean, low-maintenance solution that helps stop unwanted liquids from entering drains to support environmental compliance.

Place the cover over the drain with poly side down and press firmly.

When done, pull up the cover and clean it with soap and water.

Once clean, roll the cover poly side up onto its silicone fabric.

Store in supplied box until next use.

Our toughest DrainBlocker can take whatever your car park dishes out.

Punctures
Stands up to debris and sharp objects that damage other covers.

Abrasion
Won't wear down even when tyres track on dirt and gravel.

Tearing
More tear resistance means it won't rip or shred.

UV & IR Light
Made to take the baking sun in your car park.

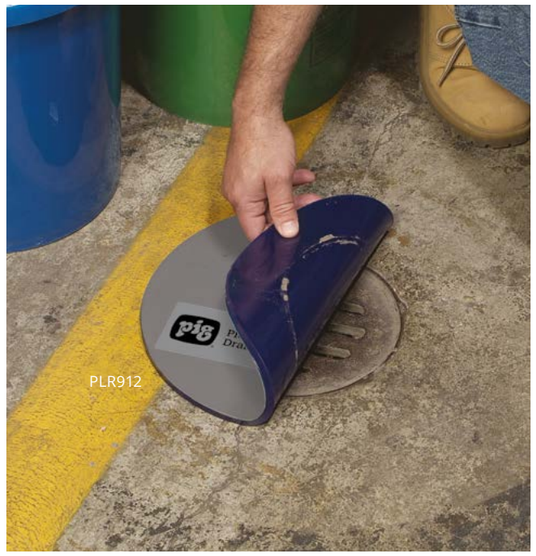

Chemicals
Resists many commonly used chemicals to keep drains secure.

PIG Drive-Over DrainBlocker Drain Covers

Featuring patented HogHyde skin—engineered to withstand heavy traffic, UV exposure and more.

Tough enough for HGV traffic, smart enough for daily drain protection.

Semi-permanent drain cover with patented HogHyde skin resists damage and seals tight—even on uneven surfaces. Blocks spills fast, to help prevent pollution, reduce clean-up time and maintain compliance with minimal effort.

PIG DrainBlocker Holders

From storage to spill site in seconds—protect and move your drain covers with ease.

Keep your drain cover protected, clean and ready to deploy fast with wall-mountable storage that fits all PIG and PIG Essentials Drain Covers on pages 163-165.

Choose the soft bag for lightweight grab-and-go access or the rigid case for extra protection in demanding environments.

PIG Conical Drain Plug

Seal floor and trench drains fast with a low-profile plug that fits neatly below the grate.

Prevent pollution, avoid costly clean-ups, and stay compliant with a plug designed for discreet, long-term protection. Durable, reusable, and chemical-resistant, it's ideal for trench drains and tight spaces, sealing tightly without blocking access or creating trip hazards.

PIG Low-Profile SpillBlocker Dike

Contain small leaks quickly to prevent spread, protect work areas and reduce clean-up time.

Surround leaky machinery fast with a reusable dike that seals tightly to smooth surfaces. Interlocking joints connect sections securely for longer runs and custom layouts, providing flexible, reliable control wherever leaks occur.

The low-profile design helps reduce trip risks, while the hi-vis colour keeps the barrier visible—supporting site safety and compliance in busy areas.

Snap sections together using interlocking ends to build longer barriers and keep leaks fully contained.

PIG® Low-Profile SpillBlocker® Dike

SIZE	UNIT	COLOUR	TYPE	ITEM #

PIG SpillBlocker Dike

Tough, quick-deploy flexible barrier that blocks and diverts liquids fast.

Control deeper pools and larger flows with an easy-to-clean, reusable, chemical-resistant dike that seals tightly to smooth surfaces. Built-in connectors let you join sections without the need for extra parts, allowing the creation of a continuous, liquid-tight, non-absorbent barrier that simplifies reclaim and clean-up.

Ideal for rapid response around drains, machinery and high-risk zones where containment and compliance matter.

Create clean corners with this 90° connector - build leakproof layouts that match your space.

Join sections securely and seal gaps for a liquid tight barrier that adapts to any layout.

Build precise 90° turns to contain or divert liquids exactly where you need them.

PIG Original SpillBlocker Dike

Protect drains and inventory fast with a flexible, reusable barrier that puts you in control.

Divert spills away from drains, equipment or inventory with a tough, reusable barrier that seals tightly to smooth surfaces. Flexible and tear-resistant, it reshapes easily, connects tightly, and stands up to oils, water and most chemicals for dependable liquid control in any layout.

PIG® Original SpillBlocker® Dike Carrying Case (Use with PLRE204)

SIZE	ITEM #
10 cm D x 63 cm Dia.	PLR284

PIG SpillBlocker Vacuum Dike

Capture liquids as you contain them.

This innovative dike connects to a wet vac system to capture and contain liquids in one step. Its integrated vacuum channels and four intake ports collect spills faster than a standard vacuum head, making it ideal for rapid response or routine washdowns.

Connects to the PIG Original SpillBlocker Dike (PLRE204) using Connector for PIG Original SpillBlocker Dike (PLRE205), (both sold separately), to create a larger containment area for extended protection.

Polyurethane construction resists water, oils and many chemicals, and is reusable after cleaning with soap and water.

PIG® SpillBlocker® Rough Surface Dike

SIZE	UNIT	COLOUR	TYPE	ITEM #
10 cm W x 152 cm L x 6 cm H	1/Box	Yellow	Dike	PLR280

NOTE: Due to the nature of softer urethane, the physical properties of these products may change over time with exposure to certain environmental conditions like temperature, humidity and UV radiation. PATENT 5, 236, 281

PIG SpillBlocker Rough Surface Dike

Seal tight fast—even on rough surfaces like tarmac and unfinished concrete.

This single-use dike forms an instant, liquid-tight seal—even on uneven ground—thanks to its super-tacky bottom layer that seeps into surface cracks.

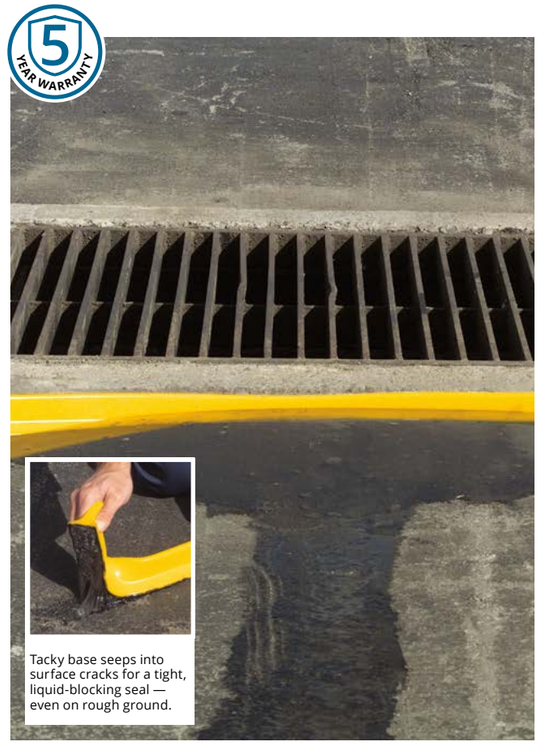

Built for rough outdoor surfaces like tarmac, this 6 cm-high barrier contains up to 5 cm of liquid fast, helping block or divert flow before it reaches drains. The non-absorbent design simplifies clean-up and recovery, making it ideal for quick, effective spill response.

NOTE: Intended for single use only and should not be left down for extended periods.

PIG® SpillBlocker® Rough Surface Dike

SIZE	COLOUR	TYPE	ITEM #
5 cm W x 3 m L x 6 cm H	Yellow	Dike	PLR230

NOTE: Due to the nature of softer urethane, the physical properties of these products may change over time with exposure to certain environmental conditions like temperature, humidity and UV radiation. PIG Drive-Over SpillBlocker Dike

The ONLY barrier designed for traffic and long-term outdoor use.

Built for drive-overs and long-term outdoor use, this rugged, flexible dike creates a reliable containment barrier that resists crushing, tearing and UV damage. The patented HogHyde® skin handles repeated vehicle traffic, while the full-width bond strengthens over time for lasting performance.

Designed to flex around obstacles, reposition easily and rinse clean to provide long-term protection without disrupting traffic or daily operations.

PATENT 5, 236, 281

PIG DoorBlocker Dike

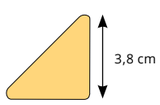

Stop liquids before they cross the threshold.

This flexible polyurethane dike is chemical resistant, non-absorbent, and easy to clean for repeated use.

Unique 45° angle design fits any doorway up to 122 cm wide to divert liquids from doorways.

Ideal as a barrier during washdown operations, as a dam to control or contain liquids or as a diverter to direct liquids away from equipment or supplies.

PIG® DoorBlocker Dike

PIG WashBlocker Strip

Washdown control that protects and directs.

Prevent cross-contamination, protect carpets, and direct liquid to drains with this lightweight, reusable, easy-to-handle dike.

Its low-profile design seals tightly to dry floors for fast setup during routine washdowns.

The tear-resistant top withstands repeated use, and the bright green colour keeps the barrier clearly visible, making it ideal for routine cleaning and sanitising tasks.

Tear-resistant polypropylene top withstands repeated use.

PIG Reusable Water-Filled Containment Barrier

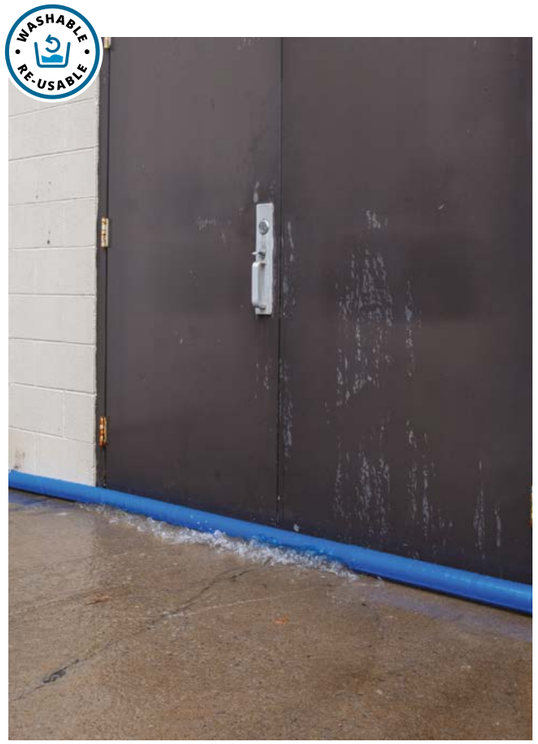

Reusable barrier that's quick to deploy and simple to store.

This lightweight barrier is easy to carry and position where needed. Attach a standard garden hose to the threaded cap, fill with water, and the weight keeps it firmly in place to contain or divert liquids during washdowns, cleaning, or minor floods.

Made from tough PVC hose material, it withstands repeated use. Drain, roll up, and store compactly for next time— offering a clean, reusable alternative to bulky sandbags.

WASHABLE RE-USABLE

PIG Drive-Over Build-A-Berm Barriers

Build your own berm for long-term containment—even in high-traffic areas.

Designed for high-traffic areas, the foam core compresses under weight and springs back after trucks, loaded tow motors or other heavy vehicles pass over. The tough vinyl cover resists oils, coolants, and most chemicals, both indoors and out.

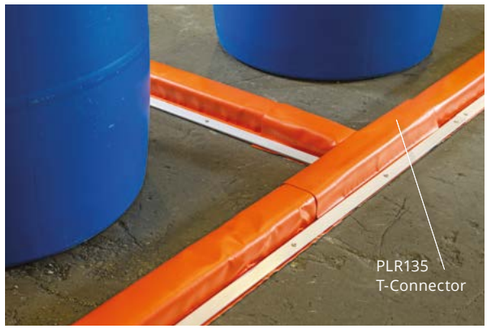

Pre-drilled aluminium mounting strips and anchors enable easy installation on sealed surfaces and allow for repositioning as needed. Seal overlapping ends to create leakproof containment without the need for permanent construction.

From clean angles to clever joins, every accessory supports a fully custom setup, giving you the flexibility to contain without committing to permanent infrastructure.

NOTE: For best results, we recommend sealing the seams and securing the barrier to smooth, sealed flooring with a silicone-based sealant (not supplied).

PATENT 5, 820, 297

SPILL CONTROL
Barriers

PIG Build-A-Berm Barriers

Build your own berm for long-term liquid containment, anywhere.

Create a custom containment layout without the cost or compleity of concrete curbs or angle iron. This flexible, semi-permanent barrier installs indoors or out and conforms to the space you need to protect.

The open-cell foam springs back after foot or light wheeled traffic, while the durable, high-visibility vinyl covering resists oils, coolants and most chemicals to support safer, more visible containment.

From corners to connectors, each accessory helps you build a fully customised barrier system—delivering a tailored solution without the need for permanent construction.

For best results, we recommend sealing the seams and securing the barrier to smooth, sealed flooring with a silicone-based sealant (not supplied).

When used with PIG Drive-Over Build-A-Berm Barriers (see pages 174-175), the orange colour highlights designated entry and exit points for drivers.

STORMWATER & FLOOD DEFENCE

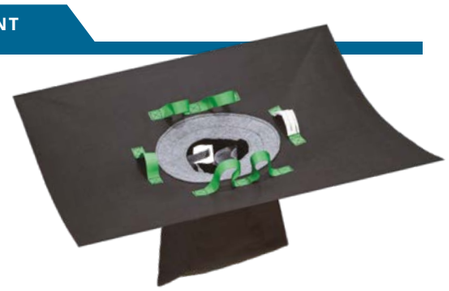

PIG STORMWATER & FLOOD DEFENCE
READY FOR EVERYSTORM.

Prevent unexpected water from entering your premises and stop debris from entering your drains.

- Whether you're preparing for seasonal storms, flash floods or everyday rainwater runoff, we've got the solutions to help you stay ready.
- Our range of flood and stormwater products is built to help avoid costly down time when the weather turns. From filtration and compliance to flood containment and control, these solutions are quick to deploy, simple to use, and highly effective — giving you confidence when every second counts.

STORMWATER MANAGEMENT

Capture oils, fuels, sediment and debris before they enter drains. Our filtration solutions help you meet regulations, minimise environmental impact, and safeguard your site from polluted runoff.

FLOOD DEFENCE

Our flood bags and barriers provide instant protection against flash floods, heavy rain, and burst pipes — helping to keep people, property, and operations safe.

STORMWATER & FLOOD DEFENCE
Drain Filters

PIG Storm Drain Filters

Smart stormwater filtration for every drain type.

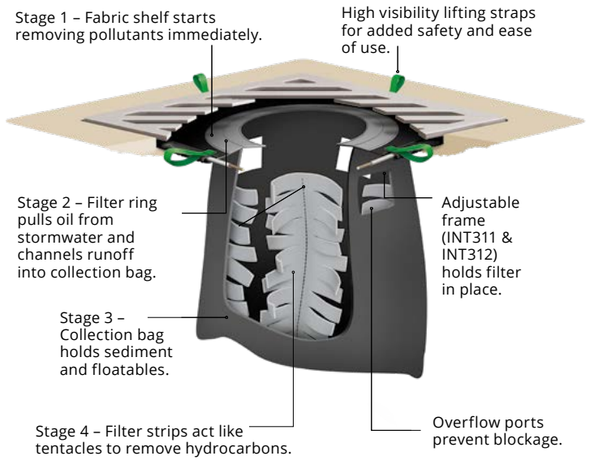

Featuring a 4-stage filtration system to remove oil, sediment, litter and debris before they enter drains — helping you stay compliant, protect waterways, and reduce maintenance costs.

Lightweight, low-profile frameless filters (FLT615 & FLT116) are ideal for small drains of any shape, even shallow ones. Their below-grate design stays secure in high-traffic areas, with overflow ports to prevent backup. Lightweight and low-profile, these trim-to-fit filters deliver cost-effective, custom coverage and reliable protection—without compromise.

Adjustable-frame filters (INT311 & INT312) fit rectangular drains with a coated-steel frame that stays secure, even without the grate. A patented filter ring channels water into the centre bag to prevent untreated water from escaping through overflow ports. Designed for one-person installation and long-term use in demanding settings.

Both filter styles offer reliable, high-flow stormwater protection, are UV resistant, easy to maintain, and suitable for a wide range of outdoor applications.

PATENT 10,508,430

Excess fabric around grate can be trimmed for appearance or left in place for grip during changeouts.

High visibility straps show from a distance that you're proactively managing stormwater.

Oils are captured by the filter mats before they can harm the environment.

PIG Oil Filter Mat

Trap oil and let water flow for fast and effective outdoor clean-up.

Tackle oily runoff before it reaches drains or waterways. Both mat pads and rolls absorb oil-based liquids, including hydraulic fluid and motor oil, while allowing water to pass through. UV-resistant and ideal for stormwater control on land, they're a smart solution for drains, tanks, vehicles, outflows and more.

Choose vacuum-packed mat pads for compact storage in vehicles or spill kits and rolls for larger areas or frequent use across bigger sites.

Contains 85% post-consumer recycled synthetic fibres.

MAT1201 MAT1204

Corner grommets let you stake berm pad to the ground to help stay in place when empty.

PIG Outdoor Filter Berm Pads

Keep hydrocarbons contained and let rainwater flow for simple, effective outdoor control.

This portable berm pad captures oils, fuels, and hydrocarbons while allowing rainwater to drain through. Foam sidewalls increase sump capacity, giving contaminants more time to be filtered.

Lightweight yet heavy-duty, it folds for transport and anchors securely on-site using pegs (sold separately) to prevent shifting — even when empty. Ideal for use with small equipment and containers to IBC units, drums and large equipment at construction sites, oil fields and other outdoor areas.

Replacement liners are available to extend product life and keep your spill response kit fully stocked and ready to deploy.

STORMWATER & FLOOD DEFENCE
Water-Activated Flood Bags & Barriers

PIG Water-Activated Flood Bags & Barriers

Fast and flexible flood control that activates upon contact with water.

Water-activated flood bags and barriers expand on contact with water to create instant, low-effort protection against rising floodwaters. Lightweight and compact before activation, they're far easier to store, handle and deploy than traditional sandbags.

Choose bags for building stackable flood walls in tight or uneven areas or barriers for quick coverage along doors, driveways or wider openings.

Both options can remain in place for up to six months when saturated — ideal for long-lasting, site-ready defence.

Presoak the bags to create a barrier against encroaching water and stack for added height and protection as floodwaters rise.

PIG LEAK DIVERTERS

BETTER BY DESIGN

EASIER, SECURE HANGING

STRONGER MATERIALS

BETTER SHAPE FOR MAX FLOW

FASTER DRAINING

PIG Leak Diverters are engineered to outperform cheap tarp-and-hose contraptions.

SEE EUROPE'S LARGEST RANGE OF LEAK DIVERTERS ON PAGES 218–243.

PIG Water-Filled Flood Barriers

Reusable flood barriers that fill fast and block water instantly.

Protect doorways, garages and vulnerable areas with this reusable, easy-to-fill flood barrier. Made from durable 10 mil polyurethane, the dual-chamber tube stays firmly in place once filled with water, creating a strong, low-profile defence.

Lightweight and compact when empty, it's easy to store, transport and deploy when flooding threatens. Ideal for temporary use during storms, emergency response or erosion control — without the mess, weight or waste of traditional sandbags.

Unfilled

STORMWATER & FLOOD DEFENCE
FloodFence Units

FloodFence Units

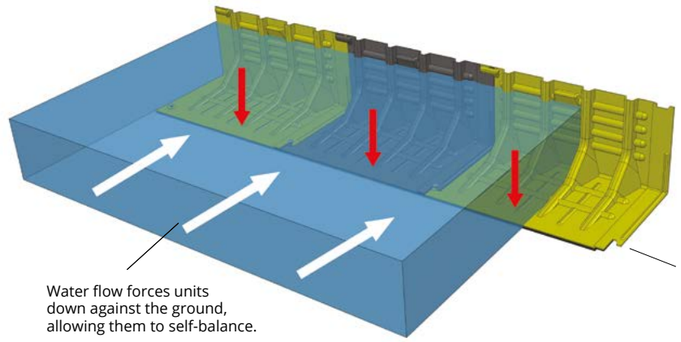

Modular flood barriers built for fast response and custom, scalable protection.

FloodFence is a lightweight, reusable flood defence system designed for fast deployment by one person — no ballast needed. Each self-balancing unit forms a secure seal against hard surfaces and deflects fast-moving water from flash flooding, heavy rain, drain or river overflows, burst water mains, or firewater runoff

Straight units (PLSE315) form a reliable linear barrier, but the system can be easily adapted to suit your custom requirements. To create corners, use a Corner Unit (PLSE316); one forms an inner corner, while two joined together create an outer angle.

When building an outer corner, use the Outer Corner Locking Pin (PLSE318) to connect and secure the units. For layouts that meet a vertical surface, the Wall Connector (PLSE317) creates a tight seal between the barrier and the wall — helping you contain or divert water precisely where needed.

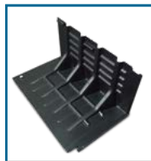

Compact, stackable and easy to store, FloodFence delivers smarter, site-ready protection — even for complex layouts.

FloodFence Units

Specify Colour for PLSE315 & PLSE316: Black Yellow

PART	SIZE	ITEM #
Unit	100 cm W x 45 cm H x 58 cm D	PLSE315
Corner	69 cm W x 45 cm H x 61 cm D	PLSE316
Wall Connector (Left or Right)	20 cm W x 45 cm H x 58 cm D	PLSE317
Outer Corner Locking Pin & Gaskets	N/A	PLSE318

FloodFence Unit

Protects your property against flash flooding without any pre-applied ballast.

Corner Unit

Allows inner or outer corners to be deployed in conjunction with standard FloodFence Units.

Wall Connector

Allows your FloodFence barrier to connect to and seal against vertical surfaces.

Outer Corner Locking Pin & Gaskets

Outer corner locking pin & gaskets and two vertical gaskets are required to link two corner units together to create an outer corner.

FLOOR MATS

PIG FLOOR MATS TAKE CONTROL OF YOUR FLOOR SAFETY.

Reduce slips, trips and falls with our range of floor safety solutions for the entire workplace.

- Whether you're stopping dirt at the door, keeping walkways slip-free, or protecting floors from daily wear and tear, our mats make it easy to keep your premises clean and safe.
- Our range of floor mat solutions is built to save time and reduce hassle. From adhesive-backed mats that stay put to step-off solutions and beyond, they're quick to install, simple to maintain, and tough enough for the busiest areas — giving you reliable protection wherever it's needed most.

STICKY STEPS MATS

Pull dirt and dust off shoes and wheels before they enter, keeping floors cleaner and protecting sensitive areas from contamination.

GRIPPY ADHESIVE-BACKED MATS

From everyday floor mats to safety borders, custom prints, antimicrobial and absorbent options, the Grippy range offers a solution for virtually every application and space.

INDEX

STICKY STEPS	**192**
GRIPPY ADHESIVE-BACKED MATS	**193-217**
Floor	198-201

TECHNICAL ICONS

DURABILITY

Extreme Durability
Unparalleled durability and extraordinary wear resistance in the most extreme traffic conditions.

Super Durability
Premium-grade endurance for superior wear resistance in challenging, high-traffic environments.

ABSORBENCY

High Volume
Heavyweight mat absorbs more liquid per pad for high-volume leaks and large spills.

Medium Volume
Mediumweight mat offers mid-range absorbency for everyday maintenance and common jobs.

APPLICATION

Oil Resistant **Absorbing** **No Bunching** **Dust Control** **Indoor Use**

TRAFFIC

Medium Foot Traffic
Designed for workstations and corridors with steady, moderate footfall throughout the day.

Heavy Foot Traffic
Tough enough for entrances, walkways and production zones with high daily footfall.

Wheelchair Accessible Traffic
Designed with a low profile and firm surface to ensure safe, smooth access for wheelchairs and mobility aids.

Light Wheeled Traffic
Ideal for areas with frequent use of light trolleys, carts or pallet trucks.

Heavy Wheeled Traffic
Engineered to withstand constant movement from heavy machinery—such as forklifts—in demanding industrial environments.

PIG Sticky Steps Mats

Stop dirt at the door for cleaner, safer spaces.

Sticky Steps Mats capture dirt, dust, and debris from shoes and wheels, helping to protect offices, classrooms, and clean environments. Each low-profile pack adheres securely to the floor and contains 30 disposable sheets that tear off individually.

Made from 4 mil polyethylene, every sheet is anti-static, non-allergenic, odour-free, and non-drying, with a surface resistivity of 4,1×10^6 ohm/sq for use in ESD-sensitive areas.

Choose from three colour options to best match your premises. (MAT565 not available in white).

PIG GRIPPY ADHESIVE-BACKED MATS

The answer to preventing slips, trips and falls? It's right under your feet!

Award-winning PIG Grippy Adhesive-Backed Mats are the perfect addition to your floor safety measures.

Our team perfected New Pig's exclusive stick-and-release technology and invented the world's fi rst adhesive-backed absorbent mat. Over 10 years later, no one comes close in quality, range and reliability.

Our Adhesive-Backed Mats range is proven to never disintegrate or leave any residue behind – even when saturated. They stick tight to most commercial floor surfaces and won't ripple, bunch up or flip over. They offer the perfect solution for reducing slips, trips and falls, as well as the costly legal claims often associated with these types of incidents.

They provide a safer, lower-profile, more durable and aesthetically-pleasing floor safety solution when compared with traditional rubber-backed mats.

Isn't it time to take your floor safety to the next level with PIG Grippy Adhesive-Backed Mats?

FLOOR MATS

Grippy Adhesive-Backed Mats

EXCLUSIVE BENEFITS OF PIG GRIPPY ADHESIVE-BACKED MATS

SAFER

Reduce hazards.
Trap dirt and liquids for months at a time to prevent their spread for cleaner, safer, drier floors.

CUSTOMISABLE

Easily cut to fit.
Create perfect, continuous coverage in any size or shape. No gaps. No ripples. No overlaps.

CLEANER

Keep floors cleaner for longer.
Traps dirt, grease, salt and a variety of liquids to keep floors looking their best.

GREENER

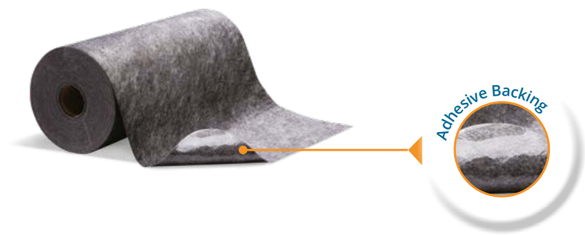

Environmental choice.
PIG Grippy Floor Mat has up to 91% lower environmental impact than rental floor mats. Grippy Absorbent Mat is made using 25% pre-consumer recycled content.

LONGER LASTING

Stays down longer.
Durable mat construction lasts longer than traditional-style floor mats — stays on the job for up to 6 months!

ECONOMICAL

Save time and money.
Protect floor surfaces and decrease cleaning time, all while reducing slip, trip and fall claims.

TESTED & CERTIFIED!

EU: DIN 51130:2014 – Grippy Floor Mat classified as slip resistance R13 according to DIN51130 - suitable for use on floors in workrooms and work areas where there is increased risk of slipping due to grease, oil, water, foods, left-overs, dust, flour, paint clippings etc.

BS7976-2:2002+A1:2013 - Low slip. Tested in accordance with BS 7976-2:2002+A1:2013, and demonstrated low slip potential in both wet and dry conditions.

BS EN 13501-1:2007+A1:2009 - Fire classification Bfl -s1 when tested according to BS EN 13501-1.

US: National Floor Safety Institute (NFSI): When used as part of your floor safety program, high-traction surfaces such as Grippy Floor Mat have been proven to reduce slip-and-fall claims by as much as 90%.

Cleaner floors. Safer steps. Proven performance. That's Grippy.

PIG Grippy Mat was the world's first adhesive-backed mat, and more than a decade later, it remains the benchmark for floor safety and performance. From the start, we set out to create a mat that does more than cover floors; it transforms how you keep them clean and safe.

Our engineers developed an exclusive adhesive formula that grips tight without shifting, bunching, or curling, yet lifts easily without leaving residue. With its tough, absorbent surface that traps dirt, grease, and spills on contact, Grippy stays in place, keeping your floors spotless even in high-traffic areas.

Trusted in workplaces around the world, Grippy Mat delivers proven performance that saves time, reduces slip and fall risks, and helps your premises look their best every day.

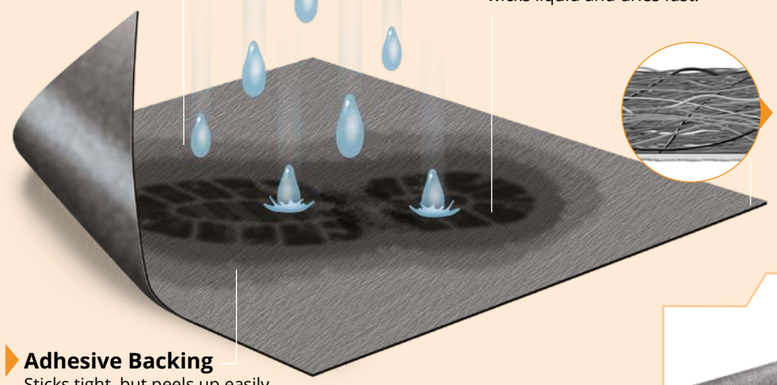

GRIPPY FLOOR MATS - See Pages 198 - 205

Durable and low-profile mats stay in place and trap dirt, grease, salt and moisture. Available in original Floor Mat, Custom Printed Floor Mat and Floor Mat with Safety Borders varieties.

Absorb WATER and trap dirt, grease, salt, mud and oils.

Impermeable Poly Layer
Stops liquids from passing through to floor.

Tough Absorbent Top
Traps dirt and grime, quickly wicks liquid and dries fast.

Interlocked & Heat Fused Fibres
Trap dirt and offer incredible durability.

Adhesive Backing
Sticks tight, but peels up easily. Won't disintegrate in wet conditions.

91% LOWER environmental impact than rubber-backed mats!*

Depending on conditions and traffic patterns, Grippy Floor Mat only needs replaced twice per year. Grippy Floor Mat would have to be replaced 47 times per year to have the equivalent environmental impact of rubber-backed mats. Even if you OWN rubber-backed floor mats and don't launder them, Grippy Floor Mat still has a LOWER environmental impact of at least 40%.

*Based on an independent Energy and Environmental Impact Comparison of the PIG® Grippy® Floor Mat and Rental Floor Mat study. Conducted by the Golisano Institute for Sustainability, Rochester Institute of Technology, March 20, 2017. Full study available upon request.

Roll — Blue, Grey

Pads — Blue

PIG GRIPPY FLOOR MAT RANGE

Stop slips, trips and falls for good with the thinnest commercial floor mats you can buy.

- Install a high traction, customised walking surface anywhere you need it
- Won't obstruct doors or become a tripping hazard
- Leave mat in place and vacuum, mop, or even deep clean with a floor scrubber
- Durable construction withstands constant traffic for up to 6 months

Our Floor Mat range makes it easy to install a high-traction, customised walking surface anywhere you need it – with no dangerous gaps or overlaps – in entrances, aisles, transition areas, walkways and more.

They are absorbent, quick-drying and dirt-trapping to prevent the tracking and seepage associated with traditional rubber-backed mats, which often leads to dangerous slip and fall incidents and unsightly floors.

Unlike traditional rubber-backed mats, our adhesive-backed Floor Mat range never shifts, ripples or bunches up, so they won't obstruct doors or become a tripping hazard.
And because they are ultra-low profile, they're perfect for use with wheelchairs, walkers and other light-wheeled traffic, too!

The full Floor Mat range can be cleaned along with the rest of your floor – just leave mat in place and vacuum, mop or even deep clean with a floor scrubber for super-easy, stay-in-place maintenance!

Their durable construction withstands constant traffic for up to six months, so you change them out less often – saving you time and money. But, when the time does come to replace them, our exclusive adhesive formulation pulls up easily without leaving any residue behind.

So, for cleaner, safer floors, replace your outdated rental and rubber-backed mats with PIG Grippy Adhesive-Backed Mats – the mat that stays put no matter what.

GRIPPY FLOOR MAT

See Pages 200 - 201

Our original adhesive-backed mat is the ideal solution for commercial environments like offices, receptions and retail environments.

GRIPPY FLOOR MAT STARTER PACK

See Pages 200 - 201

Start creating safer floors and experience how easy our Floor Mat range is to fit, maintain and changeout with this handy all-in-one kit.

GRIPPY CUSTOM-PRINTED FLOOR MAT

See Pages 202 - 203

Adhesive-backed Custom-Printed Floor Mat reduces slip, trip and fall risks while keeping your brand, marketing or even safety messaging front and centre.

GRIPPY FLOOR MAT WITH SAFETY BORDERS

See Pages 204 - 205

Hi-vis, chevron-bordered mat is great for industrial applications, such as warehouses and manufacturing floors, where delineating spaces and walkways is essential.

PIG Grippy Floor Mats

The original adhesive-backed, high-traction mat for coverage everywhere you need it.

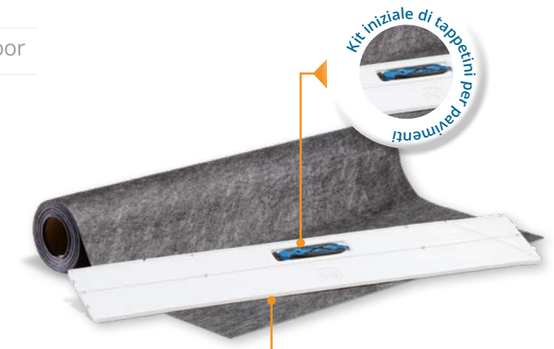

- Extremely-durable and low-profile floor safety solution
- Effortless to maintain and easy to clean
- Customisable floor protection that stops dirt at the door

Our original Grippy Adhesive-Backed Floor Mats range offers a highly absorbent, extremely durable and low-profile floor safety solution that's perfect for reducing slips, trips and falls in high-traffic areas.

It traps dirt, grease, salt, mud and moisture to prevent it being tracked through your premises. And its innovative construction is effortless to maintain and easy to clean using everything from a vacuum to a commercial floor scrubber.

The exclusive adhesive sticks to most commercial floor surfaces and stays put, preventing the dangerous shifting, bunching and flipping associated with traditional rubber-backed mats.

For customisable floor protection that stops dirt at the door, Grippy Floor Mats are available in pre-cut mat lengths or continuous rolls up to 30m long. A Grippy Floor Mat Starter Pack is also available for those looking to trial the product and take the first step toward cleaner, safer floors.

DISCOVER

Get everything you need to experience the performance of Grippy Floor Mats in one convenient pack. The Starter Pack includes a roll of our original PIG Grippy Adhesive-Backed Mat, a Safety Knife for precise cuts, and an Installation Board to assist with fast, professional installation and cleaner, safer floors.

To find out more about the technology behind our original Grippy Floor Mat see page 196.

PIG Grippy Custom-Printed Floor Mats

All the benefits of original Grippy Floor Mat plus your logo or message custom printed!

- High-definition custom printing
- Highly-absorbent, extremely durable and easy to maintain
- Lightweight, low-profile, no-budge design

We combined all the floor safety features and convenience of our original Grippy Adhesive-Backed Floor Mat with the added benefit of high-definition custom printing.

Just like the original Grippy Floor Mat, our custom-printed version offers the same highly absorbent, extremely durable and easy-to-maintain walking surface.

State-of-the-art, UV-resistant, digital printing gives you the flexibility to change your look and/or messaging every three to six months. And the smooth, flat surface produces sharper, more detailed images that won't distort over time like carpet mats do as the pile crushes.

Its lightweight, low-profile, no-budge design is the perfect solution for trapping dirt, grease, salt, mud and moisture to prevent it being tracked through your premises and reducing trip hazards to improve floor safety.

To find out more about the technology behind our original Grippy Floor Mat see page 196.

PIG Grippy Floor Mats With Safety Borders

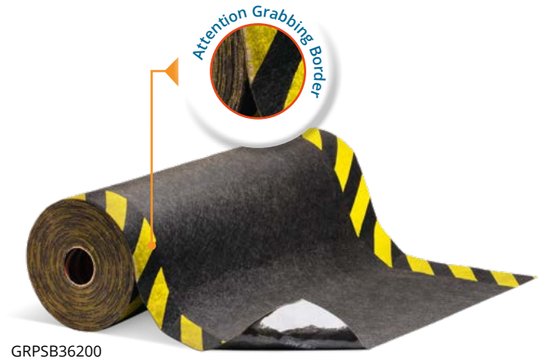

Put the path to floor safety front and centre

- Highlight dangers and create safer pathways
- Durable enough to withstand even the toughest of industrial wear and tear

We combined all the floor safety features and convenience of our original Grippy Adhesive-Backed Floor Mat with a high-vis yellow chevron border to help highlight dangers and create safer pathways through hazardous industrial environments.

The exclusive adhesive backing keeps the mat exactly where you put it with no shifting, bunching up or flipping over.

Its high-traction surface is durable enough to withstand even the toughest of industrial wear and tear, standing up to forklift, pallet truck and heavy foot traffic for up to six months.

PIG Grippy Antimicrobial Mats

All the power of Grippy Floor Mat PLUS antibacterial and antifungal protection.

- Permanent infusion of DW-30 Ultra-Fresh antimicrobial technology
- Wicks liquids away and dries out quickly to stop them reaching your floors
- Can withstand daily mopping and scrubbing

Our Antimicrobial Floor Mats combine all the floor safety features of original Grippy Floor Mat with a permanent infusion of DW-30 Ultra-Fresh antimicrobial technology to help fight odours, mould and bacteria growth.

The polypropylene top layer, combined with the impermeable backing layers, captures water, soapy residue, sanitiser and urine on contact.

It wicks liquids away and dries out quickly to stop them reaching your floors, creating a barrier that prevents staining, grout damage and, most importantly, reduces slip and fall incidents.

The full-coverage adhesive backing sticks tight to most commercial floor surfaces and won't budge underfoot or during routine cleaning. And the durable surface can withstand daily mopping and scrubbing, as well as heavy foot traffic, maintaining a high-traction, non-slip, no-trip walking surface that won't shift, curl or bunch.

These durable, low-profile mats stay in place for up to six months without any deterioration in the antibacterial and antifungal properties, offering cleaner, safer, fresher-smelling washrooms and lavatories for longer.

FLOOR MATS
Grippy Antimicrobial Restroom Mats

PIG Grippy Antimicrobial Restroom Mats

Antibacterial and antifungal floor protection for safer, cleaner, fresher lavatories.

- Keep restrooms fresher, cleaner, and safer with mats that stop slips, capture drips, and protect floors
- Antimicrobial technology prevents odour-causing bacteria and mould
- Adhesive backing keeps mats firmly in place with no shifting or curling
- EFM™ Absorbent Technology captures urine and water, dries fast, and protects floors

We combined permanent antimicrobial protection with our proven Grippy Adhesive-Backed technology to create mats that stay put and keep restrooms under control.

Each mat features a Hi-Trac™ surface tough enough for daily cleaning, an absorbent layer that captures liquids on contact, and a liquidproof barrier that stops stains and grout damage.

Certified by the NFSI for high traction, they reduce slips and trips while keeping restrooms fresher for longer.

PIG Grippy Adhesive-Backed Antimicrobial Floor Mat Bundle (GRP7000)

PIG Grippy Antimicrobial Sink And Dryer Mats

Freshen up with our range of antibacterial and antifungal floor protection.

- Stop splashes from sinks and dryers from spreading across restroom floors to keep spaces safer, cleaner, and fresher.
- Antimicrobial technology prevents odour-causing bacteria and mould
- Adhesive backing keeps mats firmly in place with no shifting or curling
- EFM™ Absorbent Technology soaks up water, dries quickly, and protects floors

We combined antimicrobial protection with our trusted Grippy Adhesive-Backed design to deliver mats that stay in place and tackle messy splash zones.

Positioned beneath sinks and hand dryers, they capture water and soap on contact, dry fast to eliminate puddles, and protect against stains or damage.

Durable and easy to maintain, they help keep high-traffic restrooms cleaner, safer, and fresher-smelling.

PIG Grippy Absorbent Mats

Tough, low-profile, sticks-tight floor protection for industrial environments.

- Can withstand heavy foot traffic, pallet truck and equipment drive-overs
- No-slip, no-trip solution for cleaner and safer industrial floors

Grippy Absorbent Mats, with their layers of fine-fibre polypropylene, safely absorbs leaks, drips and overspray of oils, coolants, solvents and water around workstations, machinery, equipment and walkways in industrial environments.

With its tough spunbonded layer, heavy-duty zigzag stitching and low-profile design, our Absorbent Mats can withstand heavy foot traffic, pallet truck and equipment driveovers in challenging industrial environments without shifting, bunching up or flipping over.

The exclusive adhesive backing sticks tight on most commercial floor surfaces to provide a no-slip, no-trip solution for cleaner and safer industrial floor. Peels up easily when the time comes to replace – stays put for up to three months or until the mat is saturated or showing signs of wear.

Mats are also great for lining workbenches, countertops, toolboxes and more to prevent oily stains and grime.

Use in conjunction with our original Grippy Floor Mat and Grippy Floor Mat with Safety Borders as part of your industrial floor safety programme for cleaner and safer floors throughout your premises.

To find out more about the technology behind our Absorbent Mats see page 197.

DURABILITY

Stays down for up to **3 months**

STYLES

Choice of rolls or mats

COMPATIBILITY

Suitable for hard floor surfaces including:

- Concrete
- Vinyl Tile
- Ceramic Tile
- Quarry Tile
- Linoleum

WHERE IT WORKS

For spill-prone areas, workbenches, toolboxes, dispensing stations, equipment repair areas and around machines with oily overspray in a wide variety of premises and industries, including:

- Manufacturing Environments
- Warehouses & Storage Facilities
- Transportation & Logistic Hubs
- Heavy Engineering
- Works & Machine Shops
- Industrial Paint Booths

MAT MAINTENANCE

Easily clean in place using one of these tools:

FLOOR MATS

Grippy Adhesive-Backed Mats How-Tos

EASY TO INSTALL

Use our installation tool as a guide for straight cuts, then pick it up and use it to smooth Grippy Adhesive-Backed Mat into place. Also works for cutting corners at 45° angles to extend product life.

1. Prepare Floor

Clean, rinse and dry your floor thoroughly to remove detergent film so Mat will properly adhere.

2. Cut to Fit

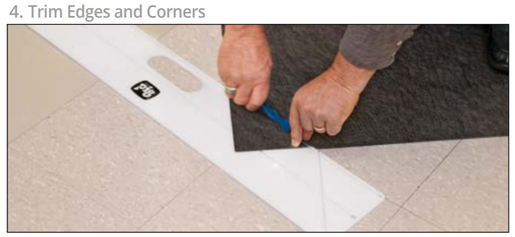

Roll out Grippy Mat and cut to size using a safety knife, scissors or utility blade.

3. Stick It Down

Smooth out mat and press it into place using Installation Board, Roller or other flat edge.

4. Trim Edges and Corners

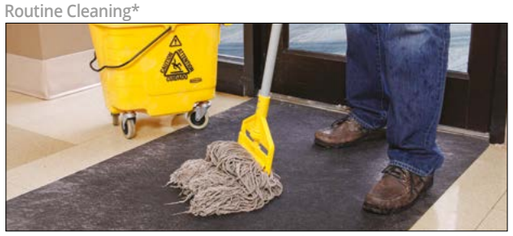

Cut angled corners during installation and trim during use to reduce potential lifting.

EASY TO MAINTAIN

Leave Grippy Mats in place and clean along with the rest of your floor for super easy, stay-in-place maintenance.

Routine Cleaning*

You can sweep, vacuum and mop to keep mat clean and fresh without shifting.

Floor Scrubbers and Extractors*

Pre-treat tougher stains by spot-cleaning before using your scrubber/extractor's low speed/water settings to clean.

Trimming Edges and Corners

If edges become worn or begin to lift, peel back mat until fresh adhesive is exposed, trim and press the new edge into place.

Handling Excess Water*

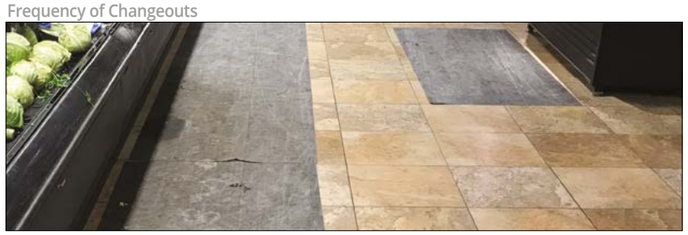

Remove excess water when your mat becomes saturated. Use a wet-vac or extractor to remove excess water and use fans/blowers to reduce drying times.

EASY TO REMOVE & REPLACE

Replacing Grippy Adhesive-Backed Floor Mats is easy – just pull them up! Our exclusive adhesive formulation won't leave any residue behind so you don't need to worry about sticky floors.

Frequency of Changeouts

Our mats are long lasting and extremely durable. When they show obvious signs of wear, or a weakened bond to the floor, they should be replaced.

Removing Mats by Hand

1. Peel up a corner of themat using your fingers or the scraper side of the Safety Knife.

2. Bend at the knees while lifting the corner until the mat can be gripped by both hands.

3. Pull the mat up in a smooth, continuous motion, inching backwards as you go – do NOT use jerking motions to remove.

Removing Mats with our Removal Tool

Most Grippy Mats pull up easily by hand. Our Removal Tool is helpful for removing long runs, wide sizes or mats that have been in place for extended periods of time. Simply lock the tool's jaws onto the mat material and pull.

*Note: Absorbent Mats NOT suitable for mop, spot, or extractor cleaning. Neither Absorbent Mat nor Carpeted Entrance Mat are compatible with floor scrubber cleaning. Handling Excess Water instructions do NOT apply to Absorbent Mat range.

New Pig Grippy® Adhesive-Backed Mat Notice:

New Pig Adhesive-Backed Mats are formulated to work with most common hard-floor surfaces. New Pig Adhesive-Backed Mats are not intended for use on wood flooring with stains, finishes, or coatings. If using the Carpet Protection versions of our adhesive-backed mats, please be sure to use only on carpeted surfaces and never on uncarpeted, hard surfaces. New Pig Adhesive-Backed Mats have non-permeable barrier layers to prevent liquid pass-through and, as such, are considered to be non-breathable and may not be suitable for use on surfaces that require air curing, including, but not limited to, newly poured concrete or recently applied coatings, sealants, and finishes. All adhesive mats have some potential to leave residue or lift or discolour finish coatings, paint, and loose or pre-damaged tiles depending on the condition and age of the floors or other surfaces. For these reasons and others, if you have questions about the suitability of New Pig Adhesive-Backed Mats for your application, test a small section of mat in a discrete or non-critical area before using on larger areas. New Pig Adhesive-Backed Mats are designed for use for up to 3-6 months depending on conditions and traffic patterns. Regardless, New Pig Adhesive-Backed Mats should be replaced immediately if they show signs of wear or damage and should always be replaced no later than 6 months after installation.

CUSTOMER ASSUMES THE RISK THAT A NEW PIG ADHESIVE-BACKED MAT MAY DAMAGE OR ALTER CUSTOMER'S EXISTING FLOORING OR FLOOR COVERING. NEW PIG PROVIDES NO WARRANTY OF FITNESS FOR A TEILCULAR PURPOSE AND NO WARRANTY THAT THE USE OF AN ADHESIVE-BACKED MAT WILL BE ACCEPTABLE FOR USE ON CUSTOMER'S FLOORING OR ANY OTHER SURFACE. NEW PIG SHALL HAVE NO RESPONSIBILITY FOR, AND CUSTOMER HEREBY RELEASES AND DISCHARGES NEW PIG FROM, ANY DIRECT, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES TO OR RELATED TO CUSTOMER'S FLOORS, FLOORING MATERIAL, OR ANY OTHER SURFACES IN CUSTOMER'S DWELLING OR FACILITY. CUSTOMER IS SOLELY RESPONSIBLE FOR DETERMINING THE FITNESS AND APPROPRIATENESS OF THE USE OF A NEW PIG ADHESIVE-BACKED MAT IN CUSTOMER'S DWELLING OR FACILITY.

LEAK DIVERTERS

PIG LEAK DIVERTERS
THERE'S NO LEAK WE CAN'T CATCH.

Europe's largest range of styles, sizes and colours — available right here.

- Leak diverters help capture and divert leaks to minimise damage and help protect people, equipment and inventory.
- This fast, temporary solution helps keeps you operational while permanent repairs are arranged.
- By helping to keep floors dry, leak diverters reduce the risk of slips and support a safer working environment.

CUSTOM BUILD

PIG Leak Diverters for Roofs
Hang in problem areas to redirect overhead leaks, support floor safety, and help reduce the risk of disruption or damage.

PIG Trough Style Roof Leak Diverters
Catch condensation from overhead ductwork and pipes, or divert runoff from conveyors with ease.

PIG Leak Diverters for Pipes
Designed to hang directly from overhead pipes, these diverters capture nuisance drips at the source, helping to prevent puddles, corrosion, and safety hazards.

Build your custom setup using our full range of modular accessories — including straps, hoses, connectors and collection buckets — all designed for compatibility and easy customisation.

SPECIALITY SOLUTIONS

PIG Leak Diverters for Ceilings
Discreet, low-profile diverters that replace standard drop ceiling tiles to channel leaks away without disrupting the look or function of your workspace.

PIG Umbrella Style Leak Diverters
Our fastest solution — installs in seconds for rapid response to surprise leaks.

ALL-IN-ONE KITS

PIG Leak Diverter Kits
Quick and easy grab-and-go leak response. Everything you need, all in one kit.

LEARN HOW TO CHOOSE A LEAK DIVERTER & FIND OUT MORE ABOUT THE RANGE ON PAGES 220-221.

PIG Leak Diverter for Roofs

Take control of roof leaks before they disrupt your business.

Quick to install and built to last, these durable, reusable diverters provide a fast and reliable way to stay operational when leaks strike. The tough, vinyl-coated tarp resists punctures, UV and mildew, making it ideal for long-term use in demanding environments.

A high-capacity design drains up to 12,w6 litres per minute through a ½" hose (sold separately) to help protect your people, equipment and inventory from liquid damage.

Available in clear, grey or translucent options to blend in with ceilings and rooflines for a discreet, professional-looking finish.

305 cm W x 610 cm L	TLS554

NOTE: Not suitable for temperatures over 170°F/77°C.
Dimensions are nominal size due to pinched corners and reinforced side walls.

ACCESSORIES

Hanging Straps
Secure leak diverters in place with purpose-designed hanging straps that work across ceilings, pipes and beams. Options include adjustable and weather-resistant styles to suit both temporary and permanent setups.

Drainage Hoses
Direct collected liquid safely to a drain or container using durable drainage hoses. Transparent hose options allow easy monitoring of flow during use.

Hose Connectors
Create a reliable, customised setup with hose adaptors and connectors that make it easy to route liquid exactly where you need it — even in tight or awkward spaces.

Collection Containers
Use collection buckets for safe, contained liquid capture when floor drains aren't accessible. Hose-ready lids and clearwarning messages support safety and convenience on-site.

See full range of Accessories on pages 242-243.

PIG Safety Message Roof Leak Diverter

Catch leaks. Prevent damage. Promote safety.

This high-visibility yellow leak diverter does more than manage nuisance roof leaks — it also reinforces safety with bold, eye-catching messages printed on both sides.

Engineered for reliability in leak-prone areas, it installs quickly to channel water into a floor drain or collection container, helping to prevent costly downtime.

Durable, reusable and designed to perform in tough conditions.

Use with hanging straps and drainage hoses, sold separately on page 242.

NOTE: Printed with “SAFETY IS EVERYONE’S BUSINESS” messaging — available in English only.

Dimensions are nominal size due to pinched corners and reinforced side walls.

PIG LEAK DIVERTERS
Custom Build for Roofs

PIG Magnetic Roof Leak Diverter Tarp

Quick leak control for metal roofs and surfaces.

Respond quickly to unexpected leaks with this magnetic roof diverter. Sewn-in magnets grip securely to metal surfaces, making installation fast and frustration-free in areas where traditional diverters are hard to hang.

It channels water safely to a drain or container to help protect people, equipment, and inventory from liquids. Additionally, it’s washable and reusable, so you can rely on it again and again.

Integrated corner grommets let you attach hanging straps for extra stability or when fitting to a non-metallic surface.

Use with a drainage hose and, if needed, hanging straps — both sold separately on page 242.

NOTE: Not suitable for temperatures over 170˚F/77˚C.
Dimensions are nominal size due to pinched corners and reinforced side walls.

PIG High Flow Leak Diverter

Catch and divert 38 litres per minute.

Tackle high-flow roof leaks, hosedowns or pressure washing with a diverter that handles serious liquid volume. Designed to drain up to 38 litres per minute, it helps to keep floors dry and workspaces safe.

Made to last, the rugged vinyl-coated tarp is nonpermeable and resists punctures, UV, and mildew, so it keeps performing time and time again.

The integrated 5cm x 7,62m flat hose maintains a steady flow without kinking, thanks to the included 90° elbow and secure clamps. Pinched corners guide liquid smoothly toward the centre for faster drainage, while tear-resistant grommets make setup quick and easy.

Use with hanging straps and drainage hoses, sold separately on page 242.

Accessories

REQUIRED: A

Need more information? See page 220.

Dimensions are nominal size due to pinched corners and reinforced side walls.

TLS675

PIG LEAK DIVERTERS
Custom Build for Roofs

PIG Trough Style Roof Leak Diverter

Stop tricky leaks in their tracks.

Designed for narrow spaces, these reusable leak diverters fit perfectly between joist spans and around overhead pipes to catch nuisance leaks before they cause disruption.

The non-permeable, vinyl-coated tarp resists punctures, UV and mildew, and features stiffening rods for added stability along the full length. At just 41cm wide, it hangs easily in tight spots and breaks down for compact storage.

Use with hanging straps and drainage hoses, sold separately on page 242.

Accessories

REQUIRED: A B
OPTIONAL: C D

Need more information? See page 220.

PIG® Trough Style Roof Leak Diverters

SIZE	ITEM #

TLS560

PIG Cinchable Pipe Leak Diverter

Get close to the source, even in tight spots.

This compact diverter kit utilises cinchable drawstrings to wrap around pipes, beams, and other irregular shapes, capturing more liquid directly at the source.

When leaks appear around awkward components like ductwork, beams or machinery, this compact diverter kit helps you target hard-to-reach leaks with confidence. Cinchable drawstrings create a snug fit around irregular shapes, capturing more liquid and preventing drips from spreading.

The tough, vinyl-coated tarp resists punctures, mildew, and UV for up to 12 months, making it ideal for both indoor and outdoor use — even in harsh conditions. Wash and reuse it repeatedly for a reliable, long-term solution.

Use with a drainage hose, sold separately on page 242.

Accessories

REQUIRED

OPTIONAL

B C D

Need more information? See page 220.

PIG® Cinchable Pipe Leak Diverter

SIZE	ITEM #

Contents: 1 Leak Diverter, 1 Drain Fitting	

NOTE: Not suitable for temperatures over 170°F/77°C.

PIG LEAK DIVERTERS
Custom Build for Pipes

PIG Leak Diverter for Pipes - Horizontal

Purpose-built for pipes to capture condensation and nuisance leaks.

Protect people, floors and equipment by capturing leaks or spray directly from horizontal pipes. This purpose-built diverter wraps fully around pipes with diameters ranging from 1.9cm to 10cm and secures easily with integrated hook-and-loop fasteners.

Its tapered design channels liquids toward the centre for efficient drainage, while the vinyl-coated material resists punctures, UV and mildew for reliable long-term use. A built-in coupling connects to a standard drainage hose (not included).

Keep leak protection on standby, simply wash, store and reuse.

Use with hanging straps and drainage hoses, sold separately on page 242.

Accessories

REQUIRED

OPTIONAL

B C D

Need more information? See page 220.

PIG® Leak Diverter for Pipes - Horizontal

SIZE	ITEM #
72 cm L x 41 cm H	TLS147
Contents: 1 Leak Diverter, 1 Drain Fitting	

NOTE: Not suitable for temperatures over 170°F/77°C.

PIG Leak Diverter for Pipes

Stop pipe leaks before they hit the floor.

Quickly catch nuisance leaks at the source and channel them safely to a drain or collection container—before they can cause slips, equipment damage or downtime.

Made from durable, vinyl-coated material, these pipe-mounted diverters resist punctures, UV, and mildew for long-term use. A built-in hose coupling connects easily to a drainage hose (not included).

Choose from clear, grey or yellow options to match your environment: yellow for visibility, clear for flow monitoring, or grey for a discreet, professional finish.Wash and reuse again and again.

Use with a drainage hose, sold separately on page 242.

Accessories

REQUIRED — B

OPTIONAL — C, D

PIG LEAK DIVERTERS
Custom Build for Pipes

PIG Low-Profile Leak Diverter

Divert leaks in the tightest spots.

When full-size diverters won't fit, this compact, low-profile solution captures pipe and overhead leaks before they create a costly mess. It's perfect for tight or obstructed areas where space is limited but protection is critical.

The durable, vinyl-coated material resists punctures, mildew and UV for long-term use indoors or out. Built-in grommets allow easy hanging with rubber straps (not included).

Wash and reuse for dependable performance, leak after leak.

Use with hanging straps and drainage hoses, sold separately on page 242.

Accessories

REQUIRED — A, B

OPTIONAL — C, D

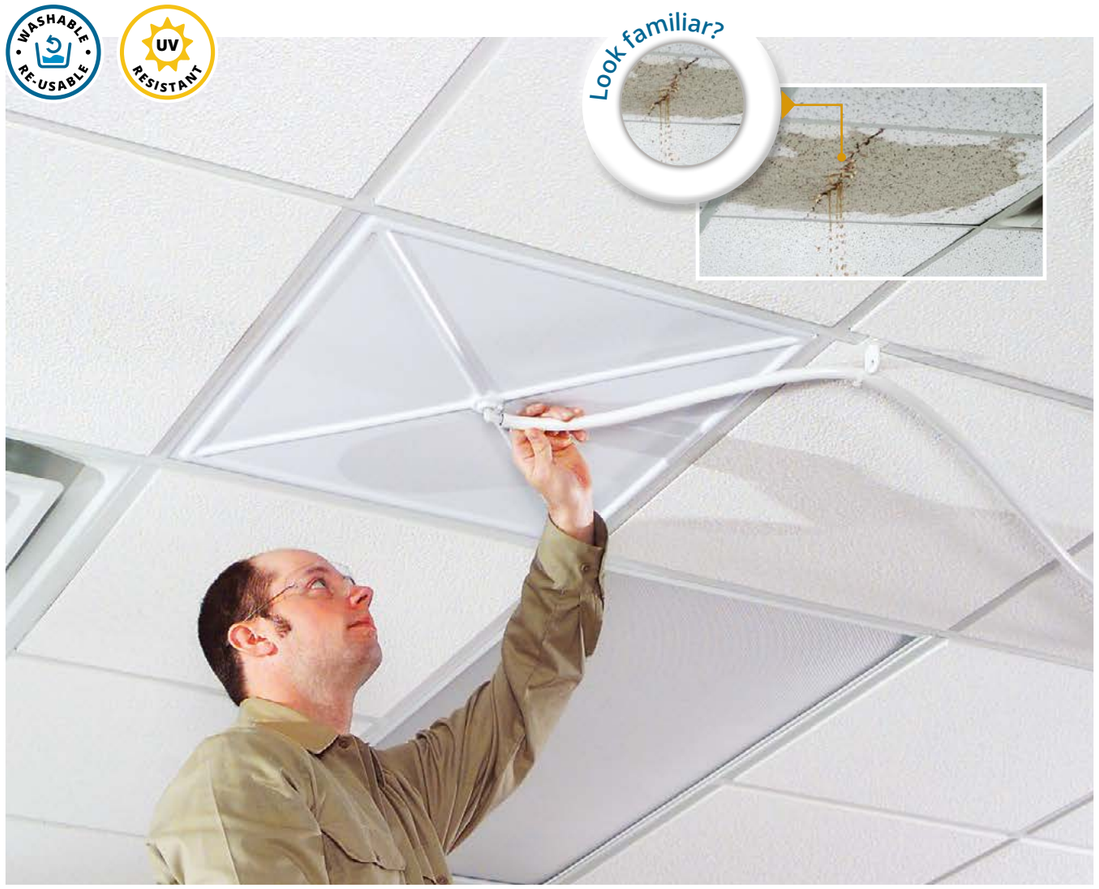

Need more information? See page 220.

PIG® Low-Profile Leak Diverter

SIZE	ITEM #
29 cm Dia x 23 cm H	TLS190

NOTE: Not suitable for temperatures over 170°F/77°C.

PIG Ceiling Tile Leak Diverter

Discreet ceiling leak control for office and commercial spaces.

Protect equipment and prevent slips with a discreet leak diverter that fits seamlessly into standard drop ceilings.

Designed to replace 61 cm x 61 cm (TLS366) or 61 cm x 122 cm (TLS367) ceiling tiles, it channels leaks safely away at a flow rate of 3,8 litres per minute. Each diverter comes complete with a drain hose and ceiling clips for quick, secure installation.

Resolve the leak, then remove, wash and store the diverter for future use.

Accessories

OPTIONAL D

Need more information? See page 220.

PIG® Ceiling Tile Leak Diverters

Contents: 1 Leak Diverter, 1 - 7,6 m L Drainage Hose (9,5 mm ID, 16 mm OD), 6 Ceiling Clips, 9 Tie Wraps	

NOTE: Not suitable for temperatures over 170˚F/77˚C.

PIG LEAK DIVERTERS
Speciality Solutions for Ceilings

PIG Above-the-Ceiling Leak Diverter

Catch leaks early and keep ceiling tiles looking spotless.

Place directly above the ceiling tile to catch leaks before they stain or destroy the surface.

The low-profile design combines with a sturdy, lightweight frame to sit securely above 61 cm x 61 cm or 61 cm x 122 cm suspended acoustic ceiling tiles, directing leaks away from equipment and flooring while staying entirely out of sight.

Built to last, the vinyl-coated tarp resists punctures and mildew, and is fully washable and reusable for continued protection.

Accessories

OPTIONAL D

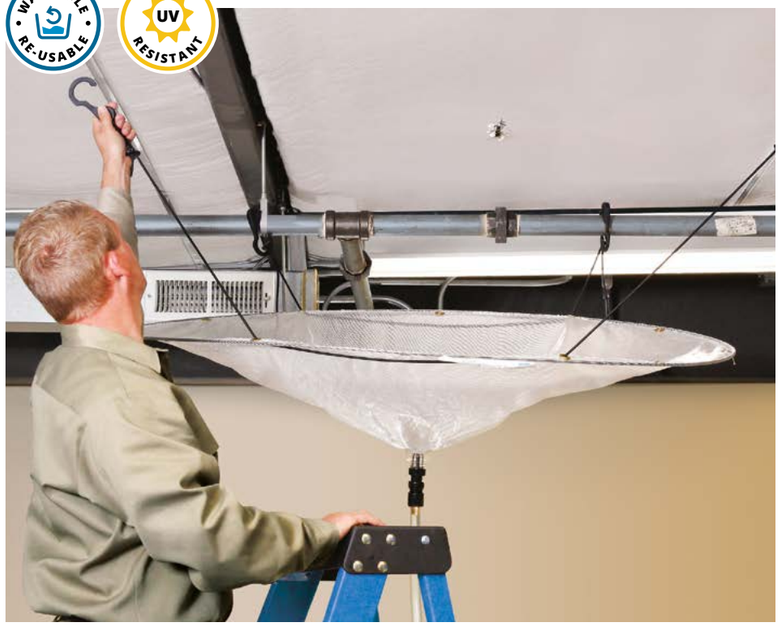

Need more information? See page 220.

SIZE	ITEM #
56 cm W x 82 cm L x 18 cm H	TLS620
Contents: 1 - 76 cm x 107 cm Vinyl Sheet, 1 PVC frame (assembly required), 1 - 762 cm Drainage Hose, 2 Hose Clamps	

NOTE: Not suitable for temperatures over 170˚F/77˚C. PATENT 7,331, 357

A unique rigid outer rim opens like a pop-up tent and holds the diverter open for easy installation.

PIG Spring-Open Roof Leak Diverter Kit

Hang it in place where you need fast response.

The spring-open diverter pops into shape for fast installation and hangs easily in problem areas, even when hanging points are uneven. Adjust the included straps, hooks and clamps to centre and level it in seconds.

A rigid rim holds the translucent, conical tarp open for easy handling and clear visual monitoring. The vinyl-coated material resists punctures, UV and mildew, and the flexible drainage hose connects in seconds using a preinstalled quick-connect adapter. With all components pre-attached, setup is fast, simple and tool-free.

Washable and reusable for repeated use.

76 cm Dia. x 25 cm H	TLS752
86 cm W x 132 cm L	TLS753
Contents: 1 Leak Diverter, 1 Quick Connect Set, 1 - 762 cm L Drainage Hose, 2 Adjustable Length Bungee Cords, 4 Hanging Hooks, 1 Vinyl Storage Bag	

NOTE: Not suitable for temperatures over 170˚F/77˚C.

Hang it in places where you need fast response.

PIG Umbrella-Style Roof Leak Diverter Kit

Divert leaks and drips in the time it takes to open an umbrella.

Hang the diverter from a single point, remove the cover, and it springs open like an umbrella for immediate leak control. The tapered design funnels liquid to the centre, where the included flexible PVC hose directs it safely to a drain or container.

Made from durable, vinyl-coated material, the tarp resists punctures, UV and mildew. It channels up to 12,6 litres per minute and is available in yellow, clear or translucent

Engineered for multiple uses with easy cleaning between deployments.

TLS461

Kit includes your choice of hanging straps or magnets.

PIG Quick Response Roof Leak Diverter Tarp Kit

Grab, hang and divert the leak — fast.

This all-in-one kit provides everything you need, packed into a clear, compact drawstring bag, for a fast and effective response to overhead leaks.

The heavy-duty, vinyl-coated tarp features reinforced grommets for secure placement and a tough construction that resists punctures, UV and mildew. It's easy to clean and reuse whenever needed. Choose between magnetic or hanging straps when ordering. Additional hanging straps are available separately, see range on page 242.

To help prepare the area before setup, the kit also includes five PIG water absorbent mats. Each mat is wringable and reusable — ideal for soaking up any water that has already reached the floor.

PIG Water Absorbent Mats contain 60% pre-consumer recycled cellulose.

PIG® Quick Response Roof Leak Diverter Tarp Kit

Specify with Hanging Straps or with Magnets

SIZE	ITEM #
76 cm W x 76 cm L	TLS1120
Contents: 1 Leak Diverter, 1 Drainage hose, 4 Adjustable Hanging Straps or 4 Magnetic Hanging Clips, 1 Quick Connect Set, 5 Mat Pads, 1 Clear Drawstring Bag	

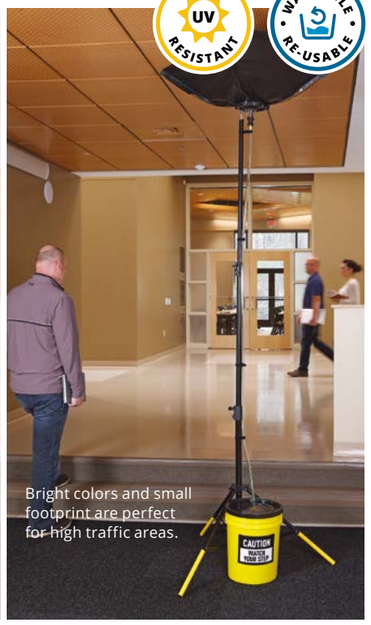

NOTE: Not suitable for temperatures over 170°F/77°C.
Dimensions are nominal size due to pinched corners and reinforced side walls.

Includes five PIG Water Mats for leaks that may have reached the floor.

PIG High Reach Roof Leak Diverter Tarp Kit

Capture ceiling leaks where hanging just isn't an option.

This high-reach, floor-based leak diverter funnels drips from ceilings up to 4,5 metres high—perfect for spaces with no attachment points. The telescoping pole adjusts to 2,7 metres, so one person can set it up without a ladder.

Its stable, hard-to-tip design is ideal for busy foot-traffic areas, with high-vis legs and a "Caution" message to alert pedestrians. The heavy-duty, vinyl-coated tarp resists punctures, UV and mildew, and the included mat helps catch splash-out from higher ceiling leaks.

Built for repeated use, simply clean and store the kit for fast, reliable leak response whenever you need it.

NOTE: Printed with "CAUTION WATCH YOUR STEP" messaging — available in English only.

PIG LEAK DIVERTERS
All-in-One Kits

PIG Leak Diverter Bucket Kit for Roofs

Grab-and-go kits for fast, reliable roof leak response.

Each portable kit packs everything you need to catch overhead leaks into a 24.6-litre bucket. The vinyl-coated tarp resists punctures, UV and mildew, and channels leaks at a rate of 12,6 litres per minute.

All kits include a diverter, hose and adjustable hanging straps. TLS667 and TLS668 also include a quick-connect hose adapter, high-vis PIG Mat Pads to soak up floor puddles, and all-purpose wipes for quick clean-up.

The diverter, hose and hanging straps are built to last and can be reused again and again.

NOTE: Bucket and mat pad message: “CAUTION WATCH YOUR STEP” is available in English only.

PIG LEAK DIVERTERS
Accessories

ADD YOUR LEAK DIVERTER ACCESSORIES

TLS462 (Translucent)
See pages 222-223.

ACCESSORIES

Hanging Straps
Secure leak diverters in place with purpose-designed hanging straps that work across ceilings, pipes and beams. Options include adjustable and weather-resistant styles to suit both temporary and permanent setups.

A

Drainage Hoses
Direct collected liquid safely to a drain or container using durable drainage hoses. Transparent hose options allow easy monitoring of flow during use.

B

Hose Connectors
Create a reliable, customised setup with hose adaptors and connectors that make it easy to route liquid exactly where you need it — even in tight or awkward spaces.

C

Collection Containers
Use collection buckets for safe, contained liquid capture when floor drains aren't accessible. Hose-ready lids and clearwarning messages support safety and convenience on-site.

D

See full range of Accessories
on pages 242-243.

PIG LEAK DIVERTER ACCESSORIES

Customise your setup with the right accessories.

Pair your PIG Leak Diverter with the right accessories for the job. From fast-hanging straps and hose connectors to clear drainage and collection buckets, every item is designed to streamline your setup, help improve safety, and keep operations running smoothly. Choose exactly what you need — nothing more, nothing less — for reliable performance in any space.

A HANGING STRAPS

Hang your diverter securely, anywhere it's needed.

Whether you're working with beams, joists, or uneven ceilings, our hanging straps make it easy to suspend leak diverters exactly where you need them. Choose adjustable straps for maximum flexibility or durable rubber straps for fixed installations in demanding environments.

PIG Adjustable Hanging Straps
Adjust tension and length to suit any setup. Co-polymer hooks are up to five times stronger than standard rubber hooks, providing secure and versatile hanging.

MAINTENANCE & MATERIAL HANDLING

PIG MAINTENANCE & MATERIAL HANDLING. CONFIDENTLY MANAGE LIQUIDS.

Smart solutions that take the mess and stress out of drum and liquid handling.

- Whether you're moving drums, storing hazardous liquids, or dispensing from containers — we make it easier to do it right.
- Our range includes patented funnels, UN-approved drums, heavy-duty dollies and clever accessories designed to simplify every step.
- From secure latching lids to reliable gauges, drum patching pastes to absorbents — every product helps reduce spills, protect people and keep your operation flowing smoothly.

OVERPACK DRUMS

UN-rated drums for safe, compliant storage or transport of damaged, leaking or hazardous containers.

DRUM FUNNELS & GAUGES

Pour and measure with less mess using pop-up gauges and patented funnels for clean, controlled liquid handling.

DRUM LIDS & ACCESSORIES

Secure, seal and access your drums easily with latching lids, tools and essential accessories.

TEMPORARY DRUM REPAIR

Quick-fix solutions to seal leaks and stop drips until permanent repair or disposal.

NOTE: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapours, static discharge and heat sources. For further assistance, please contact your local distributor.

PIG Universal Poly Drum Funnels

Smart full-coverage funnels for cleaner drum work.

Large-diameter poly funnels for clean, splash-free pouring directly into tight-head drums. Their level interior surface makes draining containers, parts or filters easy, while zigzag ridges help catch splashes and hold tools.

DRM452 features 6,7 cm-high sidewalls to contain up to 23 litres of liquid. It fits 210-litre closed-head steel drums and 115-litre closed- or open-head steel drums.

DRM672 fits any 210-litre tight-head steel or poly drum and features10 cm-high sidewalls for added splash protection. An attached, hinged lid keeps out dirt and contaminants, while multiple lid colours support compliant drum segregation.

Made from thick, double-wall polyethylene, both models resist UV, corrosion and most chemicals.

Looking for Barrel Top Mats? See Pages 8,10 & 29

PIG Burpless Poly Drum Funnels

Fast, controlled flow without the risk of splashback.

There is no need to vent through the ¾" bung with our patented burpless funnel design - vents while pouring for fast, controlled flow with no splashback.

Made from thick-walled, 100% polyethylene, they offer excellent resistance to UV, rust, corrosion and most chemicals, while the lockable, hinged lids stay securely attached and come in a range of colours to support easy segregation.

PATENT 5, 676, 185 / 5,402, 835

DRM138

PIG Latching Drum Lid

Access your drum with one hand — no nuts, bolts or hassle.

This patented lid offers one-handed opening for fast, fuss-free drum access.

The secure latch, nitrile gasket and locking mechanism help reduce vapour loss and protect contents, while the lockable latch accepts a ¼" (6 mm) shackle to help prevent unauthorised access.

Powder-coated for long-lasting performance, it stays upright when open and lifts off easily without loosening the band.

Multiple lid colours are available to help segregate drum contents safely.

Adjustable tension means the latching handle will close properly every time.

Removable hinge pin lets you remove the lid without loosening the band.

NOTE: For Repair Purposes Only. Not intended for structural applications.

PIG Plug-N-Seal Patching Paste

Stop leaks quickly, even in cold conditions.

This ready-to-use patching paste stops leaks for two minutes to two hours, giving you time to drain systems or contain the source.

It works without surface prep — even on rust or dirt — and offers strong chemical resistance, especially for fuel leaks.

PIG® Plug-N-Seal® Patching Paste

SIZE	ITEM #
454 g Container	PTY220

PIG Belly Patch

Clamp down on drum leaks — fast.

Heavy-duty ratchet and 1,8 m nylon webbing strap complete with soft urethane patch quickly stops leaks by conforming to drum surfaces and squeezing the flow shut.

The heavy-duty strap fits steel, fibreboard and plastic 250-litre drums, resists aggressive liquids and cleans easily for repeated use.

PIG® Belly Patch

SIZE	UNIT	ITEM #
12,7 cm W x 17,8 cm L	1 Each	PTY231

Urethane Notice: Due to the nature of softer urethane, the physical properties of these products may change over time with exposure to certain environmental conditions like temperature, humidity and UV radiation. Typical life expectancy is 5 years. Please inspect the stored product regularly to ensure it is in a usable state. For more details and for chemical compatibility, please contact your local distributor.

PIG Thick Liquids Absorbent Mats

Purpose-built for paints, glues, resins and more.

When thick, sticky spills overwhelm standard absorbents, these mats soak up.

Their unique air-pocket design draws in paints, glues, resins, syrups and even liquid chocolate with minimal pressure, while also trapping metal chips and heavy debris during clean up.

PIG Non-Sparking Scoop

Safer shovelling for volatile and flammable clean ups.

Designed for use with flammable or volatile chemicals, thisnon-sparking scoop features a durable, chemical-resistant polypropylene head and a hardwood-core handle built to withstand heavy pressure.

Its two-piece design allows for compact storage and easy transport without compromising strength or safety.

PIG® Non-Sparking Scoop

SIZE	ITEM #
15 cm W x 23 cm L x 9 cm H	TLS290

NOTE: Not recommended for use with materials with highly explosive properties.

SPILL CONTAINMENT

PIG SPILL CONTAINMENT
PREVENT SPILLS AND KEEP LIQUIDS IN THEIR PLACE.

Reliable solutions to keep spills contained, liquids secure, and your site compliant.

- PIG Spill Containment offers everything you need to safely store and secure liquids in drums, IBCs and tanks. From quick-deploy collapsible systems to heavy-duty pallets and decks with the lowest loading heights, PIG Spill Containment is built to keep liquids secure in every situation. IBC units provide dependable bulk storage, while spill trays, decks and pans take care of everyday drips and leaks.
- For complete peace of mind, hardtop and covered pallets add weather-tight protection with the convenience of easy access. Together, they deliver unmatched strength, chemical resistance and long-term reliability — keeping spills contained and compliance effortless.

PORTABLE CONTAINMENT

Portable and quick to deploy, collapsible systems provide flexible spill protection with capacities from 29 to over 2,800 litres.

PALLETS & DECKS

Strong and dependable, pallets and decks feature low loading heights and tough grates to make drum handling safer and spill control easier.

IBC CONTAINMENT

Durable and reliable, IBC containment units secure bulk storage, keeping spills contained and your site safe and compliant.

HARDTOP & COVERED PALLETS

Rugged and weather-tight, hardtop and covered units keep liquids protected from the elements while still allowing easy access to drums.

TRAYS, DECKS & PANS

Lightweight and versatile, these everyday essentials catch drips and leaks before they spread, helping you avoid unnecessary clean-ups.

PIG Collapse-A-Tainer Spill Containment System

Affordable drive-in containment that's ready when you are.

PIG Collapse-A-Tainers make spill control simple wherever you need it. The single-piece design sets up in minutes without the need for tools or additional parts, while its low, flexible walls allow forklifts and pallet jacks to move freely for easy loading and unloading.

Built from tough, chemical-resistant geomembrane, it withstands demanding use while folding flat for convenient transport or compact storage. Ideal for remote sites, mobile operations, or emergency response.

Helps you comply with containment regulations.

Collapsible sidewalls have attached skirt with aluminum-reinforced supports.

Sides easily fold down to allow pallet jacks and forklifts to be driven into and out of containment.

Quick setup. Just pull out one support and the entire wall takes shape.

Even the 305 cm x 305 cm system (PAK793) folds to a size that's easy to handle, carry and store.

**Need Spill Kits for on-the-go response?
See page 117**

Accessories

Get more from your Collapse-A-Tainer with accessories designed to extend the life and durability of your system — so it's ready when you need it most.

Ground Tarpaulin

Ground Tarp provides extra puncture resistance on paved surfaces.

PIG Collapse-A-Tainer Lite Spill Containment Berm

Compact, lightweight containment that's perfect for small jobs.

Designed for smaller jobs and tight spaces, this durable, high-visibility vinyl containment solution is lightweight, chemical resistant and easy to handle. Low 20 cm sidewalls allow simple step-over access, while the one-piece design deploys instantly without tools and folds flat for convenient transport and compact storage.

Use in conjunction with a PIG Deck Grate to create a stable, slip-resistant floor that lets leaks and drips drain straight through. It handles up to 11,340 kg uniformly distributed load (UDL) and resists chemicals, rust and corrosion for long-lasting, reliable containment performance.

Helps you comply with containment regulations.

PIG Portable Containment Pool

Compact containment that's ready when and where you need it.

A simple, reusable solution for leaks, ruptures and decontamination tasks on the go — it unfolds in seconds, is lightweight and compact, and folds easily for storage in service vehicles or emergency kits.

Made from heavy-duty, 18 oz., vinyl-coated polyester that resists punctures, tears and chemicals, the flexible pool features a self-rising foam ring that lifts as it fills.

For added convenience, durable, easy-clean, PVC-laminated polyester storage bags* with a hook-and-loop closure and strong carry handle are available (sold separately) to keep your portable spill containment pool neatly stored and protected between uses, so you're always ready to respond.

PIG ESSENTIALS CONTAINMENT

SAFELY STORE HAZARDOUS LIQUIDS

Affordability is the key feature of our PIG Essentials line of containment products. Keep your workplace safe and secure by properly storing and securing your drums.

PROTECT YOUR PEOPLE AND YOUR BUDGET— EXPLORE THE PIG ESSENTIALS CONTAINMENT RANGE ON PAGES 263, 267 & 269.

PIG PALLETS AND DECKS: BEST IN CLASS

Containment products are your last line of defence against hazardous liquids — so failure isn't an option. That's why we go further than anyone else in testing and performance, building every pallet and deck to handle the toughest demands of your workplace and stand up to whatever you throw at them.

1. **UNSURPASSED STRENGTH:**
Every PIG Pallet and Deck is built to support the maximum load long-term. Even fully loaded, our products won't bow, buckle or break.

2. **THICKEST GRATES ON THE MARKET:**
Anti-slip structural grates on our Heavy-Duty Pallets add incredible strength - ours won't bend like cheaper alternatives.

3. **LOWEST LOADING HEIGHT:**
A low pallet height means less effort to load and unload drums safely on and off the pallet.

4. **PROVEN CHEMICAL COMPATIBILITY:**
Our pallets and decks are compatible with every type of non-flammable liquid you need to store, whether it's corrosive, oily or anything in-between.

USED OIL

5. **RIGOROUS TESTING:**
We subject all of our products to more punishment than you can ever dish out, so you can be sure that, when we say a pallet can stand up to a 4,000 kg. load, it can.

NEED CONTAINMENT?

WE'LL HELP YOU CHOOSE THE RIGHT TYPE.

PALLET OR DECK?

PAK210
PIG Poly Spill Containment Pallet
See page 262

Pallets are best when:

- You need full containment for your drum storage area to meet regulations; Spill Pallets have larger sumps to accommodate the number of drums they're intended to be used with.
- You need to move your containment with a forklift; most models can only be moved without drums, but our Heavy-Duty Pallets can be moved fully loaded (see page 262).
- You don't have enough floor space to build a modular drum storage system; pallets are taller, making them a better choice when you can't build outward.

When only strength and compliance will do — choose PIG Containment Pallets. See page 262

PAK531
PIG Poly Modular Spill Deck
See page 264

Decks are ideal when:

- You need to store drums of non-hazardous liquids in order to catch leaks and drips, but compliance is not required.
- You need to store smaller containers of hazardous liquids in full containment to meet regulations; as long as the math works out, decks can help you meet regs, but not as efficiently as pallets.
- You need easier access to your drum tops or containers; decks are lower profile than pallets, keeping stored items closer at hand.
- You need to connect multiple units with shared sumps.

Smart, low-profile containment for safer, easier access - find PIG Containment Decks on page 264

NEED A RAMP?

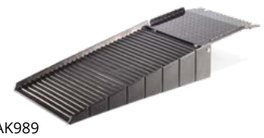

We'll help you choose the right one.

PALLETS

PIG Heavy-Duty Poly Spill Containment Pallet

Won't bow, buckle or break — even under loads up to 4,082 kg.

Engineered for maximum strength and durability, the moulded-in sump captures leaks and drips, helping you stay compliant with containment regulations and maintain cleaner, safer work areas.

A low 22 cm profile reduces lifting effort for safer, easier drum handling, while 2-way forklift access allows movement from either direction. Durable, chemical-resistant polyethylene decks and anti-slip grates ensure long, reliable performance in demanding environments.

PAK604 contains 38% and PAK672 contains 48% post-industrial recycled polyethylene.

Optional loading ramp (PAK734) available for safer, easier drum handling. Lightweight, chemical-resistant and secure, it provides a smooth, stable transition for loading and unloading with a hand truck.

PIG Poly Spill Containment Pallet

Strong, reliable containment for everyday drum storage.

Built from tough, chemical-resistant polyethylene, these pallets support fully loaded drums without rusting, corroding or weakening over time. A moulded-in sump captures leaks and drips to help maintain compliance, with PAK210 offering a low 25 cm profile for easier drum loading and access.

PAK210 contains 97% and PAK605 contains 40% post-industrial recycled polyethylene.

Pair PAK210 with the optional Poly Loading Ramp (PAK734) for safer, easier drum handling. Lightweight, chemical-resistant and stable, it provides a smooth, secure transition for loading and unloading with a hand truck.

PIG Essentials Poly Spill Containment Pallet

Affordable containment for everyday drum storage.

Keep your workspace safe and compliant with reliable, budget-friendly containment. The moulded-in sump captures leaks and drips, while durable polyethylene resists UV rays, rust and corrosion.

Removable grates make inspection easy, and forklift entry on select models — 2-way for PAKE231SW and 4-way for PAKE232SW — allows easy movement when unloaded. Available in 1-, 2- and 4-drum configurations, including an inline option (PAKE233SW).

PAK233SW

PIG Poly Drip Deck

Low-profile containment that's easy to load and built to last.

With a 15 cm height for easy drum access, these durable polyethylene decks make loading, unloading and liquid transfer simple. The moulded-in sump captures leaks and drips to keep floors clean, while textured, lift-out grates provide safe footing and easy maintenance.

PAK527 contains 39%, PAK565 43% and PAK566 48% post-industrial recycled polyethylene.

Add an optional loading ramp (PAK726) for safer, easier drum handling — lightweight, chemical-resistant and easy to position, with edge guards and steel clamps for a secure, stable fit.

PIG Poly IBC Containment Unit

Built low for easy dispensing. Built strong to last.

Designed for long-term performance, these heavy-duty units safely support IBCs up to 3,632 kg.

Their innovative construction channels weight evenly for maximum strength, while a moulded-in sump captures leaks and drips to keep storage areas clean and compliant.

Durable, chemical-resistant polyethylene and lift-out grates make maintenance fast and straightforward and, for added convenience, PAK736 features an integrated shelf that keeps dispensing neater and makes it easier to fill 19-litre buckets or smaller containers.

PAK735 contains 27% and PAK736 26% post-industrial recycled polyethylene.

For further assistance, please contact your local distributor.
NOTE: Remove all drums & containers from the pallet before moving.

PIG Poly Modular Spill Deck

Build the containment system that fits your space.

Create a custom drum storage area with modular decks that connect easily and share sump capacity to meet containment regulations.

The patented flow-through sump design lets liquid move safely between connected decks, while each low-profile unit is built from durable, chemical-resistant polyethylene with a textured surface for added traction and safety.

PAK524 contains 39%, PAK529 43% and PAK531 48% post-industrial recycled polyethylene.

PIG Twin Poly IBC Containment Unit

Easy access, double capacity containment for safer dispensing.

Store and dispense from two IBCs with confidence. The low-profile, all-poly construction resists chemicals, rust and corrosion, while the full, flat-grate surface makes positioning easy.

Designed for demanding environments, the unit supports up to 3,000 kg UDL and provides a generous 1,100-litre sump to contain leaks, drips and spills for cleaner, compliant storage.

PIG Essentials Poly IBC Containment Pallet

Affordable containment made simple for everyday IBC storage.

Reliable polyethylene containment pallet, with moulded-in sump, supports IBC loads up to 2,000 kg, capturing leaks and drips to help you stay compliant and maintain a cleaner, safer workspace.

Its compact footprint saves valuable floor space, while 2-way forklift entry allows easy movement when unloaded.

Add the optional 100-litre “mini sump” dispensing bucket (PAKE236SW) to create a neat, contained dispensing station with overflow returning safely to the main sump.

CONTAINMENT
IBC Containment

PIG Essentials Single IBC Poly Containment Pallet – Nestable

Smart, space-saving containment for everyday IBC storage.

This nestable pallet makes containment and delivery more efficient, cutting transport and storage costs without compromising strength.

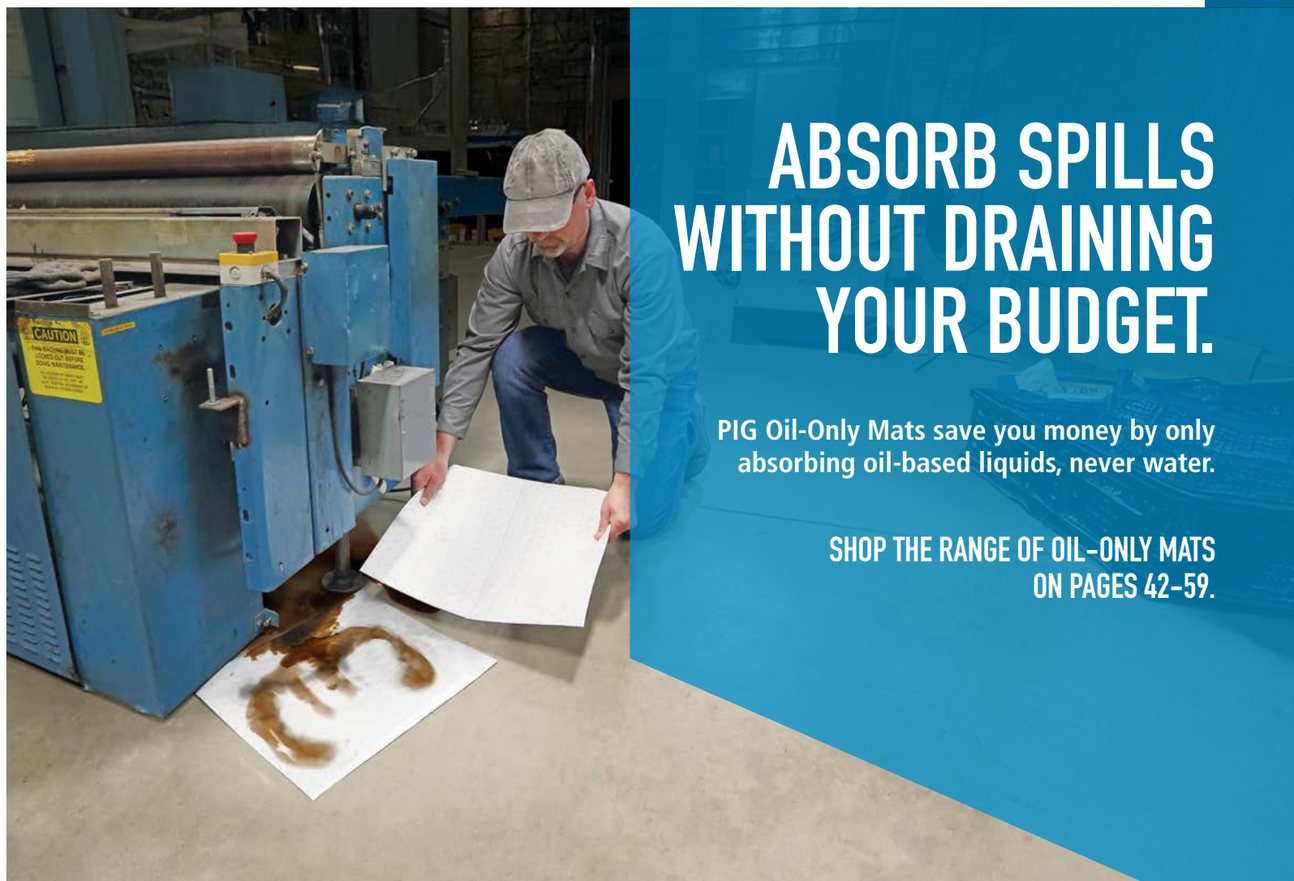

Built to hold a fully loaded IBC up to 2,500 kg, this tough polyethylene pallet resists UV, rust and chemicals for long-lasting performance. The moulded-in sump captures leaks and drips to maintain cleaner, compliant storage, while 2-way forklift entry allows quick, easy positioning from either direction when unloaded.

For further assistance, please contact your local distributor.
NOTE: Remove all drums & containers from the pallet before moving.

Hardcover and pallet can be lifted by a forklift with drums in place. No need to unload them!

PIG Roll Top Hardcover

All-weather protection with easy access to your drums.

Built from low-density polyethylene (LDPE) with UV inhibitors, this durable containment system resists rust, corrosion and most chemicals for long, trouble-free performance.

Designed with everyday use in mind, its roll-top cover slides up smoothly and stops at waist height, eliminating awkward bending and reaching, while swing-out front doors make loading effortless. A moulded sump in the low-profile pallet captures leaks and spills, keeping your storage areas clean and compliant.

Lock the unit with a padlock to keep contents secure (padlock not included).

Contains 13% post-industrial recycled polyethylene.

Make drum handling safer and simpler with an optional loading ramp (PAK734). Lightweight and chemical-resistant, it creates a smooth, stable surface for loading and unloading with a hand truck.

PIG Essentials Hardtop Drum Containment Pallet

All-weather protection that keeps your drums safe and accessible.

Built from UV-stabilised, double-walled polyethylene, these rugged containment units stand up to rust, corrosion and harsh chemicals for long-term, worry-free performance. Their weather-resistant design keeps contaminants out of stormwater, helping you stay clean and compliant.

Forklift pockets and recessed anchor points make handling and positioning simple when empty, while sliding doors (80 mm clearance recommended) offer added security (padlock not included). Available in 2- and 4-drum models for reliable protection indoors or out.

Designed with usability in mind, tall headspace allows pumps and funnels to remain in place, and smooth-sliding shutters provide easy access from either side.

PIG Essentials Covered Drum & IBC Containment Pallet

Smart, weatherproof containment that works the way you do.

Easy to assemble and built for everyday reliability, these covered pallets combine a sturdy steel frame with a tough PVC tarpaulin to protect drums and IBCs from the elements while keeping contaminants out and leaks and drips contained.

With a roll-up front flap for quick access and tall headspace that allows pumps and funnels to remain in place, dispensing is clean, convenient, and ready when you are.

Two-way fork access for easy positioning when unloaded.

Poly Utility Trays

Simple, reliable containment for benches, shelves and workstations.

Rotationally moulded from durable polyethylene, these flat-bottom utility trays offer strength and chemical resistance in demanding environments — ideal for applications that would compromise injected or thermoformed trays.

The light-coloured surface makes it easy to spot small parts such as screws or springs, while the square modular shape helps maximise space on benches and shelves.

With moulded edges, this tray safely contains drips, leaks and small spills to help keep work areas clean and under control.

Fibreglass Chemical Tray

Made to last. Built to resist. Designed to perform.

Built from reinforced thermoset fibreglass composite, this tray combines exceptional strength with long-lasting chemical resistance, maintaining its shape even under heavy loads.

The seamless, easy-clean design prevents dirt build-up and can be steam cleaned or sterilised between uses, ensuring reliable performance in demanding environments.

Tray's moulded edges safely contain drips, leaks, and minor spills, helping keep work areas clean and under control.

Fibreglass Chemical Tray

PIG Pallet & Utility Trays

Tough, versatile trays for everyday containment.

Built for strength and chemical resistance, these trays provide simple, dependable protection against leaks, drips and spills. Rotationally moulded from thick-wall polyethylene, they won't bend, warp or corrode — even under heavy use. Reinforced ribs add stability and elevate stored parts, containers, or batteries above trapped liquids, keeping them clean and dry.

Compact and stackable, utility trays are ideal for benchtops, shelves, or temporary storage of leaky components, while the pallet containment tray (PAK112) sits perfectly at floor level or on a standard pallet to make moving drums and containers easy, helping keep floors safe.

PIG Utility Tray with Grate

Stronger, smarter containment for leaky parts and containers.

Temporarily store leaky parts, batteries, grimy engines awaiting repair or liquid containers with confidence.

Designed for everyday use, this heavy-duty polyethylene tray includes a built-in sump to capture drips and spills, with a removable grate that keeps items raised above collected liquid. Strong, heavy-duty walls and a ribbed bottom provide excellent stability and resist warping, while the chemical-resistant, rust-free construction delivers long-lasting performance.

Contains 55% post-industrial recycled polyethylene.

PIG® Utility Tray with Grate

PIG Collapsible Utility Tray

Compact containment that's ready when you need it.

Flexible, easy-to-clean PVC tray folds flat for compact storage yet deploys instantly to catch leaks, drips and spills wherever they happen.

Rigid corner supports hold the tray upright when in use, creating a quick, reliable containment area for small liquid transfers, maintenance tasks, fluid changes, or engine part cleaning

Lightweight, portable, and reusable, they make spill control easy, helping you maintain a clean, compliant workspace.

PIG Utility Pans

Lightweight, versatile pans for everyday tasks.

Economical and easy to handle, these durable pans are designed for a wide range of workplace uses — from capturing drips and holding small parts to organising tools or temporary storage.

The chemical-resistant polyethylene construction withstands everyday wear and cleans easily with soap and water. When not in use, the nestable design saves valuable space in storage or transit.

Use alone or pair with PIG Pillows (PIL204, sold on page 94) to absorb liquids as they collect for faster, easier clean-up.

PIG® Utility Pans

26 cm W x 26 cm L x 7,6 cm H	4 L	12/Box	PAN404

PIG Essentials Spill Trays

Practical, space-saving containment that stands up to tough liquids.

Lightweight yet tough, these polyethylene spill trays are built for everyday containment of acids, caustics, oils and other liquids. The durable, chemical-resistant construction won't rust, corrode or warp, delivering long-term reliability in demanding environments.

Available with or without removable grates, each tray keeps work areas clean and compliant — either by allowing containers to sit securely within the sump or by raising them above collected liquids.

Designed for efficiency, trays are stackable for easy transport and storage and fit neatly on standard Euro pallets.

NOTES

ABSORBENTS
Pig absorbents work as hard as you do. Our absorbents deliver the performance & hardworking features you just won't find anywhere else!

pg. 004

WIPES
Tough on mess, Gentle on surfaces. Handle any job with ease — from heavy-duty scrubbing to fine dusting.

pg. 106

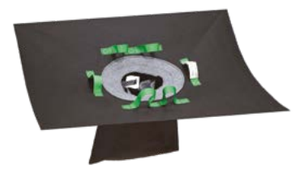

SPILL KITS
The all-in-one solution for liquid clean-ups. Everything you need for a fast, effective response wherever spills happen.

pg. 116

SPILL CONTROL
Take control before spills take over. Protect drains and stay compliant with reliable control for sudden spills and liquid management.

pg. 158

STORMWATER & FLOOD DEFENCE
Ready for every storm. Prevent unexpected water from entering your premises and stop debris from entering your drains.

pg. 178

FLOOR MATS
Take control of your floor safety. Reduce slips, trips and falls with our range of floor safety solutions for the entire workplace.

pg. 190

LEAK DIVERTERS
There's no leak we can't catch. Europe's largest range of styles, sizes and colours — available right here.

pg. 218

MAINTENANCE & MATERIAL HANDLING
Confidently manage liquids. Smart solutions that take the mess and stress out of drum and liquid handling.

pg. 244

CONTAINMENT
Prevent spills and keep liquids in their place. Reliable solutions to keep spills contained, liquids secure, and your site compliant.

pg. 254
